ison yesterday greeting Norfolk friends.

Miss Minnie Fricke came in on the
noon train from Madison and will be
the guest of Miss Irene Dexter for a few
days.

Arthur Taylor of Cedar Rapids, Iowa,
arrived in the city last evening to visit
for several days with his cousin, C. S.
Hayes.

Julius Layman was arrested this
morning on the charge of being drunk
and disorderly. He got a sentence of
ten days from Police Judge Hayes.

A large delegation of Norfolk Wood-
men with their families and friends,
took advantage of the excursion this
morning and are spending the day at the
Woodman picnic at Battle Creek.

A new sidewalk is being laid in front
of the Trocadero. If a few other busi-
ness houses along Main street will fol-
low suit no serious objections will be
raised by the average pedestrian.

Now that a woman has been fright-
ened to death by the setting off of a
burglar alarm at her home in San Fran-
cisco, it is considered by some that it
will in the future be safer to let the
burglars come and burgle without any
clamorous accompaniments.

Miss Emma Bonker of North Bend is
a late arrival at the hospital for insane.
Religious matters are supposed to have
been the predisposing cause of her de-
mentia and the excitement occasioned
by the Fourth was the climax that made
her violent. She is 26 years of age.

Russell Thompson has gone to Ran-
dolph to take charge of the Davenport
shoe store at that place and will relieve
Geo. Davenport, who will arrive tonight
or tomorrow to take charge here, while
Frank Davenport and family will go to
Kansas on a visit. They expect to start
next Friday.

The Hubbard County Enterprise, pub-
lished at Park Rapids, Minn., of which
Henry R. Cobb, formerly with The
News, is editor, has been enlarged from
a 6 column to 8-column quarto and its
appearance has been much improved
since Mr. Cobb assumed the editorial
management.

At Oxnard, California, trouble is being
experienced in getting beets thinned.
The Courier says that 2,000 men are
needed for the acreage, and scarcely half
that force is available. Prices of \$4.50
to \$6 per acre are being offered, and as
the situation now stands, they will be
compelled to employ all kinds of labor,
Japanese, Chinese or what-not, or see
their crops ruined, and fail to furnish
the factory with the necessary beets for
campaign.

The bell for the Second Congregational
church, generously given by Mr. Bid-
well, general manager of the F. E. &
M. V. R. R., arrived yesterday morn-
ing, and rung for the service last
night. It was made by McNeely & Co.
of West Troy, New York, is 375 pounds
in weight, has a B sound and is of excel-
lent tone and workmanship. At its ser-
vice last evening the church formally
and cordially thanked Mr. Bidwell for
his generous and valuable gift.

It would be judged from the report in
the World-Herald today that the
Greater American exposition is almost a
gone goose. That paper says the enter-
prise now has "an empty treasury, an
everdraft of \$3,000 and bills aggregating
\$15,000 demanding immediate pay-
ment." The attendance at the fair, ex-
cept on the Fourth, has been mighty
slim and the management can scarcely
be blamed if they feel blue. Had they

taken the advice of their country cousins
and not attempted another exposition
this year, the promoters would undoubt-
edly have been ahead at this time.

Buffalo, N. Y., is arranging for a Pan-
American exposition to be held from
May 1 to November 1, 1901, on the Ni-
agara frontier. The authorized capital
is \$2,500,000, authorized bond issue,
\$2,500,000, United States government
appropriation, \$500,000, New York state
appropriation, \$300,000. The purpose of
the exposition is to bring about closer
trade and social relations between the
peoples of the three Americas. The ex-
position will be exclusively American
and will demonstrate to the world the
progress that has been made in the arts,
sciences and manufactures during the
past century on this side of the water.

A special car passed through the city
today over the Union Pacific. It con-
tained F. H. Peavy of Minneapolis,
president of the Omaha Elevator com-
pany, and other officers of the same com-
pany, with friends and relatives. The
party's wants are looked after by As-
sistant Passenger Agent Lane of that line.
The route lays over the Union Pacific
lines in Nebraska and Kansas, the object
being to examine into the wealth, crop
prospects and other business features
of towns along the lines. Members of
the party expressed themselves as high-
ly delighted with the outlook for crops
in this section of the country and other
portions through which they passed.
The trip is being hugely enjoyed.

An exchange advises the housewife
never to cook fruit with sugar if economy
is desired. It goes on to say that fresh
fruit should be cooked in boiling water.
The sugar should be added after the
fruit is cooked. Another exchange
gives the following advice: Some fruit
never seems to get sweet when cooked
with sugar. The trouble is that ordinary
fruit acids, when heated with certain
fruit acids, is converted into grape sugar.
This sugar has only one-third the
sweetening power of cane sugar, and so
a good deal is required. This can be over-
come by putting in a little baking pow-
der with the sugar, and this will so neu-
tralize the acids of the fruit as to pre-
vent the conversion of cane sugar into
grape sugar.
A writer in an exchange gives the

following simple treatment for burns:

"A girl of 11 years turned over a gallon
of boiling liquid on her leg and foot.
When the stocking was removed the
skin came with it and the pain was in-
tense. I tore a strip off an old sheet,
and having put nearly a pound of soda
on the limb, wrapped the sheet about it
in such a manner as to exclude the air,
bound it firmly, saturated it well with
coal oil, and in fifteen minutes she sat
with her foot in a chair and joined in
the other children's play. In two days
she was in school, and in two weeks the
limb was well. It never pained her af-
ter it was dressed. A barefooted boy
stepped on fire, and was almost in
spasms with the pain. I bound on soda
and coal oil, and in less than twenty
minutes he was asleep and had no more
pain. I know it is the best remedy for
burns."

Cyclists were out in force last night
armed with door bells, dinner bells, cow
bells, auction bells, gongs, cymbals, tin
horns and other noise making contriv-
ances to show that they now fully un-
derstood at least one phase of the bi-
cycle ordinance. Their zealous showing
of a desire to live up to the law is no
doubt pleasing to all law abiding citi-
zens but it is hinted that while some of
them were overdoing one particular sec-
tion they had lost sight of others, and if
they would use the surplus energy dis-
played in mastering all the intricacies
of the law they would stand a better
show of keeping out of Police Judge
Hayes' court. For instance it is said
that some of them were riding four
abreast which is in violation of one of
the clauses of the ordinance. If the
law is strictly adhered to in all its pro-
visions it will be better for all who ride
the wheel as well as those who do not.

Joined Hearts and Hands.
At the home of Mr. and Mrs. W. E.
Spencer on South Twelfth street Miss
Minnie Baumgardner and Mr. Geo. W.
Williams were today united in the bonds
of holy wedlock.

Miss Nellie Williams and Mr. and
Mrs. Spencer received the guests, who
included only a few relatives and
friends, while little Vera Spencer waited
upon the door.

Cut flowers were arranged in pretty
vases through the parlors.
It was 11 o'clock this morning when

the couple took their places before the

large front window where Rev. Van
Fleet of Trinity Episcopal church met
them and, after proceeding with the
impressive ceremony, pronounced them
man and wife.

The bride looked very pretty in her
simple gown of blue mousseline de Faille
silk with shirred yoke and ribbon trim-
mings. She carried bride's roses.

After words of congratulation were
spoken the guests were seated and
bountiful refreshments were served.

Mr. and Mrs. Williams left over the C.
St. P. M. & O. road at 1:25 for a trip to
Minneapolis and Duluth, Minnesota.
They will return about August 1st and
make their home at the residence of the
groom west of the city.

The bride is well known to the people
of Norfolk and vicinity. She is a sister
of Mrs. Spencer and has called this her
home for several years, during which
time she has held a prominent position
as a teacher of schools in the county, be-
ing for one year assistant principal of
the Battle Creek schools.

Mr. Williams is also a well known
resident of this vicinity, having lived
here for many years. He is one of the
leading stockmen of this section of the
state.

All will unite with THE NEWS in
wishing Mr. and Mrs. Williams much
pleasure and prosperity through life.

Does Coffee Agree With You.
If not, drink Grain-O—made from
pure grains. A lady writes: "The first
time I made Grain-O I did not like it
but after using it for one week nothing
would induce me to go back to coffee."
It nourishes and feeds the system. The
children can drink it freely with great
benefit. It is the strengthening sub-
stance of pure grains. Get a package
today from your grocer, follow the
directions in making it and you will
have a delicious and healthful table
beverage for old and young. 15 and 25c.
