crowd in attendance rather suddenly, but a good time and successful meeting are reported in spite of that fact.

Battle Creek Republican: T. L. White, P. H. Ingoldby and S. K. Warrick drove to Norfolk early Tuesday morning and boarded the train there to go to their old homes in Grayson county, Va., where they will spend a month visiting their respective relatives and friends at various points. This is their first vacation for several years, and they departed in high spirits, bidding business cares good bye as well as friends for a period of thirty days.

Winside Tribune: Some inquiries are now being made by prospective land purchasers, both home and foreign, although no great activity is usually expected before harvest. The prospects are now that there will be considerable activity in the real estate line after harvest, and on until spring. Local parties will do well to cast about now for the most suitable farms, best bargains, etc., while they are yet obtainable and before outside parties come in and take their pick.

C. S. Evans of the Times-Tribune succeeded in securing signers to his appeal bond Saturday and took it over to Madison where he secured an order of release of the execution from the court. He returned with it on the evening train and Constable Spaulding resigned his position in the office forthwith. Not being able to secure an assistant the constable threatened to close the shop unless the order was forthcoming. The signers on the appeal bond are J. C. Osborn and John Wright of Emerick, and C. S. Evans, Geo. H. Spear, F. A. Bryant and H. W. Winter of this city. The force went to work after securing possession and got out a paper yesterday morning.

The editor of the Schuyler Quill was hit by an egg one day last week which was thrown by a woman named Cora Wilson. The fruit struck the editor's shoulder and D. Dunkel, clerk of the district court, who was walking with him. The woman demanded an apology for an article which appeared in the Quill last winter when she was confined in the county jail for stealing coal, claiming that she had been slandered. The editor refused to retract the statement and the above was the consequence. The woman had trouble with other men of the town on the same day. She was arrested and given an examination before the insanity board Saturday. The results of its deliberations have not yet been learned.

While at work on the wind mill at Meadow Grove Saturday afternoon John Olson, an employe of the F. E. & M. V. railroad suffered a fall that came very near resulting in his death. He was tightening a loose bolt with a wrench when that tool caught in some manner and the wheel struck him knocking him off the tower. He fell to the ground, a distance of about 40 feet, the concussion rendering him unconscious for hours. Dr. P. H. Salter, the company physician, was hurriedly summoned and sent up to Meadow Grove. He tended to the injured man and brought him to this city where he has been receiving every attention at the sanitarium. A broken thigh and arm and concussion of the brain are the injuries from which the man is suffering as a result of the fall, besides being severely bruised on other parts of his body. Under the excellent care he is receiving, the injured man is getting along nicely and his condition is improving continually.

It is said that the base ball event of the season will take place on the grounds in Olney's pasture tomorrow afternoon, beginning at 2 o'clock promptly, when a nine composed of Norfolk's legal lights will tackle any team that chooses to appear from the four corners of the earth. The lawyer nine has been assigned the following positions: Burt Mapes, ss; Fred Free, 1 b; A. Koenigstein, p; Jack Koenigstein, c; A. Hazen, 3 b; Squire Fuller, 2 b; Judge Barnes, cf; Judge Powers, rf; John R. Hays, lf; substitutes, M. D. Tyler, Police Judge Hayes, H. D. Kelly, Geo. L. Whitham, D. J. Koenigstein and E. P. Weatherby. Constable H. L. Spaulding will be the official umpire and will sustain no objections of an irrelevant and immaterial nature. No fees will be collected from those who desire to witness the contest and all legal advice overheard must not be perverted from the case in hand. The legal team wishes to meet any team at hand (boys' nine preferred). The game will be decided on the grounds and no appeal will be taken.

Henry Kennedy, a brakeman on the F. E. & M. V., who lives with his parents, Mr. and Mrs. M. J. Kennedy at South Norfolk, was out riding with a team belonging to the Dudley livery barn Saturday evening. When crossing the tracks near the brick yards he was unable to control the team, which became frightened and ran away. They came down through Main street at a rapid gait and struck the back end of a wagon, which damaged the buggy. The team then sped on and finally overturned the vehicle, throwing the occupant out, breaking his shoulder blade and cutting and bruising him considerably. The buggy was badly wrecked. During the excitement a team driven by a lady became frightened and started to run, but was caught by Ira L. Hungerford before any damage had been done. The runaway team is usually very tractable and it is supposed they met

with some unusual treatment or were unduly excited in some manner to cause them to run away. Mr. Kennedy is now under the doctor's care and is getting along very favorably.

This ordinance shall take effect and be in force from and after its passage and publication.

Passed and approved this 20th day of July, 1899.

Attest. J. E. SIMPSON, Mayor.

J. C. STITT, City Clerk.

A Simple Disinfectant.

For the sick room a pleasant disinfectant is made by putting in a saucer some freshly-ground coffee and lighting a piece of camphor gum on top of it. As this gum burns it emits the odor of roasting coffee, an aroma that is agreeable to most people. This perfume has the advantage of being healthful, and is to be preferred to the pastes and incense powders, which to some are very sickening. The order of the coffee will counteract any bad aroma in the room and the fumes of the camphor will kill ordinary disease germs that may be floating around.

CHARGED BY TROOPS.

Bayonets Effectively Disperse the Riotous Cleveland Mob.

ORDER NOW PROBABLY RESTORED.

Brooklyn Trolley Strikers Appeal to the Unions and the Public for Help—Five Separate and Distinct Strikes Now Under Headway in Gotham.

CLEVELAND, July 26.—Last night small riots, mostly in the foreign inhabited part of the city, made their appearance and conflicts in which nobody was seriously hurt took place between the soldiers and police on one side and alleged strikers and their sympathizers on the other. On Broadway the cars, laden with guards and a few passengers, traveled in pairs and at Clay and Pearl streets a mob of about 2,000 men and boys with a sprinkling of women gathered and when they could clude the soldiers stoned the cars and the crews. At 10 o'clock the soldiers charged with bayonets and the mob dispersed.

Eleven of the 14 lines of the Big Consolidated Street railway are in operation and 30 companies of militia, aggregating nearly 1,300 men, are now here.

The executive committee of the strikers has issued a statement, denying any connection with recent disturbances, including the nitro-glycerine explosion which Sunday wrecked a Euclid avenue car. President Bryan of the strikers' association, to whom the local papers have credited talk tending to anarchy, has entered an emphatic denial. Ralph Hawley, the nonunion conductor who yesterday killed Henry Cornwell, is held without bail.

Trolley Strikers Ask for Aid.

NEW YORK, July 26.—The strike committee which has charge of the strike in Brooklyn and Manhattan held a meeting last night and perfected an organization. An address to the public was issued, in which the city officials are arraigned and an appeal is made to organized labor and "citizens who believe in fair play" for financial aid. The address states 3,000 men are still out, and that many are destitute. There was a mysterious movement of the police last night as if they were preparing for some special outbreak.

Strikes Epidemic in New York.

NEW YORK, July 26.—The clothing handlers, freight handlers, newsboys and messenger boys' strikes have gained headway and Leader Pines of the Brooklyn strike has issued a statement that the trolley strike is still on. The striking tailors of the East Side have swelled their numbers to 3,000. Three thousand more men are expected to quit work in Brooklyn this week.

TROOPS TO SAVE A NEGRO.

Georgia's Governor Will Try to Prevent a Lynching at Bainbridge.

SAVANNAH, Ga., July 26.—Telegraphic orders were received here last night from Governor Candler, addressed to Captain Middleton of the state militia at Valdosta, and Captain Smith of Thomasville, to report to Sheriff Patterson at Bainbridge, "with all your available men at once," and to "act strictly under his orders." The governor's message was mandatory. The commercial wires having closed, these messages were transmitted over railroad wires from here and arrangements were immediately made for special cars on the Plant system to take the troops.

The troops are wanted to protect the sheriff and jail against the attack of a mob that is after John Williams, a negro who is charged with an attempted assault of two white girls. Williams entered their room while they were asleep and had seized one of the girls when he was frightened away. A large crowd of country people are in town and swear they will have Williams if they have to dynamite the jail. The Decatur county jail is one of the strongest in the state. An attack upon it before the arrival of the troops is possible. At 11:30 last night a mob surrounded the jail and was calling for Williams.

A Lynching in Texas.

HOUSTON, Tex., July 26.—Two weeks ago a negro was lynched in Grimes county. Last night a church at Engra, Prairie was burned and suspicion fell on John and Randall Hamilton, negroes. The latter was first found and with a rope around his neck he confessed that John burned the church. John was found at his home and his answer to a demand for surrender was a volley of buckshot, Van Wright being fatally wounded and Tack Moody slightly injured. The negro escaped, badly wounded, but was recaptured yesterday at noon and at once strung up. No further trouble is expected. Revenge for the former lynching, it is thought, was the motive of the incendiaries.

Shocking Suicide of a Convict.

JEFFERSON CITY, July 26.—At the Missouri state prison Frank Wallace, a convict from Kansas City, threw himself from the landing of the stairway on the third floor of the dining hall and was picked up a corpse from the stone paving in the court below. Wallace was 19 years old and was received at the prison last December under sentence of 12 years for robbery.

Nearly Ready For Sea.

WASHINGTON, July 26.—The two big battleships Keats and Kentucky, are now so well along toward completion that the contractors have called for the eight-inch guns for the upper turrets. It is thought their first speed trial will occur in September.

Imported Negroes Turbulent.

GALENA, Kan., July 26.—The negro miners who were imported from Alabama a few weeks ago into Scammon, Cherokee county, to take the place of striking miners, are causing disturbances. A jointist mistreated one of

them and this angered the negroes, who started in to take the town. They fired several shots into buildings, but no one was hit.

Many Farmers' Meetings Decried.

COLUMBIA, Mo., July 26.—The secretary of the state board of agriculture is preparing to locate farmers' institute meetings for the coming fall series. One hundred applications have been received to date. The appropriations for this work will justify the holding of only about 30 meetings in the regular series.

VICTORIA'S VISION SAVED.

Owing to Successful Treatment the Queen's Eyes Are Now in No Danger.

LONDON, July 26.—Truth says: The queen has been undergoing a course of treatment for 10 weeks for her eyes, as advised by Professor Bagenster of Weisbaden, with the most successful result. The queen's eyesight is no longer in danger and an operation will be unnecessary. Her majesty now wears powerful glasses of unusually large size and with black rims, which were ordered by Professor Bagenster. When she is obliged to use artificial light, she prefers a shaded wax candle.

Dubuque Sportsmen Incorporate.

DUBUQUE, Ia., July 26.—The Dubuque Athletic association was incorporated yesterday. Among the incorporators are Louis Houseman and Harry A. Perry, Chicago, who, with John Luxy of Dubuque, will act as directors. The object of the association is to improve athletic sports of all kinds and for the promotion of scientific boxing. The membership is limited to 500. The first event will be a three days' boxing carnival during race week.

Stout City, Ia., July 26.—A Pierre, S. D., dispatch to the Journal says: First Lieutenant Jackson, given in the list of dead on the Morgan City, is not on the official list of the First South Dakota regiment and is not known by officials at Pierre.

Bryan to Speak at Des Moines.

OTTUMWA, Ia., July 26.—Secretary Charles A. Walsh of the national Democratic committee announced last night that W. J. Bryan would speak in Des Moines the night of Aug. 15, the eve of the Democratic state convention.
