H. W. Learn, secretary of the Long Pine Chautauqua association, desires this paper to announce that the railroad fare to this summer's meeting will be one rate for the round trip within a distance of 150 miles. The grounds at Long Pine are very beautiful and offer a most pleasant place in which to take a few days' outing.

The ice cream social given on the parsonage lawn last evening by the ladies of the Woman's Home Missionary society of the M. E. church was quite liberally patronized and a pleasant time was enjoyed by those in attendance. With its decorations of Chinese lanterns and bunting the lawn looked very attractive and was a comfortable place to be after the disagreeable weather of the day.

Considerable activity in the sale of threshing machine outfits is being displayed by Norfolk implement dealers, indicating that the bumper harvest in this neighborhood will be promptly taken care of. Two outfits were sold in Norfolk yesterday. H. G. Brueggmann sold a threshing machine and engine to Aug. Rhuelow of Pierce who started home with it this morning and Henry King also sold a steam outfit.

N. Hills has on display at his real estate office, a stalk of corn 14 feet in height which is from the field of Chas. Lodge, a prosperous farmer who lives about eight miles south of town. This corn is of a new variety that has been grown by Mr. Lodge for the past few years. This is a phenomenally large stalk for this season of the year and Mr. Lodge says it was not especially picked out but that nearly the whole field from which it was taken is as large as the specimen.

yesterday afternoon and evening at Taft's grove south of the city was a very pleasant affair. The young ladies of the party drove down in the afternoon and enjoyed a few hours splashing around in the cool waters of the river. About supper time the young gentlemen appeared on the scene and were served with a choice spread of good things. The party drove home in the cool of the evening much pleased with their outing.

A prominent cyclist suggests that inasmuch as the bicycle riders' privileges have been regulated by ordinance, it might be the fair thing to also regulate the privileges of people who see fit to throw glass, tacks and other tire-puncturing, ill-humor-producing articles into the street. This practice has been quite frequently indulged in of late, but may be done without intention of annoying wheel riders, or it may have been done maliciously. Anyway, the bicycle rider should have some rights that other people are bound to respect.

Rev. F. W. Leavitt was ordained at West Point yesterday to the work of the Congregational ministry. Mr. Leavitt will be remembered as one of the first graduates of the Norfolk High school. From here he went to Doane college, where he took a full classical course. This finished, he went to Andover Theological seminary, where he graduated this year. As might be expected, so much preparation has resulted in a strong man. West Point is to be congratulated on acquiring so efficient a minister. Norfolk was well represented on the ordaining council. The parents of the candidate were there, also Mr. Parker, Mrs. McMillan, Mr. D. C. O'Connor and Rev. John Jeffries.

Mrs. Ormsby, wife of M. M. Ormsby, died at her home on Braasch avenue yesterday noon, at the age of 43 years, after a most distressing illness of seven months from Bright's disease. Short funeral services will be held at the house tomorrow morning at 10:30, at which Rev. J. J. Parker will preside, and the remains will be taken to the former home of the family at Maple Park, Ill., on the noon train, for burial. Besides her husband, she leaves a son and three daughters to mourn her loss. Mrs. A. H. Allison of this place is a daughter of Mr. Ormsby. Mr. and Mrs.

Ormsby came here from Maple Park ten months ago today, during which time Mr. Ormsby, who is a carpenter by trade, has been working on the new home of his son-in-law. Although not long residents of Norfolk, the family has won many friends who will sincerely sympathize with the remaining members over the loss they have sustained. Mrs. Ormsby was especially fond of children, who also loved her, and it is the desire of the husband that all little folks who desire should be permitted to attend the services tomorrow morning.

Visitors Invited.  
The following extract from the University News-Letter, published by the university of Nebraska, indicates a desire to have people call at the agricultural experiment station and derive the benefit which is intended to be received from it:

"Although a very large number of persons in the state receive the bulletins published by the U. S. agricultural experiment station, connected with the state university, yet comparatively few have visited the station farm and familiarized themselves with the experiments being conducted there. There is no reason why picnic excursions should not be made from various points and the affair made extremely pleasant and profitable. Some of the railroads have consented to give an excursion rate of one fare for the round trip to Lincoln and return. Picnic parties could be formed in any neighborhood and the rate obtained by application, then with lunch baskets, wives and sweethearts a jolly trip could be started. A pleasant place for eating luncheon will be provided on the station farm.

"Visitors are always assured of a hearty welcome to the experiment station farm. There is much there to see and those connected with the station are always pleased to explain to visitors what is going on. However, when excursion parties arrive special pains will be taken for their entertainment and instruction.

"It is hoped that this suggestion will be abundantly put into practice. It offers an opportunity for the most desirable kind of an outing, following the plan which has made the summer Chautauqua course so popular in combining instruction with pleasure."

Saving Trees.  
The Bohemian Club of San Francisco, which is in the habit of going off into the redwoods once a year to celebrate a jinks, has done a good thing in buying up a tract of beautiful forest land. It has agreed to pay \$27,500 for the property. Thus it is made certain that at least one fragment of redwood forest in California will be saved from the lumberman's ax.—Oakland (Calif.) Enquirer.

Nervous prostration is a term commonly used to indicate a weakened and debilitated state of the nervous system and a vitiated condition of the blood. Its symptoms are unusual nervousness, great irritability, and incapacity for physical or mental labor, and it is caused by errors in diet or hygiene. Dr. J. H. McLean's Strengthening Cordial and Blood Purifier is recognized everywhere, even by the medical profession, as a superior remedy to counteract weakness of this character. Price 50c. and \$1 a bottle at Koenigstein's Pharmacy.

Filipinos Here August 1st.

Everything is complete—Good music, Paine's Fireworks, Splendid Art Exhibit. The great Mormon Chorus is coming soon and scores of interesting special features.

Drink Grain-O  
after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grains of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25 cents.

Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25 cents per package.
