Pennsylvanians Land With Colors Half Mast.

COLONEL HAWKINS DIED AT SEA.

The Regiment Brings With It the Member of the Nebraska Volunteers Who Was Left Behind in Yokohama—A Dozen Stowaways Found on the Ship.

SAN FRANCISCO, Aug. 2.—The United States transport Senator arrived last night from Manila, with her flag at half mast, on account of the death of Colonel Alexander Hawkins, commander of the Tenth Pennsylvania regiment, United States volunteers, who died on the voyage.

The Senator sailed from Manila on July 1, with 38 officers and 721 enlisted men. The transport was at Nagasaki on July 15, when Colonel Hawkins was taken ill with cancer of the bowels, for which he had undergone treatment in the hospital at Manila. His illness continued during the day when the Senator was at Yokohama and two days later he died at sea.

Colonel Hawkins' illness dated from the battle of Malolos, when he exposed himself almost recklessly in the disease breeding climate. His body was placed in a hermetically sealed casket and on the Sunday following his death funeral services were conducted. The remains lay in state, tended day and night by a guard of honor, during the remainder of the voyage. The casket will be taken ashore today with ceremonies befitting Colonel Hawkins' rank, after which the body of the dead commander will be sent to Pennsylvania for interment.

After the death of Colonel Hawkins the command of the regiment was vested in Lieutenant Colonel Barnett who, like the dead commander, is popular among the enlisted men. Of the 759 officers and men whom Colonel Barnett brought to San Francisco, three are privates in the Sixth artillery, U. S. A., and one is a member of the Nebraska regiment, who was left behind at Yokohama when his companions sailed for this port on the Hancock. A dozen stowaways were also concealed in the hold and were soon brought to light after the Senator left Yokohama. The Pennsylvanians land today. The regiment lost 24 men in the war.

Nebraskans Enjoying Life.

SAN FRANCISCO, Aug. 2.—The First Nebraska regiment spent a pleasant night in camp and the boys are feeling good. The weather is fine. Very few of the men have caught cold and there were a smaller number than usual at sick call. The men in hospital are improving. Colonel Mulford is arranging for the pay of the men. The band concert yesterday was the first regular one given since the fighting began. At the opening of hostilities with the Filipinos the bandmen went into the ranks. In order that they might have every care, 11 men who answered to sick call were sent to the general hospital. None of these are serious and all were able to walk over to the hospital.

Governor Poynter made his first visit to the camp yesterday. He leaves today to spend the day as guest of the California state officials and the city of Sacramento. He drew a check in favor of Major Snyder, chief surgeon, for \$500, to be used for the care of the sick. Major Snyder made a report of how it has been used after the regiment is mustered out.

To Muster at San Francisco.

WASHINGTON, Aug. 2.—Adjutant General Corbin has been notified by General Shafter that the Nebraskans wish to be discharged at San Francisco on account of the additional money and allowances they get and would be very much dissatisfied should other arrangements be made.

Army Worms Working North.

INDEPENDENCE, Kan., Aug. 1.—The army worms, which appeared in southern Kansas recently in great numbers, came from the south and after staying a few days passed northward. Cane, Kaffir corn, millet, alfalfa and young corn were attacked. Some whole fields were stripped of leaves by the worms in a single day, while in other instances only a narrow strip would be eaten. Stock trains on the Santa Fe branch were delayed by the worms crossing the track in such numbers that the wheels would slip.

RECEIVED AS CONQUERORS.

San Francisco's Warm and Nasty Welcome to the Nebraskans.

SAN FRANCISCO, Aug. 1.—When the Nebraska regiment took up the march from the Hancock to the camp at the Presidio yesterday, all along the line of march from the ship to the camp people filled the streets and yelled themselves hoarse. Every whistle sounded, fire-arms were discharged and stores were ransacked for noise making instruments. Business was suspended and clerks and factory hands swelled the enthusiastic throng.

The parade was headed by the chief of police and a detail, the chief wharfing and other officials. Following came the regimental officers of the First Nebraska, mounted. They were accompanied by Governor Poynter and General Barry, the latter in full regimentals. The state colors were carried by a regular soldier from the Presidio, who rode in the rear of the colonel. Then came the band, to which the Nebraska soldiers kept step.

It was no straggling body of diseased and abused men, but showed up company after company of the splendid specimens of manhood from the prairie state, walking with firm and elastic step, and with apparent pride of the country for which they had so lately been offering their lives. Behind the marching companies came six ambulances conveying all the sold-

iers who had felt themselves unable to take up the four-mile march on the hard pavements to the camp. About 40 of the men availed themselves of the privilege to ride.

Next to the ambulance corps came the band and Utah battery, a detail of regular cavalry and a battery of artillery, the rear being brought up by a detail of policemen and a detail of firemen with apparatus. The noise of the reception along the march was such as to almost deafen the Nebraska soldiers, and it was always the loudest when the battered battleflags of the regiment appeared in sight.

The camp is the best the regiment has ever had and the rations are excellent. At dinner yesterday the Nebraskans were the guests of the Oregon regiment. During the dinner hour the women of San Francisco pinned a handsome bouquet to each Nebraska tent. Last night the regiment had an invitation to attend one of the local theaters and accepted. The returned warriors divided with the show the attention of the audience.

McKinley at the State Reception.

LINCOLN, Neb., Aug. 1.—Governor Poynter, who is at San Francisco, today telegraphed for the \$1,000 unexpended appropriation for the benefit of the First Nebraska and the money was sent. It will be used in hospital service. The safe arrival of the soldiers has added to the interest in the state reception to be tendered them on their return to Nebraska. The local committee has the promise of President McKinley to be present if he makes his expected western trip.

Meiklejohn Sends Congratulations.

WASHINGTON, Aug. 1.—Acting Secretary of War Meiklejohn sent a warm message of congratulation to the men and officers of the First Nebraska. When asked what difference of pay would be made should the Nebraska troops decide to be mustered out at Lincoln or Omaha, Secretary Meiklejohn stated it would be about \$100 per man under that of being mustered out in San Francisco.

GEAR AND CUMMINS THERE.

Both Iowa's Senatorial Candidates Present at Des Moines.

DES MOINES, Aug. 2.—A majority of the delegates to the Republican state convention have arrived. The new auditorium is ready and is handsomely decorated. The nominations for governor, lieutenant governor, railroad commissioner and superintendent of public instruction will go the present incumbents by acclamation. On the supreme judgeship there is a warm contest and no one expects a nomination to be reached before the third or fourth ballot. Friends of Judges Robinson, Sherwin, Burnham, Fee, Sloan and Giffen claim all the way from 150 to 350 votes each on the first ballot. It will take 645 to nominate. The platform will be in line with the national administration on all issues.

Considerable work is being done on the United States senatorial question. Both Senator Gear and his opponent, Cummins, are on the ground and both sides are claiming the advantage of the legislative nominations so far made.

Charles E. Pickett of Waterloo will be the temporary chairman and deliver the principal address. Former Congressman George M. Curtis of Clinton will be permanent chairman and Charles T. Hancock of Dubuque will remain chairman of the state central committee another year.

Real Estate Transfers.

The following transfers of real estate are reported by Chester A. Fuller, manager of the Madison county abstract office at Norfolk:

- Mitchell R. Morris and wife to James Gildea, wd lot 2 block 12 Haase's suburban lots and lots 1 and 2 block 25 Hillside Terrace, Norfolk, \$1400 00

- Lenora C. Cargen and husband to John A. Nelson, wd lot 5 block 5 railroad addition Newman Grove, 320 00
- Madison County Building & Loan association to Ella Thornton, wd lot 7 block 7 Kimball & Blair's addition Burnett, 350 00

The Hayes Jewelry and Music house has just received a carload of pianos and organs of several standard makes. Organs from \$20 to \$80. Pianos from \$75 to \$1,000. Anyone desiring a piano box can be accommodated.

Grain-O Brings Relief.

To the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee affects the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25 cents per package.

W. A. Hemleben this morning sent Chas. Vail, night clerk at the Pacific, to Hoskins with his chicken car to gather up poultry for the west. He telephoned over about 10 o'clock and said that 350 birds had been purchased, with more than 200 more in sight for immediate delivery. The What Cheer fellows have not secured a bird and are thinking of getting out of this territory where the competition is too close. The contracts they made with the farmers are not binding and many who contracted are selling to Hemleben. The car will be taken to Winside next week.

WANT THE UNION PACIFIC.

People of Sioux City Anxious to Have Trains of That Road Run in From Norfolk Over the M. & O.

From Wednesday's Daily. The people of Sioux City are confident that the Union Pacific trains will soon begin running into that city from Norfolk although they were rather disappointed that the service was not re-installed on the 1st.

The following from this morning's Journal tells how they feel about it:

"Officers of the Sioux City Commercial association did not think yesterday there was anything to be alarmed about in the fact that August 1 passed without seeing the Union Pacific trains running to Sioux City over the Chicago, St. Paul, Minneapolis and Omaha's tracks from Norfolk. To be sure, it was disappointing that the re-establishment of the service could not occur until a later date but it was not to be understood from this postponement that anything had occurred to cause President Burt to change his mind with respect to restoring Sioux City to the Union Pacific fold."

James V. Mahoney, commissioner for the Commercial association, who acted for Sioux City in the conferences with President Burt when the return to Sioux City was being considered in Chicago, has exchanged during the last week a number of letters and telegrams with Union Pacific headquarters, and has knowledge of the situation but declines to talk of it.

"President Burt, when the time comes, will do what talking is to be done," he replied in response to a request for a statement regarding the intentions of the Union Pacific people. "I realize that Sioux City business men are anxious to know when these trains will begin running, but nobody can tell that except President Burt himself. There are many details to be arranged. Engine room and yard room and freight room must be secured and a schedule of freight rates must be made with the roads with which freight will be exchanged in Sioux City. This last takes time, as everyone who is familiar with the railroad business knows. It may be a month or longer before the Union Pacific trains run into Sioux City, and it may not be a week; but they are coming. Let us be possessed of patience."

A Sincere Utterance.

By gravity,
I'd like to know where I'm at.
I, William Jennings B.,
In this confounded
Harrison-Altgeld business,
I wonder if they think
I'm the hyphen,
Or what?
I may be the matchless leader,
But if I don't smell brimstone
I'll be scratched.
Altgeld talks to me
Like a Dutch uncle,
And to all intents and purposes
Tell me he's it;
And Carter Harrison smoothes me
Down in front,
While the red-headed anarchist
Is on the other side of me
With his foot up
And there's Stone!
The Lord only knows
How the cat's going to jump
With that man
If I take my eyes off of him
A minute.
Willis Jonathan Abbott
Is my dear brother in affliction,
And the Debonair Delight of Dedham, Mass.,
Is his twin.
And James Killemeoff Jones!
Jones, Jones,
My cross of gold for Jones!
What the dickens and Sam Hill's cow
Is he doing in Europe
At such an imminent moment as this?
Can it be that he is false
To his Willie-boy?
John Gilpin Shanklin of Indiana
Is a mile long and all Bryan,
And Dan Campan of Detroit
Is poor, but honest—
But by the Bales of Inspired Hay,
What about them other fellows
That are trying to split me
Up the back
As Solomon proposed
To do the baby?
What's 16 to 1
To this sort of thing?
What's trusts to
Treason to the Chicago Platform?
What's Free Silver to
Sacrificing Me?
What's Harrison?
What's Altgeld?
Rats!
Where's the man who said
Politics is sheol?
I want to shake hands with him!
—New York Sun.

The Fish Law.

It is said that there are many persons in the neighborhood of Norfolk, who are constantly violating the fish law by the use of nets, seines and other contrivances. Those who take pleasure in fishing with hook and line are thereby deprived of any satisfactory results of the sport. These individuals should be prosecuted and no doubt would be if their practice was called to the attention of the fish

Letter List.

List of letters remaining uncalled for at the postoffice July 31, 1899:

- Devan, Miss Rilla; Finley, D.; Freeman, C. B.; Grant, Mr. John; Halehek Jas. F.; Kingman, R. T.; Mason, Mona; McCullen, Burke; Seeley, Mrs. J. W.; Smith, Lewis; Thompson, Andrew.
- If not called for in 30 days will be sent to the dead letter office.
- Parties calling for any of the above please say advertised.
- P. F. SPRECHER, P. M.

Freaks of a Tornado.

John R. Musick of Kirksville, Mo. thus describes, in the August Century, certain madcap pranks of a tornado which passed through that city on April 27:

Many strange freaks were played by the tornado. In a tree-top was found a woman's hair, supposed to have been blown from her head as she was carried through its branches, yet no person was found near it. A human scalp was found three miles from the city limits, under a bridge. Notes, letters and papers were blown from the city into Iowa and found ninety miles away. One

promissory note of \$100 was found in a field near Grinnell, Ia., nearly 100 miles away, while clothing and papers were scattered along the entire distance.

One woman was decapitated by a tin roof and her child was killed near her. Some persons who were outside the rioting current were killed or injured by flying timbers, which, like bolts from the catapult of Jove, flew with deadly force for a great distance, while others in the very center of the storm escaped with little or no injury.

Perhaps the most remarkable experiences were those of Miss Moorehouse, Mrs. Webster and her son. The three were caught up in the storm and were carried beyond the Catholic church, nearly one-fourth of a mile, and let down on the common so gently that none were killed. Mrs. Webster had some slight cuts about the head, her son had one arm fractured, but Miss Moorehouse was uninjured.

"I was conscious all the time I was flying through the air," said Miss Moorehouse, "and it seemed a long time. I seemed to be lifted up and whirled round and round, going to a great height, at one time far above the church steeple, and seemed to be carried a long distance. I prayed to the Lord to save me, for I believed He could save me, even on the wings of the tornado; and He did wonderfully preserve my life. As I was going through the air, being whirled about at sport of the storm, I saw a horse soaring and rotating about with me. It was a white horse and had a harness on. By the way it kicked and struggled as it was hurled about I know it was alive. I prayed God that the horse might not come in contact with me and it did not. I was mercifully landed upon the earth unharmed, saved by a miracle."

Young Webster says he saw the horse in the air while he was being borne along by the storm. "At one time it was directly over me and I was very much afraid I would come in contact with its flying heels." The horse, it is said, was caught up and carried one mile through the air, and, according to the accounts of reputable witnesses, at times was over 200 feet high, passing over a church steeple. Many who were not in the storm say that they saw horses flying in the wind. Beyond being well plastered with mud the white horse was uninjured by his aerial flight.

Distressing Kidney and Bladder Disease Relieved in Six Hours by "New Great South American Kidney Cure."

It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back in male or female. Relieve retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by Koenigstein Pharmacy, Norfolk, Neb.

Send us 25 names and addresses of young people interested in business education and get our College Weekly one year free. Our new catalogue free to any one. Address, **ROBERT G. BROS., Omaha, Neb.**

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. The Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scab which soon dropped off and now only a healthy little scar remains where what threatened to destroy my life once held full sway."

Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.—nothing can take its place. S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.
