

COMPANY L IS HOME.

Returned Last Evening From Camp Stotsberg.

VERY SUCCESSFUL ENCAMPMENT

Members of the Company Were Pretty Thoroughly Tired Out—Marched Thirteen Miles Yesterday to Take Part in Reception to the First.

From Friday's Daily: Company L, Second regiment, returned last evening from Lincoln where they have been attending the state encampment of the regiment since last Saturday. The company came home a little early owing to the fact that a large number of the members expected to begin work at the sugar factory today or tomorrow and Captain Gerecke secured their release somewhat in advance of the other companies.

Although they report a good time, the boys were glad enough to get home and obtain some rest, as their stay at the capital city was one continual round of work or pleasure and they were so thoroughly tired out that but few made any attempt to appear at their customary haunts this morning.

The regiment was inspected by Governor Poynter and staff Wednesday at 5 o'clock. The boys lined up in good order and as many of them participated in the drills at Chickamauga the entire regiment had all the appearance of veterans.

Yesterday the regiment participated in the parade in honor of the First regiment and the march was more than 13 miles long. The members of the First, of whom there are a large number in attendance at the reception, are receiving royal treatment at the hands of the people of Lincoln. With free music, free board and an abundance of flowers the heroes of the Philippines are thoroughly enjoying the occasion, which will last several days.

By this morning Camp Stotsberg, where the encampment of the Second was held, had been deserted, the last of the companies departing for their home towns.

Captain Gerecke, who has attended many of the encampments, thinks this the most successful in every particular, ever held.

Lieutenant Colonel Tracy also returned last evening, very well pleased with the events of the week.

Colonel Campbell said that the conduct of the regiment in camp had been excellent. But one man had been imprisoned in the guard house for a breach of discipline although several of the boys were caught Tuesday night and lightly punished for committing minor offenses. He did not think any encampment ever held in the state had been more orderly or that better discipline had been shown at any previous gathering. He said the new Second regiment of the national guard would compare favorably with either of the old regiments when they were mustered into service, and he was sure it would do the state proud at the next encampment.

The absence of competitive drills for prizes has been one good feature of the encampment in the minds of many of the officers. Formerly the competitive drills caused much ill feeling, and more unpleasantness grew out of it than out of anything else connected with the gathering of the soldiers.

The guard mount drill Wednesday morning was performed without an error being made.

The soldiers were paid for seven days in camp. A few of them who had committed a breach of discipline were fined one day's pay.

A. F. Lewis has taken the agency for a newly-invented cream separator, for which there are great prospects. It is much cheaper than separators heretofore in use and every farmer can afford one or more. It is claimed for it that it does the work as thoroughly as any machine now on the market. It works on scientific principles and the idea is to hurry nature somewhat. Mr. Lewis made his first trip to Battle Creek yesterday.

J. W. Edwards of this place has a very promising yearling filly, Gamelin by Gamaleon, which has already shown better than a three minute gait after less than a month's training. The writer saw a letter this morning from the Oakwood Stock farm, near Chicago, offering Mr. Edwards \$500 for the colt, but he has decided not to part with her yet a while. There are undoubtedly great possibilities in that piece of horse flesh.

The Hindoo hypnotist, Yamaa, attracted a fair sized audience to Marquardt hall last evening where he succeeded in entertaining them very satisfactorily. He secured a number of good subjects from the audience and exercised his power on some poultry. Yesterday afternoon he took a blind-fold drive through the streets at a lively clatter and performed some mind-reading feats. The company, which includes a number of specialty performers, will appear at the same place this evening.

A couple of lewd women from Belle Clover's place across the creek were in the city last evening driving about the streets in a state of intoxication. Their disgraceful antics were cut short by Officer Kane who arrested them and placed them in jail. They were released soon afterward on application of their mistress who went their security. This morning they appeared before Police Judge Hayes on the charge of disorderly conduct and disturbing the peace. Their fine and costs amounted to \$11.50 apiece, which they paid.

World-Herald: Whatever may have happened to the corn and small grain through hot winds and not enough rain or too much rain, the sugar beets are all right in Nebraska, so the Elkhorn reports. This year's crop is larger than ever before in acreage, and is up to the average, if not better in yield per acre and quality, so far as outward appearances go. No reports have yet been received from the tests as to saccharine value. Nebraska's new factory, that at Ames, will not be completed till about November, so Norfolk and Grand Island must again handle all of this year's product.

Lincoln seems to be having more than her share of fires lately, four alarms having been turned in yesterday while one of the principal business blocks in the city was completely destroyed at 1:30 this morning, as will be seen by the telegraphic report today. At last accounts the fire was still raging.

Hypnotist Yuma drew a small audience to his performance in Marquardt hall again last night. The principal feat of the evening was the placing of his wife in a cataleptic state. She was placed in the window next door east of the postoffice, where she has been viewed by the curious throng all day.

A special from Creighton to the State Journal today states that Chris Kyriass, a German farmer living near that place, died last Monday. It will be remembered that his son, Chris Kyriass, Jr., was a member of company L at Chickamauga and died in this city while returning home after the regiment was mustered out, last summer.

At a special meeting of the board of education held last evening the resignation of Miss O'Connor as teacher was accepted and Miss Bachelor was assigned to her room. Sturgeon has rented the store room in the Koenigstein block just west of the drug store and as soon as it is placed in order will occupy it with a complete line of pianos and organs of various makes, which are now on the way. It was just 58 years ago yesterday that his mother first became acquainted with W. A. Moldenhauer. The event was not celebrated, however it was not because the gentleman had no friends who would have been delighted to assist him, but owing perhaps to his modesty. Time has dealt lightly with Mr. Moldenhauer and one would not judge from his appearance that he was rounding out his three score years. He has made his home here just one half his life—29 years.

afternoon of spinal meningitis. The funeral was held at 2:30 this afternoon from the family residence, Rey, Eaton conducting the services, and the remains interred in Prospect Hill cemetery. It will be remembered that this is the same family that buried another child last Sunday, who died with congestion of the brain.

Hackman A. N. Eddy and Joe Danford got into a fistie encounter this afternoon at the Union Pacific depot. The strong right arm of the law represented by Officer Kane soon had them in its clutches and they were conducted before Police Judge Hayes where they were arranged on the charge of fighting, disturbing the peace and using abusive language. They were assessed a fine which, with the costs, amounted to \$12.10 each. The prisoners had no money with which to settle and were accordingly committed to jail until the levy was satisfied.

Mrs. J. B. Maylard and Mrs. H. T. Holden very pleasantly entertained a large number of lady friends at the home of the latter on West Norfolk avenue yesterday afternoon. The house was handsomely decorated with flowers, golden red predominating, adding much to the beauty of an unusually attractive home. Dainty refreshments were served, the hostesses being assisted by the Misses Edith McClary, Anna McBride, Laura Durland and Nellie and Anna Seymour. In the evening Dr. and Mrs. Holden and Mr. and Mrs. Maylard were at home to another company of friends, who passed a very enjoyable time at cards, with music and refreshments to add to their pleasure.

A SUCCESSFUL FAIR. Madison Has Been Wide Open to Visitors This Week—Jottings.

From Saturday's Daily: The eighteenth annual fair of the Madison County Agricultural society closed yesterday at Madison. The fair has been very successful in point of attendance as well as exhibits and racing events. The exhibits of live stock, poultry, agricultural products, ladies' handicraft and manufactured articles was the most complete ever known in the history of the association.

On Wednesday the most prominent figure on the fair grounds was that of Senator Allen. His jovial countenance was beaming out from the grand stand like a prize sunflower amid garden roses. The fair sex turned out in goodly numbers for clouds of fleecy texture hid "Old Sol" and made the day an ideal one for racing and for an outing. The judges were Messrs. Hugh Herbison, Til. Waller and W. J. Barnes. W. J. Stevenson acted as starter. The decisions were all met by the utmost approval from the visiting public. Races were run in slow time principally, owing to condition of track. The first race was a trotting event in the three-minute class. Entries, Monogram, Orton and Bertwood. Best time was in the third heat, where Bertwood was given a mark of 2:29. The race was evidently fixed for Monogram to win. The strong arm of Bertwood's driver caused the judges to set him down and the veteran driver, Jim Waller, held the ribbons for the last three heats. Needless to say, Bertwood won in a walk, taking three successive heats. The fairness of this action put the judges into great favor with the talent and Senator Allen was heard to remark, "The public must be protected." It was not a four days' speech, but was typical of the man.

The running race—half-mile dash, best two in three—was won by Fannie H., Fostonic second, Maud Minstrel third, Red F. x, and Bob Younger also ran. Best time 3:14.

The third day of the fair witnessed an immense gathering of people and the

association, in sidewalk parlance, was living on "easy street." Strong winds characterized the day until 5 o'clock, when they made way for a light rain. On Wednesday a runaway horse hitched to a buggy created quite a sensation. What at first appeared to be sure death for one or both occupants of the vehicle terminated in simply an accident. Cries and shouts were heard and a backward glance discovered a horse madly tearing down the road. Among the number of people who witnessed the scene no one made a move to stop the horse except J. H. Conley of this city. This gentleman grasped the horse's bridle and, though dragged for several yards, he succeeded in halting the rig.

The young ladies of Madison, members of the Rough Riders' brigade, turned out in full force and their maneuvers before the grand stand were heartily cheered. Among those who took part in the drill were the Misses Capt. Cora Snare, First Lieutenant Mildred Fraser, Second Lieutenant Tillie Hutchinson, Privates Dena Carter, Anna Dorr, Maggie Barnes, Miss Pracher, Francis Pracher, Hattie Copeland, Mazie Wetzer, Pearl Ruleau, Mellie Wakely, Ellen Long, Marie Saure and their little mascot, Eloise Stevenson. The company has been superbly drilled by Capt. C. A. Vickers.

The races were close but slow. The first race was a 2:30 trot; winner Art Chief, 2nd Monogram, 3rd Miss Topsy; best time 2:37. Second race, running one-half mile pony race, 11½ hands high; Grey Best 1st, Kentucky B. II 2nd, Mage 3rd; best time 5:31. In the bicycle race there were but two entries.

J. B. Donovan and J. H. Conley, of Norfolk, forced a "shell speeler" who had located outside the grounds to return his ill gotten gains to the farmer victims.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens. Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.
