

THE FUSION NOMINEES.

Democrats and Populists Get Together at Battle Creek.

AGREE TO DIVISION OF OFFICERS.

A Fight Developed Over the Nomination for Sheriff but All Other Places were Filled With Very Little Difficulty—Present Incumbent Nominated for Sheriff.

From Saturday's Daily: Clerk District Court, LOUIS McELHOSSE, County Clerk, H. F. BARNEY, Treasurer, GEORGE BRIDGER, Sheriff, Geo. W. LOSEY, County Judge, Wm. BATES, Superintendent, C. W. CHAM, Coroner, FRANK G. SALTER, Surveyor, JOHN B. HOOVER, County Commissioner, First District, FRED KAUL.

The fusion forces were in possession of the beautiful little city of Battle Creek today and succeeded in coming together in a very satisfactory manner, to themselves, on a choice of nominees for every office except that of sheriff. For this office a lively fight was developed and the convention spent some hours in reaching an agreement.

The Populists.

The populists convened at the Howard Miller hall shortly after 11 o'clock this morning, with A. H. Bohannon of Madison as chairman and Chester A. Fuller of this city as secretary.

A committee on credentials was appointed, consisting of C. S. Evans, C. D. Jenkins and R. P. Avery.

On resolutions the following committee was named: J. B. Donovan, C. T. Muffley and H. F. Barney.

The convention then adjourned for dinner and met at 2 o'clock.

A conference committee was appointed, consisting of E. J. Brinck, Joe Martin and J. A. Shively.

The convention then stood at ease while the committee met with that appointed by the democrats.

The conference committee met in the rear room of the Enterprise office and decided on a division of the offices as follows: The populists were given the offices of clerk, superintendent of public instruction and clerk of the district court, while the democrats were given the balance of positions.

The convention then named the following gentlemen for the various positions:

For clerk, H. F. Barney of Madison. For superintendent of public instruction, C. W. Crum, by acclamation.

For clerk of the district court, Lieutenant McElhoses of Madison, by acclamation.

The Democrats.

The democratic delegates met in the opera house with John S. Robinson as chairman.

In the absence of A. P. Childs D. J. Koenigstein was named for secretary but declined to serve whereupon his brother, A. J. Koenigstein, was given the position.

The following delegates were appointed as a conference committee: M. B. Foster, E. J. Hale and A. J. Danley.

The report of the conference committee being satisfactory, the convention proceeded to the nomination of all candidates, except the three accorded the populists.

For treasurer Geo. Brechler was nominated by acclamation.

Dr. Frank G. Salter of this city was nominated for county coroner.

For county judge, the present incumbent, Wm. Bates, was named.

The surveyorship was accorded to John B. Hoover.

Three candidates for sheriff were presented to the convention—J. C. Osborne, Jas. H. Conley and Geo. W. Losey, the present incumbent.

An effort was made to throw out all proxies, in the interest of Osborne, in which they succeeded, but it didn't have the desired effect.

After the informal ballot Conley withdrew, leaving the fight between Osborne and Losey.

The Losey men were in the majority and he received the nomination on the first formal ballot.

The nominees of both parties were endorsed by both conventions.

Fred Kaul, of Madison, a harness maker, was named for commissioner of the First district.

Sioux City Wants a Beet Sugar Factory. Sioux City now has hopes that the American Beet Sugar company will build a factory there in the near future.

The real estate board has been in correspondence with Henry T. Oxnard, president of the company, for some time and he has at last promised to send a representative to that city, who will look over the territory and investigate its adaptability to the beet sugar industry.

The business men promise to meet Mr. Oxnard's representative more than half way in any proposition he may make. Regarding the adaptability of the land for growing beets the Journal says:

"There seems to be no doubt in the minds of men who have given any attention to the matter that the desired grade of sugar beets can be raised in any quantity around Sioux City and in the territory across the Missouri river in Nebraska. In fact, before the Oxnards established their factory at Norfolk, Neb., a test was made upon the grounds of the old Sioux City Nursery and Seed company with most satisfactory results. The

soil was found to be almost perfectly adapted to the growth of the sugar beet, and their culture, it was said, would be attended with less bother than in the beet fields of France. Business men who are familiar with the overtures which at that time were made by the Oxnard people, say that if proper steps had been taken, the factory which now is at Norfolk would have been at Sioux City.

"The presumption of members of the real estate board is that if the Oxnards built a factory in Sioux City, it would at least be as large as the one at Norfolk. The probability is that because of Sioux City's advantageous location as a distributing point the plant would be larger than the Norfolk institution. It likely would cost several hundred thousand dollars."

The elocutionary entertainment given by S. S. Hamill and his daughter, Minnie, at the High school building last night was well patronized and proved most pleasing to all who attended. The new house opened will seat about 800 people and would be an honor to a place much larger than Petersburg.

The New York Star scheme, which was so extensively advertised in Nebraska papers a few months ago, turns out to be a bunco game of the first magnitude. It is regretted that a number of people in this vicinity were caught by the scheme, and the advice is offered to any others who contemplate sending money to that concern not to do it.

Almost anything from money to corn will be acceptable and will be disposed of at the auction.

The Greek carnival at Marquardt hall last evening, directed by Miss Pickler under the auspices of the Ladies' society of the Congregational church, was a neat and artistic entertainment, worthy of a much larger patronage than it received. The costumes were beautiful, the young ladies taking part ditto, and the little people who danced the minuet captured the house in their unique suits and dresses. Miss Pickler is a successful organizer or she would never have been able to present such a pleasing and perfect entertainment with local talent after so few rehearsals as she did last evening.

It is proposed that the souvenir badge to be used at the Washington reception of Admiral Dewey shall have upon it a reproduction of the original flag of freedom that was flown by John Paul Jones when he sailed in the Bon Homme Richard. This flag was made in Philadelphia by Misses Mary and Sarah Austin, under the supervision of General George Washington.

If the shooting ability of Oom Paul's burghers is as good as in 1881 a war in that section will fatten several new cemeteries.

It was the necessity for a reliable blood purifier and tonic that brought into existence Hood's Sarsaparilla. It is a highly concentrated extract prepared by a combination, proportion and process peculiar to itself and giving to Hood's Sarsaparilla unequalled curative power.

SUFFERED 25 YEARS.

In a recent letter to Dr. Hartman, Congressman Botkin says: "My Dear Doctor—It gives me pleasure to certify to the excellent curative qualities of your medicines—Pe-ru-na

Congressman Botkin, of Winfield, Kan. and Man-a-lin. I have been afflicted more or less for a quarter of a century with catarrh of the stomach and constipation. A residence in Washington has increased these troubles. A few bottles of your medicine have given me almost complete relief, and I am sure that a continuation of them will effect a permanent cure. Pe-ru-na is surely a wonderful remedy for catarrhal affections."

J. D. Botkin. The most common form of summer catarrh is catarrh of the stomach. This is generally known as dyspepsia. Congressman Botkin was a victim of this disease twenty-five years. Pe-ru-na cures these cases like magic. Address Dr. Hartman, Columbus, O., for a free book.

The microbes that cause chills and fever and malaria enter the system through mucous membranes made porous by catarrh. Pe-ru-na heals the mucous membranes and prevents the entrance of malarial germs, thus preventing and curing these affections.

Could Not Eat, Drink or Sleep.

OFFICE OF SINGER SEWING MACHINE CO. FORT ATKINSON, WIS.

Restored to health, after submitting my case in vain to several physicians, I take pleasure in testifying to the merits of Zaegel's Genuine Swedish Essence, hoping thereby to induce others to try it with equally good results.

During my sickness I could neither eat, drink or sleep, and in a short time lost no less than 25 pounds. Everything was done for me, but all in vain; I was growing weaker from day to day until a friend induced me to try the above remedy. After a few doses my stomach retained food, my appetite returned, and as I grew stronger I again enjoyed good sleep at night and began from that time on to steadily improve, until I am now entirely well and have my former weight.

Would not do without it for several times its cost. CARL F. BETHKE, JR., Manager Singer Manufacturing Co.

The great blood purifier Zaegel's Swedish Essence of Life is to be given away free to readers of this paper. This medicine cures Rheumatism; Stomach, Liver and Bowel Complaints, by removing disease germs from the blood. Hundreds of letters like the above on file in our office are proving this every day. A reward of 500 Dollars in Gold will be given to anyone who can prove that they are not genuine.

A book telling all about its wonderful cures and a free sample, large enough to convince you of its merits will be mailed to all who write to M. E. ZAEGLI & CO., P. O. Box 831, Sheboygan, Wisconsin. A 2c stamp should be enclosed in your letter to pay the postage on this free sample.

Mother's Love

Is boundless. Yet it is utterly helpless to give strength to the child born with a low vitality. The time to give strength to the child is before birth and to impart this gift the mother herself must be strong. When the mother is weak and nervous, dreading the coming time of her trial, she impresses her feelings on the little life linked to her own. When the baby comes it is fretful and nervous, marring all the joy of motherhood by its restlessness and wailing.

Dr. Pierce's Favorite Prescription gives strength to mothers. It preserves them in robust health in the months before baby comes. It practically does away with the pains of motherhood, and enables the mother to endow her child with a healthy body and a happy disposition. It gives strength to nursing mothers, and enables them to abundantly nourish the children they bear. "Favorite Prescription" contains no alcohol and is absolutely free from opium, cocaine and other narcotics.

"I consider Dr. Pierce's Favorite Prescription the best medicine made," writes Mrs. Mary Murdock, of 220 Taylor St., Topeka, Kansas. "I know it has no equal. I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time but dead, others were premature births; one lived to be one year old but she was always feeble. I tried different doctors but none of them could tell what my trouble was. I was examined by surgeons but they found nothing wrong. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it during the entire nine months and now have a fine baby girl, and I cannot praise your medicine enough."

A Beautiful Baby.

A Great Gift to Mothers!

Every mother should possess a copy of DR. PIERCE'S COMMON SENSE MEDICAL ADVISER. It is full of information on the questions and problems which confront the mother at every turn.
