Madison Chronicle: A dance was held at a farm house north of town last Saturday night, at which liquid refreshments mingled so freely with other festivities that a free-for-all fight resulted. A splendid opening is made for young men through the development of the beet sugar industry, in becoming skilled in some particular branch of sugar factory work, says the Chino Valley Champion. Beet sugar factories are springing up all over the United States where the conditions are favorable, and in filling positions in these new factories the man who has had experience in the work he proposes to do will nearly always have the preference. A number of the young men of the factory here, in appreciation of this fact, have been working overtime and out of hours in order to perfect their knowledge in some particular branch of the work. Such men will always find places seeking them.

The refreshments served were superior productions of the culinary art and their excellence was fully attested by word and action of the entertained. A person is indeed fortunate who is given an opportunity to participate at a function where Mesdames Rainbolt and Bucholz are the entertainers.
