Dewey week in Vermont will go into history as the most spectacular and enthusiastic in the history of the Green Mountain State. It is odd enough that an inland commonwealth with the nearest sea line leagues distant should have produced a naval captain who is worthy to stand on the same pedestal as Nelson and Farragut.

Atlanta is moving in the direction of municipal ownership and control of public and semipublic utilities, arrangements being already made to bring at once under municipal management the water and gas supply, and, it is expected that control of the street railways will soon follow. It is a remarkable fact that the principle of public ownership of public utilities is being accepted in that city without lengthy discussion or any considerable opposition even on the part of those interests which might be supposed to be strenuously opposed to it.

The University of Virginia has just paid a fitting tribute to the memory of Edgar Allan Poe, once a student of that institution, the occasion being the fiftieth anniversary of the poet's death. A beautiful statue of the immortal son of song and misfortune was unveiled with appropriate ceremonies. The incident is an illustration of the reverence of time. The venerable institution of learning which now so signally honors the memory of Poe and seeks to perpetuate his fame in enduring marble once in the long ago felt in duty bound to expel from its classic shades this wayward child of genius for unbecoming conduct. But long ago his errors and idiosyncrasies were forgotten, or at least forgiven, and Virginia is now proud to call him her son and do him honor. Poe's career, blighted and cut short by temperamental causes, was at once a wonder and a sorrow. His life was a night wherein gloom battled with the stars. The gloom disappeared in his grave, but the stars will remain aglow for the delight of all the generations that speak the language of the author of "Annabel Lee," "The Raven" and "The Bells."

DECLARE WAR ON TRUSTS.

Strong Report Adopted at the National Grange's Meeting.

SPRINGFIELD, O., Nov. 23.—The National Grange, which has been in session in this city during the past week, adjourned sine die this afternoon. Important in yesterday's proceedings were the reports of the committees on trusts and the merchant marine, both of which were adopted. The trust committee's report was as follows:

"The National Grange express their approval of the address of our worthy master, Aaron Jones, regarding trusts, and demand the enactment by congress of such laws as will protect the people against all combinations of men and capital inimical to public policy.

"One of the greatest evidences of trusts is their power to control elections and corrupt officials. This can be remedied by educating the people. Meanwhile, we must control by the strong arm of authority. One principle worthy of consideration has thus been stated. Wherever monopolies are based on the acquisition of nearly the entire supply of national treasures of any sort or on exclusive ownership of raw material of any kind, government ownership of the source of supply is called for. The National Grange of the Patrons of Husbandry pledges its best efforts for the suppression of such dangerous associations and we invite the earnest co-operation of every liberal and self-respecting citizen of the republic."

The merchant marine resolution was as follows: "That we most heartily desire the upbuilding of our merchant marine, but we are emphatically opposed to the principle of subsidy and believe the desired end can and will be accomplished without resorting thereto."

FLOODS IN SOUTHWEST.

Great Damage by High Water in Texas and Indian Territory.

DENISON, Tex., Nov. 28.—This section is in the early stages of a flood that threatens to be the most disastrous known in many years. Thousands of acres of valuable farming lands are under water. Many families are fleeing for their lives from the bottom lands. The situation is decidedly serious, as it is thought that many houses will be swept away. The Washita, the largest river in the Indian territory, is at the highest stage ever known. Great damage has been done by the high water.

The town of Paul's Valley, on the Santa Fe, in the territory, is reported by telephone as under water. No trains are crossing the Santa Fe bridge near Gainesville. All the large streams in the southern portion of the Indian territory are out of their banks. There is no ferry communication between Texas and the territory. Red river and Washita are still rising rapidly.

Fair Association Elects Officers. CHICAGO, Nov. 23.—Andrew J. Love-

joy, general superintendent of the Illinois state fair, was elected to the presidency of the American Association of Fairs and Expositions at the close of its two-days' session. The other officers elected were: Vice president, W. L. Harriman, president of the Iowa state board of agriculture; secretary, W. J. Fleming, Columbus, O.; treasurer, Colonel William M. Liggett, St. Anthony's Park, Minn. The principal purpose of the convention was to arrange non-conflicting dates for the various state expositions and fairs.

Lawson in the Lead. KANSAS CITY, Nov. 23.—In the final spurt last night at the end of the eighth hour of the 48 hour bicycle race John Lawson came in ahead, having covered 165 miles, 2 laps. Miller, Waller, Bopine and Julius also covered 165 miles, 2 laps, and Gust Lawson was two laps behind them. The other scores were: Lingenfeier, 163 miles; Niederhofer, 133; Nelson, 120; Plummer, 91; Chapman, 62.

Falls City's New Church. FALLS CITY, Neb., Nov. 23.—The corner stone of the new Episcopal church was laid yesterday. Rain fell during the exercises, but the crowd was large. The stone was laid by Bishop Arthur L. Williams. There was an address by the bishop and a history of the parish read by A. C. Gantt.

Deafness Cannot be Cured. By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars: free. F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

See the Boy Swallow the Ball

Hold this picture directly before your eyes at the normal reading distance of about fourteen inches, draw it slowly toward the face and the boy will swallow the pill "like a little man." People are prone to swallow too much senseless stuff about their eyes and are very often unnecessarily alarmed by the talk of unscrupulous and ignorant practitioners. We are not the only firm giving honest conscientious eye and glass service, but we would be pleased to convince you that we are ONE.
