His failure will therefore be a surprise to many and it is sincerely hoped by all that he may so arrange his affairs that he will be able to reopen.

Since the holidays opened the young people of the city, as well as older ones, have enjoyed a season of pleasure seldom equalled. The liveliest place in the city today is the new opera house where workmen are hurrying hither and thither and the interior is rapidly assuming an air of completeness that denotes the fact that within a few days the building can be put to the purpose for which it was built. The plasterers have completed their work on the ceiling and are now well down on the sides. It is expected that the decorators who will put the frescoing on the ceiling will begin work Monday. The steps in the balcony, on which the seats will rest, are being made and the floor of the main auditorium will be laid inside the next few days. The railing of the balcony will be covered with metal work which will soon be placed, while the stage and boxes will soon be completed. The chairs and other articles of furniture are here, ready to be placed as soon as the dirty work is done, while the scenery will be on hand in ample time. Mr. Warrant has returned from his trip to York and will know by tonight what company will open the opera house. Mr. Morrison is very willing to come and will come providing his manager in New York will consent to cancel a date, he having been booked so far ahead that it will be impossible for him to come otherwise. If this attraction is not secured, at least one of the best companies traveling will have the opening night and no one will have cause to complain of the character of the entertainment presented, as it will be the best obtainable. Mr. Warrant is now in telegraphic correspondence with several first class companies. He has received many propositions for the opening night from various companies, and it would be no trouble whatever to secure an attraction, but Mr. Warrant insists that his patrons must and shall have the best possible. Following the opening there will undoubtedly be a large number of attractions presented between now and spring, affording everyone an opportunity to enjoy the privileges of a fine auditorium.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.
