# A Wonderful Work for Women Has been carried on in Buffalo, N. Y.,

for more than thirty years. This work has grown so greatly within recent years that there is hardly a town or a village which does not contain some woman who owes health and happiness as woman, wife or mother, to Dr. R. V. Pierce and that wonder working medicine for woman's diseases, Dr. Pierce's Favorite Prescription.

### The Invalids' Hotel and Surgical Institute.

of Buffalo, N. Y., of which Dr. Pierce is chief consulting physician, could not accommodate a thousandth part of the women who are treated and cured by Dr. Pierce and his staff of nearly a score

necessary for many women to come to Buffalo for treatment. The wide experience of Dr. Pierce in the cure of diseases peculiar to women, has enabled him to provide in his " Fayorite Prescription" a remedy which in ninety-eight cases in every hundred has perfectly

and permanently cured the special diseases for which it is prescribed. Women are invited to consult Dr. Pierce by letter, absolutely without charge or fee, and receive the benefit of the advice of a specialist in the delicate and dangerous diseases of women. This advice has been declared 'priceless" by thousands of women who have received it. All letters are held as strictly private and sacredly confidential, and prompt answers are mailed in perfectly plain envelopes without any printing upon them.

There is no alcohol in "Favorite Prescription," neither does it containopium, cocaine, or other narcotics, often found in medicines for women.

### Four Doctors Failed.

Four Doctors Failed. "For seven years I was confined to bed most of the time," writes Mrs. M. P. Davis, of Honaker, Russell Co., Va. "I had four doctors and they said I could not be cured. I had ulceration and female weakness, so I could not stand but a short time, had bearing-down sensation, pain in small of my back. My stomach and bowels also legs and feet would swell, and everything I ate hurt me. Was so short of breath I often could not he down at night; had soreness and tenderness over internal organs, palpitation of heart, and constant headache. I would get blind and have fainting spells, had dark rings around my ever; suffered from painful periods; could not lie on my left side. I would have numb spells, pains around my heart every morning; my lungs furt me a great deal. I would spit up blood at times, memory was post, hearing was had, hands and feet were cold all the time, and I had chilks and night sweats. After the doctors said I could not be cured, I wrote to Dr. Pierce for advice, and he sent me a very encouraging letter, advising me to take his "Pavorite Presentie these and left much better." Six bottles more cured me. I can work all day and not feet tired. I sheep all night and can est anything I want. I can walk any-when I first began to have poor health. I could have sived what I paid to humbings, My friends say that I do not look like the same woman. When I commenced Dr. Pierce's medicines medicines I only weighed one hundred pounds; now I weigh one hundred and forty."

A prominent Detroit woman with . great interest in juvenile mission work has this excellent anecdote to tell:

One of her classes in a certain mission is composed of little street children to the number of 20 or more whose ages range from 8 to 6. Most of the scholars are boys, though now and then one notices the pinched face of a little daughter of poverty in the ranks.

Words that are pronounced alike and spelled differently and words that are pronounced differently but spelled alike were discussed at length. She explained the difference between lead the metal and lead the verb, and the children grasped the point instantly. Then she took the two words "week" and "weak." She explained the difference in the meaning and use to the tots, and then called up a little fellow, aged 5, to use the word "weak" in a phrase. The little fellow thought a moment, then answered "A
