Mr. and Mrs. C. H. Reynolds entertained a company of young people last evening at their home on The Heights, for Miss McBride. About 20 were present and a happy evening was spent in interesting games of cards, with delicious refreshments at the proper time.

A team attached to a buggy indulged in a lively runaway down Main street last evening, and was only stopped when one of the horses fell at the corner of Third street. When the outfit was straightened out it was found that the buggy had been badly demoralized. For a time it looked as though the team would plunge through Carl Asmus' plate glass window.

The case against Harry Loder, arrested for selling liquor to a minor, came up in police court this morning, and was dismissed for insufficient evidence. When put upon the stand to give his testimony, the boy who was depended upon to make a statement that he procured liquor of Loder, swore that he did not secure liquor there but that he did get it at Chas. Rice's place. Rice pleaded guilty to having sold to the boy, and was fined \$10.00 and costs, which he paid.

Considerable interest was taken in the road bicycle race between this city and Stanton which took place this afternoon under the auspices of the Young Men's Christian league. All but two of the contestants went to Stanton this morning, and they went down shortly after noon. The weather is very propitious for the race, and the roads are smooth and hard. The wind, though quite strong, was from the southwest and though it might bother the riders some, will not necessarily prevent good speed as they will strike it at an angle.

A large number of the friends of Miss Verana Nenow met last evening at the home of her mother on South Sixth street to assist her in celebrating her birthday anniversary and all present enjoyed a jolly time, the festivities continuing until morning. During the evening refreshments were served. A pleasing innovation was a new game in which the hostess took a leading part. She was called to the center of the room and blindfolded, while a chain bracelet with 19 friendship hearts—one each from nearly all present—was slipped on her wrist, making a beautiful and much appreciated gift. The bracelet was presented by her brother, Venus.

Mrs. Fredericke Broecker, wife of John Broecker, died at noon today at her home on South Third street, aged 65 years. The deceased has been suffering from cancer for a number of years, and a year or more ago she submitted to an operation to obtain relief but it was unsuccessful and for several weeks she has been very sick, it being considered only a question of time when she must die. The funeral arrangements have not yet been made. Mr. and Mrs. Broecker have resided in Norfolk for many years and have a large number of friends, and a family who will mourn the lady's departure. Mrs. Philip Fuesler is a daughter of the deceased.

The lecture of Dr. F. M. Sisson at the M. E. church last evening was attended by an audience of between 200 and 300 people. It was given under the aus-

pieces of the Ladies' Aid society and resulted in a considerable addition to their finances. The subject, "Plus," was constantly in evidence and the trend of the discourse was an incentive to ambition to do right, to be somebody, and to accomplish something. He enlarged on the fact there are no accidents and that there was no effect without a cause. The person plus knowledge, plus environment, plus time and place of birth and several other circumstances were considered in connection with ambition and necessary thereto. The address was logical and the speaker held close attention, the many humorous sketches serving to relieve any appearance of dryness or tiresomeness.

HOME TALENT APRIL 30.

"Saratoga" to be Presented for Benefit of the Auditorium.

The home talent production of "Saratoga," which is to be given under the direction of Mr. F. H. Livingston, for the benefit of the Auditorium, is progressing finely. Mr. Livingston, who was last year manager of the Woodward Stock company, and is well qualified to handle an enterprise of this character, finds an abundance of capable talent in the city for the purpose of producing the play, which will be given on Monday evening, April 30. The cast of the piece requires 26 persons, and with the specialties probably 40 persons will take part in the entertainment.

As has been announced before, the proceeds of this entertainment are to go exclusively to pay labor claims against the building, and if there should be anything left this will be put into finishing the house. Tickets will be placed on sale Tuesday morning, April 10, at \$5.00 each, at Leonard's drug store, and there should be a ready demand for them.

The board of trustees who are trying to straighten up the affairs of the Auditorium are entitled to the liberal support of the public in their efforts.

R. H. Reynolds leaves tonight for Leed, S. D., where he expects to be employed this summer in helping rebuild the burned district.

Peter O'Shea, Ed. Fricke, Arthur Pilger, Doc Malcolm and Misses Tillie Fricke and Elley were Madison people who attended "Faust" at the Auditorium last evening.

In a marriage recently celebrated at York, the blushing bride and groom had seen but 60 summers each. One is a member of the G. A. R. and the other of the W. R. C. They were married at a joint meeting of the two orders.

The Dixie Concert company of Chicago has been engaged to give an entertainment here on the evening of April 24. They will appear under the auspices of the Y. M. C. L., and are said to come highly recommended as entertainers.

The brick sidewalk in front of the Beed's block seems to be afflicted with earthquake tendencies. When a person passes over them they weave and heave in quite a sensational manner. Their action is accounted for by the fact that the frost is leaving the ground which leaves the bed on which they rest soft and movable.

Madison Chronicle: Fred Gerber, a farmer living near Columbus, met his death in a peculiar manner Monday. He set fire to some grass and the blaze got beyond his control and in fighting it over exerted himself and fell exhausted by the fire. When he was found he was badly burned. Evidently he had been suffocated.

Rudolph Marquardt returned home last night from Winona, Minn., where he has been attending the horological and optical school conducted by W. F. A. Woodcock. He is the proud possessor of a diploma, issued April 5th, which states that he has taken a full course and graduates as an intelligent and competent watchmaker and optician.

Fremont Tribune: "A man Friday was elected to the Norfolk city council on the democratic ticket, Tuesday, 'de foe winning most of the other offices, Robertson being chosen mayor. Perhaps it would be dangerous to say Robertson crew so." The man Friday will preside over the treasures of the island instead of on the council.

O'Neill Frontier: A county in Ohio has a lady road supervisor and she orders all the hills in her district to be cut low necked and scolloped at the foot and the valleys gathered in and the creek hemmed, all the culverts cut bias, double row of tucks run around the skirts of the hill, the bottom to be ruffed, and the hillsides to be embroidered with daisies and fringed with golden rod.

A neighboring exchange states that the hardware man of that town has equipped his store with a movable lad, both ends running on trucks. It can easily be understood how some lads could be made movable by placing both ends on trucks, which would otherwise be impossible. The News has long been considering how it could make its devil movable and the hardware man's suggestion will probably be adopted.

This morning was as beautifully springlike as could be desired. The air was somewhat heavy and was tainted with the odors of growing grass and bursting buds. The birds held sweet discourse and all nature seemed to be imbued with happiness and vigor. It was such a morning as sprouts radish seeds, and spring poetry—of which this might be called a blighted bud and the public may be thankful that it did not mature.

Wayne Herald: The sixth annual convention of the W. H. M. S. of the Norfolk district will be in session at the M. E. church next week, Tuesday and Wednesday. Several addresses will be made by prominent people, among whom are Rev. G. H. Main of Norfolk, Mrs. Robt. Ashley who has had for years experience in work among the Indians, and Mrs. A. F. Newman, a sister of Senator Thurston, who has traveled through almost

the entire world. The session promise to be entertaining and instructive and a cordial invitation is extended to everyone to be present.

Plainview Republican: A number of years ago Miss Edna Darland's mother promised her that if she would stop chewing gum until she was of age, that upon her 18th birthday she would present her with a gold watch. Last week Wednesday was her 18th birthday, but owing to the sickness of her sister, the anniversary of her birthday was not celebrated until Saturday evening, at which time a large number of invited guests gathered at her home, and had a most enjoyable time chewing the gum Miss Edna had saved. The evening was spent in amusements of various kinds. A number of young people from our neighboring towns were present, and all present pronounced it the finest gathering of the season.

There are Faustus and Faustus, but the rendition of that piece at the Auditorium last evening by the Morrison company was the finest thing of its kind ever given in this city. While everyone knows that the play is of the uncanny sort, yet so well was it presented that it was thoroughly enjoyed from start to finish. The special scenery and electrical effects were unusually good, in fact the best that have yet been seen in the new Auditorium. Erroll Danbar as Mephisto is a smooth, clever devil, while the Faust of Geo. S. Trimble is a well rendered example of the fall of man. Miss Genevieve Kane as Marguerite is exceptionally fine, giving the pathetic part a sympathetic character that won the admiration of the audience. The support is all first class, there being no light weights in the whole cast.

There is trouble in the Gordon Journal's family of subscribers on account of the propensity of some to secure that for which they do not pay. The editor gives them a graceful and delicate hint in the following fashion: "There have been numerous complaints filed in this office by men who take and pay for this paper regularly, that they are pestered to death by neighbors who do not take the paper, except when they beg, borrow or steal a copy, coming over every week to borrow their Gordon Journal. One man said 'I wish you would send old A—a copy regularly and I will pay for it.' Another said his neighbor borrowed his paper every week and found fault with every thing in it, while a third said that he rarely got to see his paper until it was a week old, on account of old Mrs. B—who is a notorious gossip, borrowing it to find something new to talk about."

Norfolk Lodge No. 97, A. O. U. W., held a most enjoyable and successful meeting last evening in Odd Fellows hall. Besides passing on seven applications for membership, there were two members admitted, one being a renewal. Those who were cognizant of the fact of what was coming later in the evening hurried the business through and about 10 o'clock an alarm was sounded at the outer door which announced the presence of the ladies of the Degree of Honor, who were admitted. They extended a pressing invitation to the membership to meet with them in G. A. R. hall and the invitation was promptly accepted. On arriving at the G. A. R. hall it was found that tables were spread and set with dainties of the season, to which all did ample justice. After the feast Master Workman Spaulding acted as toast-master and the following subjects were responded to: "Our Entertainers," C. S. Hayes; "The A. O. U. W.," Mr. Royce of Long Pine lodge; "Prompt Attendance at Lodge Meetings," W. R. Hoffman. Mrs. Kober, deputy grand chief of honor, gave an interesting talk on the Degree of Honor. It was a happy and interesting conclusion of an active meeting. The meeting night of the A. O. U. W. has been changed from the first and third Fridays to the second and fourth Tuesday nights of each month.

Madison Star: J. G. Lang has accepted a position at the Norfolk asylum and will commence work next Monday. Mr. Lang's experience in the hospital corps in the Philippines will be a great benefit to him in this institution.

District court opened at Madison today. Judge Coes came down from Pierce this morning and went over on the Union Pacific. The train was well filled with lawyers, witnesses and others interested in cases that will come up this session.

E. E. Carter, editor of the Lyons Sun, one of the best weekly papers that reaches this office, is in town today arranging headquarters at the Oxnard for Fremont Everett, who is a candidate for congress before the convention which will be held here April 25.

Geo. Rish is working on an invention which contemplates a great saving of time, work and trouble in the laying of pipe for use in conveying city water. He has a job on hand of laying 900 feet of pipe and hopes to put his idea to a practical test in the course of a few weeks.

The public schools opened this morning after a vacation of a week and a half. The enrollment has been quite

largely increased by the entrance of young scholars, but there have been a number of older pupils who have dropped out on account of spring work or other causes so that the attendance will probably not be largely increased.

Carey Bowman, son of Mr. and Mrs. B. R. Bowman of South Norfolk died last night of pneumonia. The young man, who was about 17 years of age, had been working for Fred Lehman, north of town, but was taken sick and was brought home Tuesday, since which time he has steadily failed. The funeral was held this noon at the residence and the remains were conveyed to Pleasant Run cemetery, eight miles southeast of the city, where interment took place. Rev. W. H. Eaton, pastor of the Baptist church, presided at the services.

Valentine Republican: John Stenbrecher and a wealthy farmer came up from Norfolk the fore part of the week for the purpose of looking up a suitable ranch in this country. If satisfied the gentleman who accompanied Mr. Stenbrecher will purchase land here on which he intends to range cattle in summer and will feed them at his several farms near Norfolk, preparatory for top markets. The men who can engage in the stock industry as this man proposes surely cannot fail to make a grand financial success and that in a few years.

The Sol Smith Russel company arrived in the city yesterday from Lincoln and tonight will present "The Poor Relation" at the Auditorium. Nearly every reserved seat in the house has been engaged and the Auditorium will probably contain the largest audience in its history tonight. The seats have been in constant demand since they were placed on sale and the way they have sold has been phenomenal. Those interested in the Auditorium are pleased to note this evidence of increased interest in worthy attractions and it is evidence that meritorious plays will be appreciated on the part of the theatre-going public in the future.

D. Amarine, who has been suffering for some time with heart trouble at the home of his son, Alex., in Edgewater Park, died this morning about 7 o'clock. The deceased leaves three sons, Alex., Clint and Bert and three daughters, Mrs. Chas. McDonald of Pierce, Mrs. H. L. McCormick of this city and a daughter in California, to mourn his loss. He was a member of the G. A. R. post of this city and his comrades will give his remains the burial accorded deceased members of that order. He will be buried in Prospect Hill cemetery, beside the grave of his wife who died several years ago. He also has a son buried here. The funeral will be held tomorrow afternoon at 2 o'clock at the son's residence. Captain Dunn of the Salvation Army will officiate at the house services, Mr. Amarine having been a member of that organization for some time.

The funeral services over the remains of the late Mrs. John Broecker were largely attended yesterday afternoon. The services at the house were held at 2 o'clock and at Christ Lutheran church at 2:30. Rev. J. P. Mueller, the pastor, preached the sermon and presided at the grave, the singing was rendered by the church choir. There were many beautiful floral offerings, prominent among which was a wreath from the children on which were the words "Our Mother." The remains were taken to the cemetery east of the city, being escorted by a large procession of people. The Norfolk Sick Relief society of which Mr. Broecker is a member, was present in a body. At the house they formed in open order from the house to the hearse and then preceded the hearse to the church and from there to the bridge, where conveyances were awaiting to take them to the cemetery. The funeral was a testimonial that indicated a host of friends of Mr. Broecker and family.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion
You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.
