

# WOMEN CURED AT HOME.

## THE GREATEST OF SPECIALISTS OFFERS TO THE SUFFERING HIS SERVICES AND REMEDIES.

For more than twenty-five years Dr. J. Newton Hathaway has made a specialty of Female Diseases. During that time he has had among his patients over ten thousand women, suffering from all those many different complaints peculiar to the sex, and has completely and permanently cured more than 80 per cent. of the cases he has treated.

By his exclusive method, which he has perfected during the twenty-five years of his most extensive practice, he is enabled to cure all of these different diseases, including painful, profuse or suppressed menstruation, prolapsus, all ovarian troubles, tumors and ulceration—in fact, every form of those diseases which make a burden of life to the great majority of women.

He has so perfected this system of his that he can treat these cases by mail, without any personal examination to which every sensitive woman naturally objects and without any operation, with its consequent pain and necessary danger.

His system of treatment is taken in the privacy of the home; the cure is painless and it is positive.

## EXIT PNEUMATIC TUBE.

As a Result of Sensational Disclosures House Votes Against It.

WASHINGTON, April 26.—The house yesterday put its heel upon the pneumatic mail tube service, now in operation in New York, Boston and Philadelphia, and if its action stands the whole service will be crushed out. The postoffice committee had recommended an increase of the appropriation for this service. The proposed increase was attacked by the appropriations committee, under the leadership of Moody (Mass.), with such vigor and success that in the end the house voted—87 to 50—to strike the entire appropriation from the bill. Moody created a sensation by the manner in which he assailed the methods of the Pneumatic Tube company, and the direct charge that a former member of congress, who was a member of the appropriations committee, had been a holder of the stock and bonds of the company. He declined to disclose the gentleman's name. He added to the scandal by charging that a block of the stock had been sent as a New Year's gift to a near relative of another member of congress, but to the credit of the member, he said, the dishonoring gift had been returned to the sender by the next mail. Although the tube service was highly commended by other members, these revelations transformed the sentiment of the house, which several times voted for the tube service, into a decisive majority against continuation in any form. Tawney (Minn.) offered as an amendment a bill to reclassify railway mail clerks, but it went out on a point of order.

## Senate Passes Agricultural Bill.

WASHINGTON, April 26.—After a brief debate yesterday the senate agreed to the conference report on the Hawaiian civil government bill, the provisions relating to the right of franchises and imprisonment for debt having been amended to conform to the ideas of the senate. The agricultural appropriation bill was passed, carrying a little over \$3,000,000. The Alaskan civil government bill was under consideration for an hour, but no progress was made. Platt (N. Y.) moved into Quay's old seat. A joint resolution authorizing the exhibit of government relics at the New York printing exposition was adopted.

## Relief for Flood Sufferers.

JACKSON, Miss., April 26.—A relief expedition has just returned from the overflowed district in Rankin county and they report a terrible condition of affairs among the inhabitants, who have been left homeless by the high waters. Over 40 families, nearly all of them colored, were found in a destitute and starving condition, and in several instances people were found on small islands who had not tasted food for three days. Two boatloads of rations were distributed among them and popular subscriptions are being solicited for further contributions.

## Pair of Fatal Accidents.

LEAD, S. D., April 26.—D. C. Buncon, a well known mining man, was killed at Union shaft while hoisting a pump. The remains will be sent to Kansas. Barney Ingalls, a miner in the Holy Terror mine, was instantly killed. He fell 300 feet to the bottom of the shaft.

## Pioneer Nebraskan Dead.

BLAIR, Neb., April 26.—Abram Castellor, who came to Nebraska in 1856 and was founder of the Castellor banking house of Blair, is dead, aged 69 years. He came from Ohio, settling at DeSota, Neb., in 1856, and moved to this city in 1869.

## Peculiarities of Quail.

There are many odd and interesting things to be said of the quail, which is known throughout a large scope of the country as the partridge. One is that it has the power when badly frightened of withholding its scent. A covey, quickly flushed, will scatter and lie so close the best dog in the world will overrun them, making no sign of point until the bird flutters up right underfoot. Another is that it has the faculty of simulating death, if taken winged in hand, and of coming quickly to life the minute the grasp is relaxed in the neighborhood of good cover. Further, the birds have a sort of barometric sense.

A woodsman marking the direction in which quail feed can almost certainly foretell the day's weather. If they choose stubble or cornfields, it will be mild and moist; if they go to the open woods, he looks for wind and sun; if they scurry for thickets of briar and sedge, then he knows bitter cold is imminent. Unless forced to migrate by lack of food a covey always sleeps within 100 yards of the nest it was hatched in, and this although it may have fed all day several miles away. The sleeping is done in a huddled ring, tails in, heads out, all around and so closely bunched that a good sized napkin will cover it. Instinct possibly lies back of the ring making. Thus the shy creatures hope to escape surprise from creeping vermin, minks, weasels, foxes, which steal upon them in the night.

## A Peculiar Dutch Custom.

The four Sundays of November are observed as fete days in Holland. They are known by the curious names Review, Decision, Purchase and Possession, and all refer to matrimonial affairs, November in Holland being the month par excellence devoted to courtship and marriage, probably because the agricultural occupations of the year are over and possibly because the lords of creation from quite remote antiquity have recognized the pleasantness of having wives to cook and cater for them during the long winter.

On Review Sunday everybody goes to church, and after service there is a church parade in every village, when the youths and maidens gaze upon each other, but forbear to speak.

On Decision Sunday each bachelor who is seeking a wife approaches the maiden of his choice with a ceremonious bow and from her manner of responding judges whether his advances are acceptable. Purchase Sunday the consent of the parents is sought if the suit has prospered during the week. Not till Possession Sunday, however, do the twain appear before the world as actual or prospective brides and grooms.—Philadelphia Ledger.

## Saw Too Much.

A farmer hired a man and put him into his field to work. After awhile the farmer came along and accosted the new hand:

"Did you see a carriage go down the road awhile ago?"

"Yes, I did. One of the horses was a gray horse, and the other was a roan and lame in his off leg."

"I thought I heard some men shooting over there on the edge of the woods."

"Yes; one of them was Colonel Jones. He was the tall one. The second one was Major Peters, and the third one was Tom McSniffer. Colonel Jones had one of them newfangled breech-loading guns what breaks in two."

"Did you see those wild pigeons fly over just now?"

"See 'em? Rather. There was 19 of them. They lit in that old cornfield down yonder."

"Well, you see too much for a man that is hired by the day. Here's your wages. When I want a man to keep watch of what is going on, I'll send for you."—London Answers.

## The Doe and Her Fawn.

Fawns when first dropped are for some hours unable to stand. The doe does not remain beside them, but paces slowly around at a considerable distance. Every now and then she gives a little tremulous, bleating call, at sound of which the fawn lifts its head and tries to struggle to its feet. Should a man or a dog appear meantime the doe runs away in a straight line, but laggingly and halting, as though herself hurt unto death. When she thinks she has lured the enemy far enough away, she gives three great flying leaps, which take her at once out of sight, and goes back to her baby upon seven league boots. But if left undisturbed she keeps up the pacing until she sees the fawn standing, then paces daintily away in a straight line, choosing always the easiest grade. As she paces she calls faintly and every now and then halts, looking over her shoulder to see if she is followed.

# His Terrible Cough.

Few things are so depressing and weakening as a constant cough. Few things are as discouraging as a cough that will not yield to treatment. It breaks in on the night's rest. It interferes alike with business and with pleasure. Above all, the persistent cough constantly suggests the thought of that dread disease consumption with its lingering agony. Dr. Pierce's Golden Medical Discovery cures coughs when all other medicines fail, because it is more than a cough medicine. The cough is but a symptom. "Discovery" makes new and pure blood, heals the lacerated tissues, and gives the body the needed strength to throw off disease. It cures the cough by curing the cause of the cough.

People have suffered with bronchial affections for years, with obstinate, stubborn cough, and growing weakness. They have tried doctors and medicines in vain. At last they have been induced to try Dr. Pierce's Golden Medical Discovery, with the general result experienced by all who put this wonderful medicine to the test—help at once, and a speedy cure.

For coughs, bronchial affections, weak lungs, spitting of blood, and other diseases of the organs of respiration, "Golden Medical Discovery" is practically a specific. It always helps; it almost always cures. There is no alcohol, neither opium, cocaine, nor other narcotic in the "Discovery."

Do not allow any dealer to impose on you by selling you a substitute for Dr. Pierce's medicine. The only motive for substitution is an excessive profit for the dealer. You pay that extra profit if you accept a substitute.

"I had a terrible cough something over a year ago and could find nothing to stop it, or even to do me a particle of good," writes Mr. J. M. Farr, of Cameron, Scriven Co., Ga. "I chanced to see an advertisement of yours, and forthwith bought a bottle of your invaluable 'Golden Medical Discovery.' Before I had taken half a bottle I was entirely well."

Dr. Pierce's Common Sense Medical Advice, containing 1008 large pages, is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 21 one-cent stamps for the paper-bound book, or 21 stamps for strong cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.
