Time was when Cancer was considered as incurable as leprosy Physicians and friends could give little relief or encouragement to

one afflicted with this terrible disease. Even now doctors know of no remedy for this fearful malady , while admitting it to be a blood disease, they still insist that there is no hope outside of a surgical operation, and advise you to have the Cancer cut out, but at the same time cannot assure you that it will not return. You may cut or draw out the sore, but another will come in its place, for the disease is in the blood — is deep scated and destructive, and beyond the reach of the surgeon's knife or caustic, flesh-destroying plasters. The blood must be purified and strengthened, the system relieved of all poisonous, effete matter, before the Cancer sore will heal.

S. S. S. is the only medicine that can overcome this powerful and contaminating poison and force it out of the blood. It builds up and invigorates the old, and supplies new, rich, life-giving blood S, S S is a purely vegetable remody : no mineral can be found in it; the roots and herbs from which it is made contain powerful purifying properties that act directly upon the blood system and make a safe and permanent cure of Cancer. It has cured thousands, why not you?

Cancer is not always inherited ; your family may be free from any taint, yet your blood may become so polluted that a severe and stubborn form of the disease may

or nose, a small lump on the jaw or breast, a harmless looking wart or mole, and other causes so insignificant as to attract little or no attention. If you have an obstinate sore, don't rely upon salves or ointments to cure it - begin with S. S. S. at once; it will cleanse your blood and prevent the formation of cancerous cells.

Mrs R. Shirer, La Plata, Mo., writes "A small pimple came on my Jaw about one inch below the ear on the left side of my Jac." At first it gave me no trouble, and I did not think it was anything serious until the jaw began to swell and became much inflamed. At the same time the sore began to spread and eat into the flesh, and gave me intense pain. I tried everything I could hear of, but nothing did me any good. Then began the use of S.S.S. and after taking several bottles the Cancer healed and there is now no sign of the disease. This was two years ago, and I am still enjoying perfect health." Send for our special book on Cancer ; it contains much information that will interest

you ; it is free. Write our physicians about your case, and for any advice or information wanted ; they

have made a life study of Cancer and all blood diseases. We make no charge what Address, THE SWIFT SPECIFIC COMPANY, ATLANTA, GA. ever for this.

SHE WAS BLIND.

A blindness comes to me now and them. I have it now. It is queer-I can see your eyes but not your nose. I can't read because some of the letters are blurred; dark spots cover them; it is very uncomfortable.

I know all about it ; it's DYSPEPSIA. Take one of these; it will cure you in ten minutes.

The hall where the meetings are being held is handsomely decorated with banners and the colors of the order, yellow and blue. Another session was held early in the evening, when initiation of candidates to the grand council was conducted. The feature of the evening was the dancing party at the Mast hall which was attended by many of the dancers of the city as well as the visiting commercial men. It was one of the prettiest parties that has been given in this city for a long time, the ladies looking especially beautiful in their handsome gowns. The hall was tastefully decorated, the music by Bohnert's orchestra was fine, and the refreshments were unusually good and served at long tables in one of the rooms on the second floor of the Mast block.
