Illinois Republicans Nominate Son of War Governor.

WINS ON THE FOURTH BALLOT.

Hanecy Withdraws In Favor of His Opponent In Order to Defeat Reeves-Both Tanner and Cullom Endorsed-Resolutions Reaffirm St. Louis Platform.

For Attorney General ... H. J. H. M. O. WILLIAMSO. H. J. HAMLIN

PEORIA, May 10.-Chairman Dawes called the Republican state convention to order at 10:05. The committee on credentials announced that it had reached an agreement and reported in favor of seating a majority of the contesting Cullom delegates. The report was adopted without opposition. The committee on permanent organization reported for permanent chairman former Governor Joseph W. Fifer of Bloomington. The report was adopted and the permanent officers were elected by acclamation.

The nomination for governor was made on the fourth ballot, after a prolonged struggle. Governor Tanner and his friends worked strenuously for the nomination of Judge Hancey of Chicago. It was Hanecy against a field of three-Judge Orrin N. Carter of Chicago, Walter Reeves of Streator and Judge Richard Yates of Jacksonville, son of Illinois' famous war governor. Hanecy led on the first two ballots. On the third a break came and the nomination seemed to be going to Reeves. The Hancey lieutenants began to transfer their votes to Yates and the Jacksonville man was nominated on the fourth ballot amidst great confusion. The resolutions indorse President McKinley and reaffirm the entire St. Louis platform. The trusts are denounced and the gold standard commended. Governor Tanner's administration is approved and the return of Shelby M. Cullom to the United States senate strongly recommended.

WASHINGTON, May 10.-The house esterday considered the contested election case of Pearson vs. Crawford from the Ninth North Carolina district. The minority deny all the allegations of the majority. The debate was on party issues. Myers (Ind.) speaking for the minority, denied all the charges of intimidation, bribery and violence. The house at 5:15 p. m. adjourned.

Less than 300 men had been employed in Cook county brickyards since the outbreak of the labor war. Today more than 2,000 men were at work. Fear of a general strike of trades unionists as a possible result of the labor convention next Sunday is believed to be one of the powerful factors looking toward a settlement all along the line.

KANSAS CITY, May 10 .- A strike that may tie up all the lines of the Metropolitan Street Railway company is threatened and may occur within the next 24 hours. The Metropolitan controls all street railway traffic in Kansas City, with the exception of the traffic over one short line. The company employs about 1,500 men. The Box Plaited Skirt.

Despite its being almost a familiar object in Paris, a skirt box plaited all round has scarcely yet made its bow in this country. This arrangement looks pre-eminently well in black cloth, as also in taffetas, the plaits united elther by a piping or that openwork feather stitching. Authorities, however, are unanimous that with every skirt a flowing effect at the feet shall prevail.

A Paris correspondent says: "I have heard a great deal about the new plaited dresses which were to be so very wide and loose, but I have found that all the plaited dresses now worn are as tight fitting as those that are not plaited at all. The models preserve the tom only. Some skirts have a wide armor plant of its own. Senator Till- flounce, coming from the knees, but

A Unique Window Screen.

The New York Tribune tells of the screened a window overlooking a neighbor's unattractive back yard. She procured from the glazier a number of panes of glass the exact size of those of the lower sash and a ball of putty. Then she covered the panes of the window with pressed autumn grape leaves, ferns and other brightly tinted foliage. She imitated the bunches of grapes with purple tissue paper, cutting out each grape separately, the tissue paper giving the same luminous effect as the pressed leaves. The stems and tendrils she painted in oils, gumming the leaves and grapes in place with a little mucilage and adding a few butterflies which she bought from a collection. When her design was finished, she covered each pane with the others she had bought and fastened them in with the putty, making an illuminated window
