Dr. H. L. Scoggin was in Osmond Wednesday and helped try to resuscitate Guy C. Blackmer, the young man who was killed by lightning that afternoon.

The young man, with his brother, was driving in from work, he standing against a barrel of water in the wagon and his brother occupying the spring seat. The bolt tore the young man's hat to pieces, while his brother scarcely felt the shock. Blackmer was 19 years of age and was an active worker in Rev. F. P. Wigton's church. The replevin case of Chas. H. Johnson vs. the Elkhorn Railroad company, was tried this morning before a jury in Justice Daniel's court, and resulted in a verdict in favor of Johnson. This is the case wherein the plaintiff had some bed springs shipped from Sioux City in the name of John Friday, and which were afterwards forwarded to Norfolk on Friday's order. The railroad company refused to deliver the springs to Friday, or to Johnson the owner, except on surrender of the original bill of lading, which could not be produced, the same having been filed in evidence before the state board of transportation. It is stated that the case will be appealed to the district court. This case bids fair to become as famous as the celebrated Jousas county calf case, in which a fortune was lost in litigation over a calf. In this case the value of the bed springs was about \$500, and the costs have already run up to about \$700.

That smoking is conducive to longevity was well exemplified at Wisner Wednesday. Frank Knoll was working in an excavation and left a few moments to get a match to light his pipe when an amount of earth caved in that would have buried him. The Pierce correspondent of the

Omaha Bee reports a serious storm in that county Wednesday afternoon. He says: "It is learned that quite an amount of damage was done north and southwest of Pierce by wind and hail. A small twister formed north of town about five miles, on the old Clark place. It moved toward the west. It is reported that Fred Luebe, a farmer, lost a valuable windmill that had just been erected. It also took the chimney off his house. Other farmers had trees and granaries destroyed. John Silhack, living southwest of town, reports that the hail destroyed his crop of small grain and ruined his corn."

Several farmers of South Dakota and a number in the neighborhood of Jackson, this state, are carrying on an interesting warfare. The Dakota farmers are interested in changing the course of the Missouri river and to do so wanted to cut through a neck of land on the Nebraska side known as Reninger's neck, which connected a considerable tract of land. On two former occasions the Dakota farmers had sailed across the river and cut through the neck, but the Nebraska farmers as promptly filled it up. Thursday night the Dakota fellows again dug a ditch and guarded the approach to it with shot guns and rifles and it now looks as though they would win their point. The river traverses a distance of about nine miles, but a cut through this neck will shorten its course considerably and it is said will give it a fall of six feet in going less than 100 feet. There is some apprehension at Sioux City that the change of course will ruin portions of Riverside and other parks adjacent to that place.

The roads are dry and dusty. The popular pleasure is a cool, shady retreat or a place to bathe.

A Baby's Birth is very much like the blossoming of a flower. Its beauty and perfection depends entirely upon the care bestowed upon its parent. Expectant mothers should have the tenderest care. They should be spared all worry and anxiety. They should eat plenty of good nourishing food and take gentle exercises. This will go a long way toward preserving their health and their beauty as well as that of the little one to come. But to be absolutely sure of a short and painless labor they should use

Mother's Friend regularly during the months of gestation. This is a simple medicine, which is to be applied externally. It gives strength and vigor to the muscles and prevents all of the discomforts of pregnancy, which women used to think were absolutely necessary. When Mother's Friend is used there is no danger whatever. Get Mother's Friend at the drug store, or see bottles. THE BRADFIELD REGULATOR CO. ATLANTA, GA.
