Adam Forepaugh and Sells Brothers' shows have made dates in Nebraska but their performances seem to be confined to the South Platte country. The North Platte country is probably awarded to the Ringlings and it will undoubtedly be the only big show to exhibit here this season.

The voting contest of the Omaha Bee will close tomorrow at 5 o'clock. The fight in North Nebraska seems to lay between Miss Celia Chase of Wayne and Miss Clara Mohl of West Point. But there are a number of other contestants well up in the list who may develop some surprising results between now and tomorrow night. This morning Miss Chase headed the list with a vote of 65,581.

Judge Cones last Saturday granted a temporary injunction to Miss Edna Richardson and against County Superintendent Crum to prevent him from revoking or annulling a teacher's certificate granted by him in June, 1899. It is alleged that the superintendent threatened to revoke the certificate because Miss Richardson didn't attend the teachers' institute. She gave as her

reason for not attending that she was fatigued and broken in health.

A resident of La Salle, Ill., writes to a Hastings real estate man inquiring for a good Nebraska farm of 160 acres for which he is willing to pay \$2 an acre, spot cash. There might have been a time when this investor could have purchased good Nebraska land for \$2, but not for several years now and he will have to raise his bid a couple of thousand per cent and will then get his money's worth.

Madison Chronicle: Sheriff Losey has received a card from Warden Hopkins, of the state penitentiary, to be on the lookout for Frank Wandell who recently made his escape. Wandell has been in the charge of Sheriff Losey twice and has been escorted to the penitentiary both times. He was sent up from this county, the first time on the charge of disposing of mortgaged property and later for stealing.

There was no quorum last night at the council meeting and no business was transacted. The revised bicycle ordinance was to have been passed, but some who had been supporting it remained away and the quorum was therefore broken. It is understood that Mayor Robertson has been presented with a petition against the ordinance in which a large majority of business men are petitioners and it is somewhat doubtful if the new ordinance ever becomes a law.

A Nebraska picnic is to be held in Rogers grove 14 miles northwest of Weatherford, Oklahoma, on August 10, 11 and 12. The Custer County Republican announces that it is to celebrate the harvesting of Oklahoma's biggest crop, to meet old friends and make new ones. There will be an exhibit of crops, addresses by Senator Allen, Judge J. J. Sullivan, Ex-Lieutenant Governor Tom Majors and other prominent speakers from Nebraska and Oklahoma. Music and sports of all kinds will be features. A homesekers' excursion will be run to that country August 7 and the people there expect a big crowd.

Col. E. H. Tracy got into an "entangling alliance" with his colt this morning from which he emerged "slightly disfigured, but still in the ring." He was currying the animal in the alley at his home on North Tenth street when a passing delivery wagon frightened the colt, causing it to break loose from the fence to which it was tied. Mr. Tracy caught the animal and together they went through a couple of fences. In passing the second fence the colt was thrown, falling on Mr. Tracy. In its struggle to get up the horse kicked him on the back of the head and cut and bruised him in several places. His clothes were badly torn and he had the general appearance of receiving some rather rough usage, but his determination won the struggle and the colt was secured. Some persons would have been disabled for at least a day or two, but Mr. Tracy was down town and attending to business shortly after the accident.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. Emil Graenwald of Pierce has received from the Philippines a curiosity in the shape of a bolo. The Pierce Call thus describes it: "The bolo is a cross between a sword and a bowie knife. It is about two feet in length and slightly curved without handle or hilt. The blade is as sharp as a razor."

Pierce Call: Prof. Hiron left last Saturday for his home at Early, Iowa, where he will spend his vacation with his folks. Mr. Hiron expects to return the latter part of August. He informed ye editor, however, that, should Teddy Roosevelt speak at Norfolk before that he would sure return in time to her him.

John Wells and Gene Huse rode in from the Yellow Banks this morning on their ponies. They report that the campers are enjoying themselves hugely. Tomorrow, at 10 o'clock, Rev. Wells will conduct open air services out there and it is expected that a number will drive out from Norfolk to attend the services.

Battle Creek Republican: M. L. Thomson started Sunday for Germany. This is his second trip to the old country within a year, and the supposition is that he is either very much taken up with traveling or that there is an attractive somebody beckoning him across the pond. The length of time he will be absent is altogether indefinite, but, if it is thought necessary, he says he will come back in time to vote for McKinley.

Battle Creek Republican: Aug. Steffen received, Tuesday evening, a letter and a batch of papers from his brother-in-law, Henry Miller, who is doing duty as a soldier in the far away Philippines. The letter contained a number of foreign coins, some of which were over one hundred years old. They were all nearly as large as an American half dollar, but Henry explained that eight of them were worth only about five cents in our money. The papers were published in Manila and contained many interesting sketches relative to the life of the soldiers. Mr. Miller is enjoying good health and is well pleased with the country.

M. C. Hazen has returned from Illinois where he has been visiting relatives and friends for a month. He visited the government arsenal between Davenport, Iowa, and Rock Island. The institution occupies 1,000 acres and there are 12 4-story buildings built of stone. During a busy season 3,000 men are employed who occupy one-tenth of the floor space of the institution. They make everything needed in warfare from a cannon to a canteen. He spoke of the M. W. A. building at Rock Island, which cost in the neighborhood of \$150,000. All applications and papers of the order are kept in a steel file case and everything is very convenient. Mr. Hazen also reports crops very fine in that section of the country.

J. M. Covert is having some unique experiences in collecting dog taxes but is quiet generally successful in his efforts. He encounters the person quite often who owns a dog not worth the taxes, but too valuable to be killed. The fellow who has paid his taxes and has a receipt at home is also quiet numerous. Then there is the individual whose dog is strictly a house animal and never goes out of the yard—except at every opportunity. Then there is another who owns no dog, but the darna brute gives him away with a noise much resembling dog proceeding from

the house, barn, or woodshed. It was discovered that one of the latter class owned a couple of dog collars with "I am—'s dog—whose dog are you?" engraved thereon, and inside the collar was a neck and attached to the neck was something that looked and smelled thoroughly canine. It has also been discovered that numerous dogs are enjoying the country air for the benefit of their health and their owner's pocket book. Their outing is to continue indefinitely, or as long as the collector is so pronounced. Blanks will soon be issued notifying dog owners to settle within five days or they will be arrested under the ordinance provided for their punishment. This will only be necessary in a few cases where the owners have persistently refused to settle.

HOW "BALDY" UNLOADS.

The Biggest Elephant in Captivity is Pretty Cute in spite of His Size.

Everybody who can will be interested in watching Ringling's circus unload on the morning of the 2nd. An interesting sight is described as follows by the Sioux City Journal:

"What is said to be the largest elephant known to be in captivity is owned by the Ringling Bros., and is designated among circus men as 'Old Baldy.'" One of the interesting sights incident to the unloading of a circus train is the performance of "Old Baldy" in getting out of his huge car.

"The other elephants in this remarkable herd of twenty-five rare specimens of Asiatic and African origin, in vacating their traveling compartments walk down a heavy gan plank that inclines from the car door to the ground. The car doors are ten feet high, which, of course, makes the big elephants stoop to get through as they step out upon the descending plank. "Old Baldy" is so tall and so wide, however, that he cannot get out of the car door until the gan plank is taken away. He therefore calmly awaits until all this traveling mates have 'walked the plank' and are grouped together, awaiting the coming of their leader.

"Then it is that 'Old Baldy' gets in motion and proves that he knows a thing or two about the solution of mathematical problems. He drops to his knees, and, wriggling his great body forward, slowly manages to get his front feet out and upon the ground. The floor of the car is about five feet above the ties of the roadway, but this does not keep 'Baldy' from reaching the solid foundation of earth without mishap or trying delay. Once his fore feet are on the ground, he draws his body forward, allowing his hind legs to drag along the car floor. In this way he is soon able to get one hind foot out, and the rest is easy.

An Ideal Climate.

The first white man to set foot on Utah soil, Father Silvestre Velez de Escalante, who reached the Great Salt Lake on the 23rd day of September, 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climates is found. To enable persons to participate in these scenic and climatic attractions and to reach the famous health, bathing and pleasure resorts of Utah, the Union Pacific has made a rate to Ogden and Salt Lake city of one fare for the round trip, plus \$2.00, from Missouri river, to be in effect June 21st, July 17th to 10th inclusive, July 18th and August 2d. Return limit October 31, 1900.

The proposed change in the postoffice was made yesterday, extending the private office up to the front window on the east side. The money order window is next to the door while the stamp window is a little further back. A couple of carriers windows have been put in, anticipating the change to the free delivery system. The change makes much more room for the officials, while there is still plenty of room outside for the patrons. Curtains have been put up at the front window and the office part is much more private than it has been heretofore.

Miss Celia M. Chase of Wayne won out in the Bee vacation contest Saturday, with many votes to spare. Her vote was 321,813. Miss Mohl of West Point was second with 169,023. Through the generosity of the Bee 13 additional trips have been given, three of which will go to north Nebraska. The young ladies who will enjoy a vacation, besides the two above named will be Miss Fronia Dewitt and Miss Florence Howell, both of Grand Island. The vote closed with Miss May Durland of this city in seventh place with a score of 5,106.

Quite a disastrous wreck occurred on the F. E. & M. V. road near Stanton Saturday morning about 7 o'clock. The freight train No. 33 going west crashed into the rear end of a gravel train that was backing out onto the main track to clear for the morning

passenger, the gravel train being too long to get onto the siding. No. 33 came around a curve and was unable to stop in time to prevent the accident. The caboose and three flat cars of the gravel train were total wrecks, two other flat cars were badly broken and derailed while the engine of the freight was badly damaged. The fireman of the freight received a sprained elbow, but otherwise there no injuries.

The young man is rare indeed who can prepare crisp Saratoga chips, delicious corn fritters and mellow peach ice cream with all the delicacy and science known to the art. Yet of such a son can Norfolk boast. He resides in the west end and the other evening, his parents being absent, he entertained a half dozen young lady friends at a six o'clock dinner in a most delightful manner. Not more proficient is he as cook, than in the capacity of waiter—it is said—this feature being accomplished with the confidence and skill of an experienced hand. The table was tastefully decorated with sweet peas. The guests—every one—promised to be "mum," which being the case, no further particulars could be gleaned by the reporter.

A new circus has come to town. The boys of the west end have organized a show with its full complement of clowns, ring performers, etc. The menagerie is said to be very complete. They have not yet arrived at the point of advertising the "greatest show on earth" but will probably arrive at that stage before the second performance. Today was the date set for the first performance, which will probably be given "rain or shine." It is presumed that the circus will be attended by a large and enthusiastic audience. The grand free street parade this morning took place or at least started. Owing to the mud the performers were hauled in a cart and an occasional dump into the mud was supposed to be part of the performance by the many spectators, who were apparently as heartily amused as though they had been real clowns.

The intensity of feeling in the United States over the Chinese atrocities is evidenced by the fact that the police of the larger cities are taking precautions toward protecting the Chinamen in this country. Such precautions should not dictate any calamity to the Chinamen here in nowise responsible for the outrages and would be evidence that some of our people are little less than heatheish in their passions.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For some time there has been upon the market, well-known and recommended by physicians, a liniment called

Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure.

An intelligent mother in Butler, Pa., says: "Were it not for Mother's Friend, I would obtain 9 bottles if I had to pay \$5 per bottle for it."

Get Mother's Friend at the drug store. \$1 per bottle.
