

The Norfolk News

W. N. HULSE, Publisher. DAILY. Established 1881. Every day except Sunday...

REPUBLICAN TICKET.

- National: President—WILLIAM MCKINLEY... Vice President—THEODORE ROOSEVELT... State: Governor—CHARLES H. DIETRICH...

Call for Senatorial Convention. The republican electors of the Eleventh senatorial district are requested to send delegates...

Republican County Convention. The republican electors of Madison county, Nebraska, are requested to send delegates...

John T. Bressler, chairman, announces a change in the date of the republican senatorial convention from September 5th to September 12th.

The republican convention of Dodge county has adopted a resolution opposing imperialism, and such a plank would undoubtedly be endorsed by any republican convention.

Take Your Choice. There are now nine presidential tickets in the field and "still there's more to follow" so that the average voter need not remain away from the polls owing to lack of choice.

The World-Herald of Tuesday publishes an item from Wm. A. Paxton stating that an interview published in the Bee was unauthorized. He claims that his political inclinations are of no interest to the public.

Manager Spear states that when the republican congressional convention was held here last May, the use of the opera house was paid for the day before, but when the fusion convention was held here a month later he had considerable difficulty to get some one to guarantee the rent before he would open the building.

"Imperialism" at its Worst. All democrats must agree that Porto Rico is a bad case of "imperialism."

Hawaii has been or as the Philippines are likely to be. Hence every opponent of "imperialism" must feel keen interest in a manifesto issued by the dominant political party in Porto Rico on July 25, recapitulating the losses and burdens that have been inflicted upon the people under the benighted and despotic rule of this republic.

Nor the dues on transfer of property; Nor the personal certificates; Nor the passport; Nor the export duty; Nor the tax on professions; Nor the import duty, which is now insignificant, and which it is left to us to abolish; Nor the tribute to the crown of Spain; Nor the tribute to the Vera Cruz race; Nor the tribute to the Ministry of Colonias; Nor war tribute in time of peace, and navy tribute without navy; Nor pensioned people (who were not Porto Ricans); Nor mounted police (Guardia Civil); Nor military courts to try ordinary and political offences; Nor alcaldes appointed by the government; Nor Military Governor.

American "imperialism" has despoiled the Porto Ricans of all of these possessions. And what has the arrogance of the heartless plutocracy substituted for them? Hear the Porto Ricans again: But we have the inviolability of our homes and the habeas corpus; The courts of justice, composed of Porto Rican magistrates; The divorce law, which guarantees domestic peace; Uniform currency; Regularity in the exchange; Postal money orders; Uniformity in the postal stamp; The municipalities will be autonomous; We have Porto Rican troops; An insular police composed of Porto Ricans; Free justice, for which the judges are responsible, without the inconvenience of the prejudgments; And quick procedure, the modification of which is left to us; And we have representation in the executive council, even if not exactly to the extent we deserve; And we have a house of representatives to legislate for the island.

It is not this heart-rendering picture of the baneful results of one year of republican misrule, imperialism, tyranny, pitiless militarism, conscienceless commercialism, and debauching, degrading and demoralizing McKinleyism? Does not this horrifying spectacle of desolation and ruin wrought by our hireling soldiery and pampered carpet baggers in the ill-fated island justify William Jennings Bryan in declaring that if elected he will call a special session of congress to protect the Philippines against the blighting influence of American institutions, and to place the destiny of eight millions of people in the hands of that intrepid boodler, incendiary, assassin, and anti-imperialist, Emilio Aguinaldo?—Inter Ocean.

Extending Road to Salt Lake. Los Angeles, Cal., Aug. 23.—From an authoritative source it is learned that W. A. Clark, the wealthy mine owner of Montana, has purchased a one-half interest in the Los Angeles Terminal railway. It is further stated the owners of the Terminal will begin work at once on an extension of the road to San Bernardino and thence to Salt Lake City.

Racing at Nutwood Park. Dubuque, Aug. 23.—The weather and track conditions were favorable yesterday for good racing at Nutwood park. The attendance was good. In the second heat of the 2:15 pace, Major Muscovite reduced his record from 2:11 1/2 to 2:07 1/2. In his first heat of the 2:14 trot, Silver Wilkes reduced his record from 2:13 1/2 to 2:11 1/4.

Trees and Land. Do not buy land on which the trees are small and of not very thick growth. You will see that men who are experienced in buying farming land always go on this principle. Land thickly covered with timber indicates good land, where the trees are scattered and not very tall indicates poor land.

A stray chimpanzee from Central Africa sometimes goes as far north as Morocco, where it is looked on as "a hairy man with four hands."

Shows Strength. Democratic opposition to the Porto Rico tariff bill fell flat. The great Republican victory shows the strength of the party of prosperity in congress.—Williamsport (Pa.) Bulletin.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed, forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Men can be cured privately and positively at home of all weakness and disease. Write for new free book. Dr. J. N. HATHAWAY, 22 Commercial Block, Sioux City, Ia.

From all over Nebraska come glowing reports concerning crops and stock. William Jameson of Cass county says: "The corn crop in Cass county will probably be the greatest of any in its history. During my residence there I have never seen the prospects as bright for an immense crop. With one more rain the yield will be something wonderful. The crop of small grain this year was one of the best all around crops we have ever had. The farmers and big feeders seem to be well supplied with cattle and hogs. All in all, I should say that the Cass county farmers have never been in better shape than they are today. There are few but what are prosperous."

C. C. Spaulding of Valley county—Our corn crop is excellent. We have had plenty of late rain and the ground is thoroughly soaked. Everything is in a flourishing condition. The small grain crop was not the best, especially the spring wheat, of which a large acreage is put in yearly. Feed, such as millet, alfalfa, corn and hay could hardly be more plentiful. The pastures are good, and, in fact, everything is in par excellence. Generally speaking, the farmers are well supplied with stock, but there is but little doubt but what a great many feeders will be brought to Cass county to be fed out and returned to the market a finished product.

Myron Tuttle of Wayne—The western range is in excellent shape and is furnishing feed for thousands of cattle. We have had two good rains within the past six weeks and the rainfall on each occasion exceeded six inches. Besides these rains we have had others, which were lighter. We do not raise much corn or grain of any kind. The supply of cattle is good and the outlook is bright.

The above may be taken as a sample of the reports received from various portions of Nebraska, and the same conditions prevail in the Missouri valley states generally. With Kansas harvesting 100,000,000 bushels of wheat, Nebraska 65,000,000 and Oklahoma doing its best to take care of a yield of 60,000,000 bushels, the southwest will have plenty of grain to sell at good prices, and an abundance of money for the purchase of merchandise. There are other crops than wheat and here in the northwest, where diversified agriculture has become the fashion, the farmers will be found in good condition at the close of the season.

ENORMOUS CROPS.

A Few Illustrations of the Conditions Prevailing Throughout the State. As the result of an extended western trip, Secretary Wilson of the department of agriculture gives it as his belief that "neither free silver nor imperialism can gain the attention of the farmers of the west, who are now harvesting the greatest crops ever seen in that section of the country."

F. B. Cleveland of Chicago, representing a trade journal devoted to the dairy and creamery interests, who has just made a tour of Nebraska and Iowa, says that the dairy business is in excellent condition in Nebraska. The industry is expanding throughout the west, as the farmers are learning the profit in milk that enables them to get four to five pounds of butter a hundred and get 90 per cent of the milk back for feeding purposes. Another feature pushing ahead is the manufacture of condensed milk, a number of establishments having taken it up, consuming a higher grade to be sure, but also paying better prices. Nebraska is sure to be one of the greatest dairy states of the country.

From all over Nebraska come glowing reports concerning crops and stock. William Jameson of Cass county says: "The corn crop in Cass county will probably be the greatest of any in its history. During my residence there I have never seen the prospects as bright for an immense crop. With one more rain the yield will be something wonderful.
