We learn that G. W. Clother is again one of the proprietors of the Cloth House. George has excellent business qualifications, and we shall be glad to see him prosper.

A side track, for stock, long enough to hold fifteen cars, is talked of. Of latter years, in fact during S. H. H. Clark's administration, Columbus has not asked for shipping facilities without obtaining them, when in his power. Of course, the interests of the Company and of business men are mutual, but it is always a satisfaction to know an official who is capable of recognizing and acting upon that sound business principle.

The public meeting of the Red Ribbon Club on Sunday evening at the Opera House was well attended, and interesting remarks were made by Rev. Sherman, Jas. McDonald, Wm. Burgess, E. A. Gerrard, and Mrs. J. H. Reed. We are informed that Mayor Speice, who was present was called on by Mr. Gerrard to give his views on the prohibition question, to which he responded that if an evening should be appointed for discussion and he could be present, he would give his views, if desired. A committee of arrangements was appointed.

The peddler who has for several days been working on the streets at his swindling games, pretty nearly got into a scrimmage Saturday on 11th street. A word of advice would not be unheeded by him. The people of Columbus are very indulgent of such as he—if they don't approve of his interestedly-benevolent ways, they rather admire his rattling talk, but if he goes much further west with his games, or even continues here with them, forbearance will cease to be a virtue. It may be well enough to say that his victims come from those who don't read the newspapers.

Capt. H. S. Lovejoy, of Oakdale, and Dr. J. L. Lea, of Neligh City, were in town Friday and called at the JOURNAL office. These gentlemen are prominent citizens of Antelope County and were justly severe in their denunciations of mis-representative Trowbridge's vote for the capital appropriation bill. We do not believe that there are five sane voters in that county who disagree with the Capt. and the Dr. upon that point, and our friends in that locality will please accept our kindly sympathy and commiseration in the hour of their humiliation, shame, and betrayal by Trowbridge who, by his vote on this question, belied his constituents and traitorized their interests.

The audience that listened with edification and thorough appreciation to the dramatic recitations of Mrs. Laura E. Dainty at the Opera House on Friday evening last was small. Home entertainments of different kinds have been quite numerous during the winter, with a pretty complete programme of announcements for the next few weeks, and to this fact, probably, more than to any other, may be attributed the small attendance; but we think we are fully justified in saying to all lovers of this class of entertainment who were not there that they missed a rare treat. The programme was sufficiently varied to completely test the culture and ability of the lady in her profession, and in our opinion her reputation for being among the best of dramatic reciters was fully sustained, and we hope this will not be her last visit to Columbus.

Elsewhere will be found the proceedings of a meeting held in the city Saturday evening for the purpose of asking the legislature to make an appropriation in furtherance of immigration. We regard the subject as of the utmost importance to the State. For our vacant lands we want men who will turn them into sources of wealth for themselves, and of greater prosperity for the State. Nebraska with her three hundred and fifteen thousand souls, is large enough to sustain in happiness ten millions. Let every man constitute himself a committee of one for the purpose of inducing relatives, friends and acquaintances to make this State their home, but this can only be when the State provides the way for spreading broadcast maps and descriptions of the several counties. Instead of appropriating \$100,000 on an addition to the capitol building, if our legislators would devote that much and secure its judicious expenditure in the interests of immigration, they would receive the hearty thanks of every intelligent voter in the State. The key-note of our young governor's inaugural message was immigration, and let that be the subject uppermost in the minds of the people until the productive plains of Nebraska support at least two million souls. Cut down expenditures; reduce the taxes; make every species of property secure; make every human life, as nearly as possible, safe from all harm; execute the laws faithfully; punish every crime; let the world what we are and what we have, to the end that the tens and hundreds of thousands of the sons of toll in eastern lands may come among us to secure independence, if not fortunes, and homes for themselves and their little ones. Let it be spread abroad, too, that the straight-jacket of opinions is not worn by Nebraska communities, and that a man is free to do his own thinking as the Nebraska zephyr is to blow. In short, let all our advantages be set forth to the world, and let us build up here a model community in every respect.

The following, which appeared in a recent number of the Era and is from the pen of one deeply interested in the project, we publish by request: "It will be borne in mind that a meeting of our citizens was held in the Opera House some time ago to take into consideration the feasibility of establishing a Sister's Hospital in Columbus. At that meeting a committee of five was appointed to act in the premises. We learn from the members of that committee that the Sisters are already assured of the donation of suitable grounds for the hospital building, and that the Sisters are now collecting funds in Lincoln, Omaha and other parts of the State for the erection of such building, and it only needs the hearty support of our own citizens to hasten the good work and make the project a success. As yet we are unable to state the size and cost of the hospital building that will depend on the amount of funds collected for the purpose. Of course the institution will be non-sectarian in its character and management, being open for the reception of patients of every class irrespective of creed and nationality—the inmates being free to receive the ministrations of such religious teachers as they may desire; and while it will be properly a charitable institution, moderate and reasonable compensation will be expected from patients whose means will warrant the same, yet the indigent will receive equal care and consideration without pay and without charge. We are warranted in stating that the county can make very satisfactory arrangements with the institution for the care of our county poor; this alone is a matter of much importance to our tax payers. A board of directors is to be chosen to co-operate with the Sisters in the general management and control of the institution. Subscription lists will soon be circulated and it is hoped that our citizens will liberally respond."

Pursuant to printed notices circulated among the citizens of Platte county, a mass meeting was held at the Town Hall in Columbus, Neb., Saturday evening, Feb. 8th, 1879, to memorialize the legislature to make an appropriation out of the State funds to be used to the best advantage in securing immigration to this State. John Hammond was chosen chairman of the meeting, and John Schram, secretary.

James E. North, being called upon, stated the object of the meeting and offered the following resolution which was unanimously adopted. Resolved, That our representatives in the legislature be and are hereby requested to use their influence to secure an appropriation of a sufficient sum of money from the State funds to secure the printing and distribution throughout the eastern States, of such documents as will advertise the resources of Nebraska and give such information as will induce emigrants to come to this State to settle. On motion, the secretary was instructed to forward a copy of the proceedings of this meeting to our representatives at Lincoln, also to request publication in the Columbus JOURNAL and ERA. Adjourned. JOHN HAMMOND, CH'N. JOHN SCHRAM, Sec'y.

We the undersigned take pleasure in making the following statement: We were insured in the Insurance Companies represented by Becher & Reynolds of this city, and received on our losses from the fire of last month the sum of \$7,140. We are perfectly satisfied with the adjustments in our losses and heartily recommend the Insurance Companies represented by Becher & Reynolds. Messrs. Becher & Reynolds also acted with great energy in securing to us the amount due from the Insurance Companies.

Bi-carbonate of soda is well known as an excellent thing for burns. Place it thick on the affected part, tie a cloth over it, put a little water on that to dissolve the soda. Where it is properly applied, no scar will be left, even though the flesh has been burned to a blister. This remedy is very valuable because nearly every household has it at hand.

Thanks to Mrs. Mary B. Fitch, the poetess, for a late copy of the Galveston Daily News, containing Gov. Hubbard's message. There is nothing comparable with the news-paper for catching the very spirit of a people, and if the entire north could get an occasional glimpse of the ardent, impulsive, and yet without generous south, the country would be more harmonious.
