Platte County's Delinquent Taxes Less than Ten Per Cent.

MR. EDITOR, SIR :-- Permit me. through your columns to answer the Era's article of the 15th relative to counties and county officers, especially that of treasurer, using his expression, "once in office could continue to be his own successor," assigning as the reason the amount of delinquent taxes in Platte county as per treesurer's last report, at \$100,000. Now, Mr. Editor, if the Era will examine the causes of delinquency he will find them to be other than those assigned in his article, first: the U. P. R. R. Co. is delinquent for 1871, 1872, 1873 and 1874 of over \$60,000, which the courts have decided not collectable, notwithstanding they have paid on an average \$16,000 annually to Platte county, on their personal and real property, which amounts are paid about the first of May, each year; and also the B. & M. R. R. Co. is delinquent on lands in Platte county for 1873, 1874, 1875, 1876 and 1877, about \$22,000 which lands have been advertised for sale, and not sold for want of bidders. There are other illegal taxes levied and assessed an-

nually that can not be collected.

It has been the custom of our commissioners to issue the full amount of the levy on the county general fund, notwithstanding their delinquencies not collectable; this, too, is done in accordance with our state laws. Take, for example, the levy made for 1878 on the county general fund, July 1st, 1878, of \$20,000, and issued orders to Feb. 1st \$12,198-the 1878 taxes are due Jan. 1st, 1879 and draw interest at the rate of one per cent. a month after May first. vertised in September. What becomes of the interest on orders issued prior to this? This is where our orders depreciate. Formerly the commissioners had the levy exhausted about the first of March. Our commissioners did a wise thing last year in making a large levy, the only way to bring our warrants up to par, as the levy for 1878 will last through 1879, leaving the first issue

of 1879 till Jan. 1st, 1880, when the taxes are due for 1879. Now, Mr. Editor, as to the horrible condition of Platte county's finances! She stands third on the line of the U. P. R. R.; taking out the taxes not collectable, over 90 per cent. is paid, or less than 10 per cent. delinquent.

THE forty millions of dollars necessary to pay arrears in pensions have not yet been provided for. The ways and means committee have the subject under consideration, but it appears to be a very difficult thing to determine how the money is to be raised. Hewitt wants to print treasury notes equal to the amount. Garfield wants to sell 4 per cent. bonds equal to the amount. Judge Kelley wants to pay the pensioners in standard silver dollars, while Fernando Wood wants to take the surplus cash now on hands for that

GARRET JOY, of Rulo, Neb., had warned a man by the name of James Johnson, a regular loafer, not to visit his house; the other day Johnson, disobeying the warning, broke in the door and rushed into the house; at the same moment Joy fired at him, the pistol ball taking effect below the mouth on the right side of his face, crashing through the jaw into his neck, just passing the jugular vein and producing a frightful wound. It is highly probable that he will lose his life.
