

THE JOURNAL.

MISS FANNIE CONOLOGNE informs the public that the remains of the murdered young lady found in a trunk at Lynn are not hers, as she is with her parents at San Francisco.

The Black Hills Journal of last week says that roving bands of Indians that infest the foot hills are as thick as lice on popovers. Depredations are occurring almost daily.

ARCHBISHOP PURCELL of Cincinnati has assigned all his property to his brother, Father Edward Purcell, and he at once transferred it to John B. Manix, for the benefit of creditors.

News by the way of Geneva, under date of the 5th, reports the damage by the storm in the Canton of Vaud, at 4,000,000 francs. In Lausanne district 4,000,000 trees were destroyed.

INDICATIONS are favorable for a big fight over the next speaker of the house. Blackburn appears to be the coming man, and many representatives have declared that Randall shall be defeated.

At a meeting of the State Board of Agriculture held at Omaha on the 5th inst. it was unanimously decided that the State Fair, having gone to Lincoln for successive years, it should next year and the two years following, come to Omaha.

JOHN G. SAGE, the poet and lecturer, is an other sad example of intellectual disorder, and his present melancholia will excite much sympathy and regret. It is stated that his gloom is absolute and beyond relief.

SAMUEL REED, of New York, quarreled with and beat his wife on the night of the 7th, from the effects of which she died next morning. Alleged infidelity of the wife to her husband was the cause of the trouble.

The Sidney Telegraph of a recent date gives a very doleful account of the cattle on the plains since the snow storm in that vicinity. Hundreds upon hundreds have died, and hundreds more are in a dying condition.

A REPORT was received at St. Louis on the 7th inst., that the Union Pacific R. R. company had come into the possession of the Kansas Pacific road by purchase, and that hereafter the two roads will be operated as one.

A FAMINE is reported raging in the most terrible manner in Bolivia, and from eight to ten persons in the vicinity die daily of starvation. In one small town two hundred and six persons died from want of food in twenty days.

The crown prince of Germany was to have arrived in England on the 5th to attend the marriage of the duke of Connaught with Princess Louisa Margaret of Prussia. The princess was expected to arrive on the night of the 4th.

The report of the onset of inquiry relative to the conduct of Major Reno, during the battle of the Little Big Horn, and nothing in his conduct which required animadversion from the court. Gen. Sherman and Secretary McCrary inquire this finding.

In the English House of Commons the other day a motion was made in favor of adopting female suffrage, which was rejected by a vote of 217 to 103. The right to vote will be given to women in all free countries, and it is only a question of time.

ENORMOUS suits were brought against Archbishop Purcell on the 4th inst., aggregating about \$25,000. In the evening there was considerable excitement among clamorous crowds in the vicinity of Archbishop's residence, in Cincinnati, many of whom forced their way into the building, but beyond angry words, nothing occurred.

The government last week purchased at San Francisco one hundred and fifty thousand ounces of silver at a hundred eight and a half.

The Royal Castle of Terresven was burned last week. Ex-Empress Charlotte, widow of the late Emperor Maximilian of Mexico, resided in the castle, but was safely removed.

MICHELL CAROLAN was shot and killed last week in his store at Kansas City, by an unknown man who fired at him through the glass of the window, from the porch. Officers are in pursuit, but had not captured the assassin.

The Daily State Journal says "the whole amount of levy for state purposes this year will be the same as last,—four mills. For 1880 the levy will be only two mills, an average of three mills for the two years, or a reduction of 25 per cent. upon the levy of the past two years."

The proposition of voting \$38,000 bonds to the Atchison & Nebraska Railway extension carried in Crete, precinct, Saline County, on the 8th. The proposition for \$5,000 bonds to same road, was defeated in Big Blue precinct. The proposed extension starts from Firth.

NIGHT after night last week attempts were made to destroy the city of Columbus, Ohio, by incendiary fires. Between two and four o'clock on the 8th inst., eight stables were burned, while attempts were made to fire other buildings by using rags saturated with coal oil.

The case of the United States vs. the Burlington & Missouri river railroad company, involving the right of the government to annul certain patents issued to it by the company for 1,200,000 acres of land in Nebraska, was decided on the 3d inst., in favor of the company.

A NUMBER of wealthy citizens of Cincinnati, who have an interest in an Idaho mine, were greatly rejoiced last week by the news that a very rich vein of gold had been found in the two hundred foot level, and that it furnishes ore yielding from \$1,500 to \$2,500 per ton in gold and silver.

The widow and daughter of Bayard Taylor arrived from Germany in New York on the 6th, and were received at the wharf by many friends, including Geo. Bancroft. Mrs. Taylor appears greatly prostrated by her bereavement. The remains of Minister Taylor are expected this week.

NO LESS than one hundred and twenty-five immigrants passed Omaha Thursday last for location in Nebraska. The train leaving Omaha carried over three hundred passengers, and was so crowded that it looked like a Fourth of July excursion. It is so described by the Omaha Republican.

CONGRESS has passed the following bills and they have become laws: All the annual appropriation bills, except the legislative, executive and judicial bill, and the army bill were signed by the president and have become laws, together with the bill making the requisite appropriation to pay arrears of pensions.

LET the people of Nebraska, regardless of party affiliations, mark well those men who voted for the capitol appropriation steel, and consign them to the political obscurity they so well merit.—Schuyler Sun. What say the Osceola Record, the David City Republican and Press, the Oakland Pen and Plover, the Madison Chronicle, and the Norfolk Journal?

WE learn from the Omaha Republican that G. T. Taylor, of Bell Creek, Washington county, this State, is preparing to tap about one thousand maple trees in his large grove and have a grand "sugaring" this season. This is the first attempt to make sugar on a large scale in the State. Of course the result will be all right.

THE revenue collectorship for Nebraska has been changing hands in quick succession for the past few months from Mr. Robb to Mr. Newman, and now it is reported from Mr. Newman to Judge Crouse. If Judge Crouse has received the appointment there can be no doubt of his ability and fitness to discharge the duties of the office.

THE Lincoln Journal says it "understands there has been serious omission and clerical errors in many of the enrolled acts. Some of them of such a serious nature that it is questionable whether the effect of the bill is not destroyed." Any excuse to back down from an unconstitutional bill will almost always be received by a deceived people.

GEN. BUTLER says in his report as a member of the Potter committee that he examined the question in the light of the political and party action of both parties in the State of Louisiana, where it would seem that every form of wrong, misconduct and outrage possible to be done in an election is alleged to have been committed on one side or the other. The general conclusion is that in 1876 there was no full and free election.

In the senatorial district immediately south of us, and which W. F. Kimmel was supposed to represent, we fail to find a man who commends him for his vote on the capitol appropriation bill. We have not been all over the district, it is true, but shall continue to assiduously inquire for that great body of Mr. Kimmel's constituency who desired him to vote as he did.

PETER VAN NEE, who has been walking at Armory Hall in New York since the 28th of January to accomplish the feat of walking 2,000 half-miles in 2,000 half-hours; weakening under the terrible strain he lost his reason last week, and his friends had a serious time to get him under control. While in his frenzied condition, he was shooting his revolver to right and left, endangering the lives of those present in the hall and in his sleeping room.

A SAD accident occurred at Oakdale Monday last, from the criminal carelessness of the use of fire arms. A number of men were shooting with revolvers at a mark from the inside of the stable, out of the door, at a target on the outside. At the moment Lauren Means fired, a man by the name of Frank McCormick stepped in range of the shot on the outside of the door, the ball taking effect in the mouth and ranging to the back part of his head killing him instantly.

The following persons were elected directors of the Union Pacific R. R. Co. on the 6th inst: Sidney Dillon, F. G. Dexter, Elisha Atkins, Russell Sage, Solon Humphreys, Jay Gould, John Sharp, S. H. Clark, David Downs, James R. Keene, W. L. Scott, E. H. Baker, F. L. Ames, Addison Cammack, W. A. H. Loveland. A report of the directors for the year ending December 31st, 1878, shows the gross earnings, including the Omaha bridge, at \$13,121,272. Paying operating expenses, taxes, &c., there will be left a net income of \$7,931,672. Two hundred and eighty-three miles have been laid with steel rails, and 15,000 tons of steel rails contracted for, to be used during the present year.

A. & N. R. R. S. B. Gale, Esq., and L. W. Towne, the Atty and the Sup't respectively, of the A. & N. Co. arrived in the city Saturday last, on a tour of inspection, so to speak. We had not the pleasure of meeting Mr. Towne, but understood from Mr. Gale that the Company were ready to build the road to Columbus, if the proper aid could be secured. The Company wants \$350,000 in bonds along the line. It is thought that Butler and Seward will vote all the law will allow them; the city and precinct of Crete, Saline county, have already offered \$38,000, and if Platte county does her proportionate share, she can secure the road. It is understood that the proposition will be submitted to Seward county about the first of May; to Butler on the 10th, and to Platte on the 20th.

PERHAPS Antelope Trowbridge may have sufficient time on his hands just now to tell his good people just what considerations moved him to cast his vote for a \$75,000 appropriation to build a wing to a future capitol at the town of Lincoln. One good reason will do in the absence of the other thirty-nine. Should Mr. Trowbridge essay to open his mouth on this question, his interested constituency will await his words with breathless anxiety. The JOURNAL submits that no future moment will be so appropriate for this purpose. Now is the time for elucidation, explanation, justification or vindication, whichever it may be—before the particulars of the transaction have faded out of Mr. Trowbridge's memory. As for his constituents, this consideration will not affect them, for they will not be apt to forget it.

ALBION, March 8, 1878. EDITOR JOURNAL:—

Again, after a silence of a few weeks, we take up the pen to note the progress and development of our town and the surrounding country. Farmers are busy sowing grain, and the general impression is that 25 per cent. more grain will be sown this year over last. Immigrants arriving daily, and are so earnestly and favorably impressed with our country topographically and climatically. Indeed, it can be said with all candor and truthfulness that our winters are pleasant and delightful. To-day in the most of the eastern states snow lies on the ground to the depth of several inches, with no prospect of commencing operations for a month to come, while we are sowing grain and complaining of its being so dry and dusty. The town of Albion has again "taken a start" in the right direction. D. A. Lewis and Co. are erecting a large and commodious frame building 22x50, two stories high. The first floor to be used for their drug business and the upper floor to be occupied by the Masons and Odd-Fellows. Neither of the above Lodges have as yet organized themselves into working order, but probably will soon, as they have a call out, its object being to organize and get into good working order by the time their Hall will be finished. The Baptists have broken ground for a house of worship,

24x48 feet, and when finished will be an ornament to the town. The Methodists expect soon to erect a house of worship, the dimensions of which will be about the same as the Baptists'. We have felt the necessity for places of worship for several years. In the past the school-house has been used for that purpose. A great revival of religion has taken place here during the past winter and its effect has been felt throughout the entire neighborhood, in a moral and spiritual sense—and the good that has been wrought, we hope may continue to grow. Several more buildings are expected to be erected in our town and country this spring. We have the past year had a better financial class of people come in our midst, and more are coming this spring, as the improvements will testify. Many who came here in the pioneer settlement of the county have sold out and fine frame buildings are taking the place of tumbled down and dilapidated sod structures. The B. & M. R. R. lands are being bought up rapidly by the new comers and thousands of acres of our green prairies will be blackened this summer ready for the reception of grain another year. We would say to those who are looking for good locations and are anxious to secure good farming and stock farms, to hasten here this spring, for we vouch it that before autumn every good piece of land in our county will be occupied. The B. & M. R. Co. are putting forth their best efforts this spring in directing the immigrant to their lands in this county; we all know with what indefatigable zeal they push their advertising of a new county. More anon. SETTLER.

At noon the parents came with their little ones and joined the teacher and scholars in a grand repeat prepared for the occasion, after which they were favored with singing and declamations from the children. THE B. & M. R. R. lands are being bought up rapidly by the new comers and thousands of acres of our green prairies will be blackened this summer ready for the reception of grain another year. We would say to those who are looking for good locations and are anxious to secure good farming and stock farms, to hasten here this spring, for we vouch it that before autumn every good piece of land in our county will be occupied. The B. & M. R. Co. are putting forth their best efforts this spring in directing the immigrant to their lands in this county; we all know with what indefatigable zeal they push their advertising of a new county. More anon. SETTLER.

Footville Items. Miss Beckie Elliott's school closed Friday, Feb. 28th. At noon the parents came with their little ones and joined the teacher and scholars in a grand repeat prepared for the occasion, after which they were favored with singing and declamations from the children. Then came the presentation of reward cards from the teacher. The children and parents went away well pleased, wishing that the last day of school would come soon again. P. S.—D. Thomas, F. Rivet and J. C. E. are the champion pie eaters on Shell creek. The Literary is still in progress and increases in interest. On Friday evening last Mr. H. S. Elliott and sisters were favored with a surprise party by the young people of Postville and vicinity. March 3, '78. SUBSCRIBER.

DEAR JOURNAL:—I beg and entreat you to restore the "c" in "monarchical," lest I should be held accountable for a word not recognized, I believe, in the English language. And do not make me say that the Sovereignty of the People is one in principle with Absolutism, lest an indignant multitude of fellow citizens should visit me with condign punishment. The sentence began: "The Sovereignty of the Masses, not the sovereignty of the People (which, rightly understood, is a perfectly just claim) &c." your compositor like good Homer, must for once have been nodding a little.
