More newcomers are locating in Boone than in any other county near us. Geo. G. Becker, in the Bank building, has the agency for the B. & M. lands in that county. The first annual Ball of the Masonic and Odd Fellows' societies will be held in the Lewis Bros' Hall, Albion, Neb., Tuesday evening April 15th, 1879. If you want native cedars to grow, go yourself to the tree, taking with you a gunny-sack or a square of muslin, dig around the tree, disturbing the roots as little as possible, lift the tree, put it tightly in the gunny-sack or muslin, take it home and plant it thus, and it is said that there will be scarcely any doubt of its good growth thereafter. This is about the method of Jacob Ernst and Judge Higgins.

The following local was omitted from last week's JOURNAL. Judge I. N. Taylor of Oskdale was in the city Monday. The Judge is about to enlarge the Pen and Plover, and desires to engage the generous business men of Columbus to assist him with a share of their patronage. They have always been exceedingly liberal with our neighboring newspapers, and their aid has been duly appreciated by him.

Two of the best practical jokers of this city are F. Brodfuehrer and Geo. Wandell. We are informed by one who learned of their last practical joke, that they rented a building, and furnished it throughout for the reception of a newly married couple, even to a cooking-stove, pictures on the wall, a clock in running order, and dishes washed clean and put away in the cupboard. If there were more such men there would be more "matches."

Mr. Fisher, of Golden City, Colorado, an extensive grain and stock dealer, was in Columbus a few days last week. He purchased of D. Anderson one car of fat hogs, and was in need of ten car loads of fat cattle, which could not be had in this section, but succeeded in buying seven car loads at Papillion and Elkhorn. Mr. Fisher reports fat butcher stock very scarce in the west, in consequence of the hard winter they experienced.

The Longlook club, and association for the discussion of farm topics, was organized at the Longlook school-house last Saturday evening. The officers elected were J. Ernst, Pres.; J. H. Reed, Vice Pres.; Jas. Russell, Treas.; M. K. Turner, Sec'y. A very interesting meeting—and everybody interested in farm topics and who can attend regularly the meetings on Saturday evenings is requested to join. We shall take occasion as we find space and valuable items to report their proceedings.

The following speaks for itself. The Kramers, both here, at Kearney, and North Platte, are very extensive patrons of the newspapers; they are business men knowing the value of printer's ink, and their magnanimous yet judicious use of it, is telling the story in the amount of their sales. We direct the attention of our citizens to the new advertisement of L. Kramer, Spruce street, opposite the postoffice. As an evidence of the business enterprise of this house, we would refer to their liberality in advertisements; being three times as great as any business house in the city. In dull times Kramer tells the people—through the medium of the press—what he has to sell, in brisk times he ceases not to herald the glad tidings over the country through the columns of the Western Nebraskaian, the only thorough-going newspaper published in North Platte.

A most valuable, and it is claimed the most important, number of this Journal ever issued, is the American Agriculturist for April. A simple, effective and cheap plan is set forth, by which every farmer can definitely learn the needs of his soil, and how to largely increase the profits of his labor. There is also a great variety of timely, practical articles for the field and garden, with a full hundred original illustrative engravings, large and small. Among the noteworthy articles are: Caponizing, showing how any one can easily and safely perform it, and thus greatly increase the quality of his poultry; Grapes for every body; Guernsey Cattle fully described; Prickly Comfrey, an important fodder crop. The work of the month laid out, with numerous hints: An interesting breed of fowls; Bee-keeping for Everybody; The House-fly fully described, and how obtained; Canadian lotteries and other humbugs exposed, etc., etc. Orange Judd Company, Publishers, New York. \$1.50 a year; 15 cents a number of news dealers, or post-paid from publishers. The Agriculturist, printed in German, is furnished at the same price. The annual meeting of the Platte county Bible Society will be held in the Presbyterian church, April 13th, 1879, at 7:30 p. m. The District Deputy, Rev. William McCandlish, is expected to be present. Short addresses will be delivered by Rev. McCandlish, Christison and Hullibrot, after which a subscription will be taken for the benefit of the bible cause. It is hoped that the entire county will be represented at the meeting. J. Q. A. The first annual Ball of the Masonic and Odd Fellows' societies will be held in the Lewis Bros' Hall, Albion, Neb., Tuesday evening April 15th, 1879.

The services held in the Presbyterian church last week, were so well attended and interesting that they are to be continued each evening this week, Saturday excepted. All invited.

If you want native cedars to grow, go yourself to the tree, taking with you a gunny-sack or a square of muslin, dig around the tree, disturbing the roots as little as possible, lift the tree, put it tightly in the gunny-sack or muslin, take it home and plant it thus, and it is said that there will be scarcely any doubt of its good growth thereafter. This is about the method of Jacob Ernst and Judge Higgins.

The following local was omitted from last week's JOURNAL. Judge I. N. Taylor of Oskdale was in the city Monday. The Judge is about to enlarge the Pen and Plover, and desires to engage the generous business men of Columbus to assist him with a share of their patronage. They have always been exceedingly liberal with our neighboring newspapers, and their aid has been duly appreciated by him.

Two of the best practical jokers of this city are F. Brodfuehrer and Geo. Wandell. We are informed by one who learned of their last practical joke, that they rented a building, and furnished it throughout for the reception of a newly married couple, even to a cooking-stove, pictures on the wall, a clock in running order, and dishes washed clean and put away in the cupboard. If there were more such men there would be more "matches."

Mr. Fisher, of Golden City, Colorado, an extensive grain and stock dealer, was in Columbus a few days last week. He purchased of D. Anderson one car of fat hogs, and was in need of ten car loads of fat cattle, which could not be had in this section, but succeeded in buying seven car loads at Papillion and Elkhorn. Mr. Fisher reports fat butcher stock very scarce in the west, in consequence of the hard winter they experienced.

The Longlook club, and association for the discussion of farm topics, was organized at the Longlook school-house last Saturday evening. The officers elected were J. Ernst, Pres.; J. H. Reed, Vice Pres.; Jas. Russell, Treas.; M. K. Turner, Sec'y. A very interesting meeting—and everybody interested in farm topics and who can attend regularly the meetings on Saturday evenings is requested to join. We shall take occasion as we find space and valuable items to report their proceedings.

The following speaks for itself. The Kramers, both here, at Kearney, and North Platte, are very extensive patrons of the newspapers; they are business men knowing the value of printer's ink, and their magnanimous yet judicious use of it, is telling the story in the amount of their sales. We direct the attention of our citizens to the new advertisement of L. Kramer, Spruce street, opposite the postoffice. As an evidence of the business enterprise of this house, we would refer to their liberality in advertisements; being three times as great as any business house in the city. In dull times Kramer tells the people—through the medium of the press—what he has to sell, in brisk times he ceases not to herald the glad tidings over the country through the columns of the Western Nebraskaian, the only thorough-going newspaper published in North Platte.

A most valuable, and it is claimed the most important, number of this Journal ever issued, is the American Agriculturist for April. A simple, effective and cheap plan is set forth, by which every farmer can definitely learn the needs of his soil, and how to largely increase the profits of his labor. There is also a great variety of timely, practical articles for the field and garden, with a full hundred original illustrative engravings, large and small. Among the noteworthy articles are: Caponizing, showing how any one can easily and safely perform it, and thus greatly increase the quality of his poultry; Grapes for every body; Guernsey Cattle fully described; Prickly Comfrey, an important fodder crop. The work of the month laid out, with numerous hints: An interesting breed of fowls; Bee-keeping for Everybody; The House-fly fully described, and how obtained; Canadian lotteries and other humbugs exposed, etc., etc. Orange Judd Company, Publishers, New York. \$1.50 a year; 15 cents a number of news dealers, or post-paid from publishers. The Agriculturist, printed in German, is furnished at the same price. The annual meeting of the Platte county Bible Society will be held in the Presbyterian church, April 13th, 1879, at 7:30 p. m. The District Deputy, Rev. William McCandlish, is expected
