The Democrat seems to be troubled with an awful burden of knowledge on Columbus post-office business. It is said to be "brewing." Better ease your sore back by unloading a little of your extra cargo of post-office information, and pick up a few splinters of geographical knowledge.

Columbus is considered by us a good point for our business and to establish a paper to circulate throughout the State.—Prospectus Platte Valley Democrat.—In fact we did not know that the U. P. passed through Columbus until we were on our way here.—Platte Valley Democrat, July 18th.

It is still the "chief business of an editor to keep his head out of his paper." This remark need not be taken to heart by the editor of the Democrat unless he knows that he is meant by it. We don't mean him, particularly. We speak in general terms, and leave the spirit of truth and the average conscience of the editor to make the application.

The Fremont and Schuyler papers contain graphic accounts of the doings of one Qualls Benton, cattle-dealer. It seems that he has been married to too many women and has shot into trouble. He had a hearing before Judge Russell of Schuyler the other day, and is under \$3,000 bonds for appearance at the next term of the district court.

There is no doubt that Columbus is one of the best places in the world to start a newspaper. Experience has proved that it is, too, a very successful point for the "survival" of the fittest, and the departure of the superfluous ones. The JOURNAL has always believed, and will continue to act upon that belief, that what ought to continue to exist, will continue to exist.

On Saturday last, upon invitation, about forty of Clinton Smiths little friends assembled at his parents' home on 15th street, where they celebrated in a lively manner his seventh birthday anniversary. Mr. and Mrs. Smith went to considerable labor in fitting up our-door grounds for the comfort of the little folks, which they evidently appreciated. Supper was served at six o'clock, and "all that goodies!" And how they were enjoyed. May the little folks all live to enjoy many happy returns of Clinton's birthday.

Wanted immediately a good herd boy, by J. E. Tasker & Bro.

On account of sickness, Dr. Slaughter failed to deliver his lecture last evening as announced. We are requested to state that if the lecture does not take place soon the money will be refunded to those having purchased tickets.

DEED.—On Tuesday, July 22, 1879, after three weeks illness, of Liver Complaint, Mr. Frederick Meedel, aged 76 years, father of Chris. Meedel, of Butler precinct, this county. The deceased had resided in Nebraska fourteen years, and was known and respected by a large circle of friends. Peace to his memory.

A match game of base ball was played on the grounds south of the city on yesterday afternoon between the "Bat Smashers" of Madison and the "Independents" of this city, resulting in a score of 17 to 19, in favor of the home team. Good feeling prevailed throughout the game, and the decisions of the umpire, Mr. A. J. Thatch, were fair and impartial, and H. P. Coolidge kept the score "straight."

The M. E. Sunday school picnic, as previously announced, took place Saturday last at Stevens' grove, west of the city. Some three hundred persons were in attendance, who enjoyed themselves during the day by engaging in innocent games, boat-riding, swinging, etc. Col. Stevens has recently added new features to his grounds, and is now claimed to be the "boss" place in the county to spend a pleasant day.

The JOURNAL takes great credit to itself for educating the Era to a certain degree of decency in the conduct of a newspaper. Of course, with better material to start with, we could have done more; but we object now to taking an other pupil of the Bourbon family. However, if it shall seem to be necessary, in the interests of the general public, and more especially of the Columbus public, we will even undertake that.

The last number of the Democrat, published by Wentworth & Son, formerly of Racine, Wisconsin, contained a column of lies, more or more, with particular reference to the JOURNAL and its proprietors, which is grossly personal, unprovoked, unwarranted, malicious and false. We characterize the printed matter precisely as it deserves, and leave to the brass of Bourbon papers the congenial work of calling "names."

There are thousands of dollars for the man or company that will control the waters of the Long for mill and manufacturing purposes. It can and will be done in the near future. Enterprising men of capital will not long permit the waters of this stream that was never known to dry, to run to waste. Races made of hard timber will control the water and a sufficient fall can be obtained in a short distance to run mills of usual power.

J. W. Sanderson for drunkenness and disorderly conduct was arraigned before Judge McAllister on Monday last. He pleaded an extenuating circumstance that he took the liquor to drown the misery of a felon on one of his fingers. The Judge's sympathy may have been aroused, but the glaring fact that the man was drunk made it necessary to call on him for a small donation of \$1 for the school fund, and to file to pay the officers for their trouble.

N. F. Benson of Kansas, arrived in the city Saturday on a visit to friends. He is a brother-in-law to Mrs. Jane North, and hadn't seen any of his nephews for 25 years. He speaks very highly of Kansas and Nebraska, as compared with his old homes in New York and Ohio, and says that the influx of immigration to his part of the country this year has been simply immense.

The last Osceola Record contains full particulars of the accident at Myer's Hall. Elsewhere we give some particulars. We subjoin the following from the Record: "At the first crash brave men rushed to the rescue, and heroically worked in extricating the unfortunate ones from the debris. The crowd was furious and in their haste to find loved ones, trampled those not akin. Fortunately no body was killed and no bones broken. All who went down were more or less bruised. The following as far as heard from sustained the most injury: Mrs. W. F. Louger, Miss. Kneer, Mr. & Mrs. C. Humphrey, Mrs. Dr. Waller, Mrs. Dr. Logan, Mrs. Maxwell, J. Palmer, H. G. Thurman and Miss. Katie Kuukel."

He had been keeping a sharp look-out for them for some time and had about come to the conclusion that he would never capture them, when one day last week while walking in the garden he happened to gaze up into one of his trees and there, perched upon a limb nestled together were the little treasures. With the aid of a slip-noose of a fish-line attached to a long pole they were brought down and caged. That's the manner in which Al. Arnold came by those young mocking-birds.

Twine Binder. Ten years ago a school teacher of St. Louis took up the idea that a self-binder was a thing of much importance to the farming community, and at that time went to work, in spare hours, to devise a machine. After ten years of work and care, he was rewarded by bringing out what is called Fassett's twine-binder. This machine was tried in the field of Mrs. Margaret Cleary on Shell creek, Saturday last, and gave satisfaction to all who saw it work.

Wanted. Some one to plow four acres near my house. J. G. HIGGINS.

St. Edward. Rain, like everything else, is very good in its season, but to look at the reaping machines and harvesters standing idle this rainy morning we think that it was all the same to "old Probabilities" or the "clerk of the weather," two weeks earlier or later would have answered every purpose in this locality.

Our friend, Capt. Voorhees, is the possessor of a swarm of bees that are doing a lively business laying in sweetness for their owner.

Our friend, Capt. Voorhees, has done a big business in selling harvesters this season. So also have Dishler & Smith.

Last Sunday a large congregation assembled at the new Baptist church to hear the first sermon preached in this building by Elder J. W. Wright, officiated on that occasion, and has earned for himself the reputation of being a very forcible and eloquent preacher, after a few appropriate remarks, reminded his hearers of the necessity of practicing, as well as professing christianity.

The Editor has a earnest and practical way of dealing with professors, non-professors and skeptics, though it may not always agree with the views of the last named—never offends.

So that transparent humbug, the U. P. business, has been "dissolved." Now if the people could only arrange it somehow to snub a few of those so-called railroad magistrates who are eternally interfering with our local affairs by arbitrary legal proceedings and every other oppressive scheme that heartless tyrants only contrive, it would be a good end for the people at large.

Clippings White on the Wing. DENVER, COLO., July 16, '79. ED. JOURNAL: Myself and quadded companions had a very pleasant trip, from the future railroad center of Nebraska to the frigid metropolis of Colorado.

The Platte river, for one or two hundred miles west of North Platte, is almost entirely dried up. Cattle owners may have to move their stock unless the elements intervene to furnish nature's liquid, within a short time.

Throughout northwestern Colorado and some parts of Wyoming the early summer has been a very unpropitious green grasses, she was wont to bear. The whole country seems dried up, and the vast herds of cattle are in an unusually poor condition. Such a drought around Cheyenne was never before known.

On more than one occasion a cow boy who was shot a few days ago by the sheriff, was buried at Ogallala.

There seems to be as great an influx of people to Denver as in the earlier days of '59 and '60. Many Nebraskans are perambulating this city, and the number of them, S. C. Smith and lady; Swobe, and Hartman, treasurer of Douglas, Sherman, treasurer of Dodge, Prof. Ott, Joe Baker, John Horigan and many others.

To-morrow will start for the snow clad mountains and great canyons of the big Rockies. Yours, ANDERSON.

Butler County. EDITOR JOURNAL: Plenty of farm work has compelled me to neglect sending you my correspondence from this county as often as I would wish, this summer.—I commence harvesting to-morrow, and necessarily will not hear from me until my hurry is over.

The small grain in west Butler will be of good quality, and, we think, of an average yield; corn bids fair to be an extra crop; farmers are cheerful, but hard work and plenty of it has generally taken off all surplus flesh, and they resemble somewhat the lean king of Pharaoh, the aged. But nowhere are farmers more contented than here, for they realize and enjoy the fact that they live in the very garden of Nebraska.

Rising City now has a good hardware store and it is enjoying a good trade. A good harness-maker would find it a visit we think he would be convinced that the location would be profitable for him. Our branch-stores have departed to other scenes of fame, but our permanent houses of business enjoy a good trade.

No more from Mr. Editor, until my grain is gathered and the merry cluck of the sickle ceases. July 14th, 1879. WHY NOT?

St. Edward. We are having some wet weather this week which makes harvesting a little slow. Cutting wheat here commenced on the 12th, and since that time is being steadily pushed forward. The crops are lighter than last year, but of better quality. Rye and barley have been severely harvested. A good many have hay up in stack. Corn is nearly all out in tassel and some pieces in silk.

Nearly every second farmer hereabouts has got him a new harvester, or combined reaper this season, and all seem to find plenty of employment. S. E. Morgan has a header and has also ordered a new threshing machine. So the lookout seems prosperous.

Our neighbor David E. Jones has an old turkey gobble and nothing would do him but to set, so David filled a nest with hen's eggs, said gobble took possession, and in due time brought forth a fine brood of young chickens, in which he seems to take a great deal of pride. He is indeed a motherly looking fellow. July 17th, 1879. EAGLE.

Look Out. ED. JOURNAL: A citizen of Platte county, who has ability to be a respectable and useful man, if he would so will it, was drunk Wednesday night and probably mistook the residence of a stranger for that of an acquaintance in the same quarter. When first noticed he was endeavoring to get in a window. An officer was called up (3 a. m.) but out of consideration for the man's family, he was not put into the "lock-up." If there had been a pistol at hand, the probabilities are that there would have been an end made right there, of drunkenness and mistake, so that one individual was concerned. S. R.
