

SENATOR PADDOCK and family left last week for Washington. ELEVEN hundred troops left Barcelona on the 30th ult. for Cuba. It was reported last week at Paris that the Chilians had taken Iquique. The stock market in New York recovered last week from its recent shock. GEN. GRANT will not visit Washington City until after his return from Mexico. It is stated that the cold is very severe in Cuba, there being twenty degrees of frost. Over three hundred colored persons arrived last week at Parsons, Kas., from Texas. Hon. E. K. VALENTINE was in Omaha last week on his way to Washington City. PRESIDENT HAYES and lady were the guests of Bishop Simpson on Thanksgiving day. The troops stationed at Rawlins, Wyo., have received orders to go into winter quarters. The steamship Lesing from Europe brought to New York last week \$2,475.50 in gold coin. TRACK laying on the O. N. & B. H. railroad was completed to Madison last Wednesday evening. JAY GOULD'S last purchase embraces the Missouri Pacific and the Ft. Scott and Gulf railroads. The name of ex-Senator Frelinghuysen has been presented to the President for the English Mission. GRAVE robbers at Chattanooga last week, captured a corpse, and were in turn captured by the police. ALL the breweries of Cincinnati consolidated the other day. This action has caused much excitement in the trade in that city. A STATEMENT is made at Washington that the United States currency outstanding at this time amounts to \$362,784,119. GEN. JEFF C. DAVIS died at Chicago Sunday afternoon from obstructive jaundice. His remains will be taken to Indianapolis. THE Treasury Department at Washington purchased \$500,000 of the silver last week for delivery at Philadelphia and San Francisco mints. NINE persons were arrested night before last charged with murdering Dr. Sherman, who was waylaid and killed near Brunswick, Mo., last summer. RANDALL, Fayette county, Iowa, containing 200 or 300 buildings, was almost entirely destroyed by fire last week. It is believed to be incendiary. GOV. COLLIER has offered a reward of \$200 for the arrest of John N. Taylor and Robt. Taylor, who murdered John Gichenauer near Chadlersville, Ill. J. G. BROWN, a colored clerk in the post-office at Richmond, Va., has confessed to a series of mail robberies, which previously puzzled the postal authorities. GLADSTONE made a speech last week to the electors at Balkeith, Scotland, in which he expressed himself in favor of giving home rule to Ireland, but in local matters only. Two men quarrelled in a theatre at Kansas City, and commenced shooting at each other, when one of the flying bullets struck George H. Southworth, a printer, and killed him. GEN. AND MRS. GRANT dined last Monday by special invitation with Mayor John Thompson of Dubuque. Five hundred invitations were issued to a private reception in the evening. STENO, Ireland, came near getting up a riot one night last week. Davitt was arrested by two bands. The police had to clear the streets. They were stoned, and made several arrests. An explosion of benzine in the bath room of the New York Electrotype Foundry occurred last week, doing considerable damage to the building, and probably fatally burned Edward O'Keefe and William Gray. It is claimed that St. Louis merchants and capitalists will subscribe \$1,000,000 to carry out the proposition to make Fort Royal, South Carolina, a great exporting and importing point from the west and south. It is reported that not less than two hundred and thirty-five fishermen have been lost from Gloucester during the past year, and it is believed that others will be added to the list as several vessels are reported lost. A COAL fleet from Pittsburgh brought to Cincinnati the other day no less than four million bushels of coal. The retail price was fixed at fifteen cents a bushel, and before two hours the entire supply was exhausted. THERE were rumors in New York last week of a syndicate to control freight transportation from seaboard to seaboard. It is stated that Gould completed his arrangements to be left New York for the West. Vanderbilt negotiations are practically concluded.

MYRON E. BROWN, for a long time master mechanic of the Erie railway, committed suicide in Buffalo, on the 28th. On the 28th ult., a fear of tornado swept over Louisville, Ky., which did great damage to buildings, and blowing a large brick warehouse to pieces. PASSENGERS who came into St. Louis, Monday, on the Iron Mountain road, report the robbery of \$140,000 in bonds on the Little Rock railroad. SANFORD PATRICK, a prisoner at the Lincoln penitentiary serving out a term of four years for arson, was killed on the 28th ult. by a load of dirt falling upon him. A COMMITTEE of the city council of Philadelphia, appointed to arrange the reception of General Grant, have agreed upon a programme for a week's entertainment. MARCELLES Powder Mill, near Syracuse, N. Y., exploded last week, destroying three buildings and 3,000 pounds of powder. The report was heard twenty miles away. A SPECIAL train on the New York and New England railroad for Washington village ran into a hand car near Providence, on the 28th ult., instantly killing Michael McGraith and John Noon. ADA CLIFTON, a variety actress, attempted suicide by shooting herself in the region of the heart with a small pistol, at Cincinnati, on the 28th ult. Her horse is reported to be at Columbus, Ohio. It is reported at Washington City that Thomas Hendricks, of Indiana, has expressed a willingness to accept a second place on the Democratic ticket with Horatio Seymour, of New York, for President. NEWS from Dublin under date of the 29th ult., states that a billiard, while executing some deuces on a farmer near Sneer, County Kerry, was the day before murdered. The affair created great excitement. DEPUTY SHERIFF, CHARLES A. HAWLEY, of Denver, arrested the other day at Big Grove, Ia., Samuel Woodruff, who is charged with the murder of a man by the name of Hayward, near Denver, Colo., last September. Some of the papers claim to have a full copy of Secretary Sherman's report, which recommends that greenbacks be reduced to three hundred million dollars by cancellation, and that Congress take steps to repeal the legal tender act. ASA MAGOON, who murdered Rufus Streeter at Barre, Vermont, October, 1875, was hanged in the state prison, on the 28th ult. He refused to make a confession, but left an explanation of the crime and said Mrs. Perrine was the guilty one. It is stated in an exchange that pickpockets attend all funerals in New York, and are only captured by detectives abroad enough to keep their eyes on the members of the cortege who seem to be the most deeply and solemnly affected. THERE was, for a short time, a fair show for a big fire in Grand Island on the 28th at Sears Bros. block. The fire originated in a defective fuse, but was rapidly extinguished by the water works. Loss amounting to about three hundred dollars. It is stated that the value of the exports over importations of October, is \$40,957,873, the largest in the history of the country. The excess of imports of gold and silver into the country over exports, from July 1st to November 22d, amounted to about \$65,000,000. JAMES M. LOWE was arraigned last week at Portland, Me., for the murder of his brother J. A. Lowe, some time in September last pleaded guilty. The trouble between the brothers was occasioned by what was believed to be unjust discrimination by the father in regard to property. GEN. GRANT'S friends are active in preparing a number of drafts of bills providing positions for him. We believe that Gen. Grant will not accept any place thus created for him, simply because he must see and feel that the desire of the American people points in another direction in his case. The grand jury recently in session at Salt Lake found only four indictments for polygamy. That crime must be on the decrease in that vicinity; but the grand jury express the trouble by saying in their report that they found great difficulty in obtaining truthful testimony from witnesses brought before them. SECRETARY SCHREYER will recommend a new policy for the Indians. First, to set them to work as agriculturists, and to allot parcels of ground to them in severality, which shall belong, by legal title, to their occupants. The youth of both sexes to be educated. All land occupied on the reservations to be sold for the benefit of the tribes. A FIRE broke out at Hastings, which burned the depot and the young man Yocum, leads to the suspicion that Baldwin, the night watchman, murdered Yocum, and then set fire to the building to conceal the crime. Baldwin has been arrested at Hastings, and the body of Yocum, which was on the way to Iowa for interment, has been taken back to Hastings to undergo a post-mortem examination.

THE SITUATION. Communities, like individuals, are presumed always to be willing to consider what appears to be for their benefit. Unlike individuals, they are more difficult to arouse to action. The great importance of a public measure is seen and felt by active, enterprising business men long in advance of its realization, and for this reason mainly is it that a community looks to them for guidance in their affairs. It is the attention of such that the JOURNAL wishes to direct to a few general principles and facts peculiarly applicable to the situation of this community. We are in the midst of one of the grandest agricultural regions in the United States; the chief market for its products is destined to be the vast mining region in the west, whose splendid future is but just dawning, and whose millions of wealth are to be scattered among us in exchange for the necessities and comforts of life. We are, more and more every year, appreciating the situation, but we should not allow the bright picture of the future to grow dim, but on the contrary go resolutely to work to make it a grand realization, knowing, full well, that "the Almighty helps those who help themselves." Nebraska's population has increased at least 100,000 souls in the last year, and with the revival of business in the older States, we may very reasonably expect the next five years to exceed any former like period for immigration, business enterprise, and the development of the resources of our country. In view of these things the JOURNAL wishes to impress upon its Columbus readers, and more especially his active business men and capitalists, the proposition that, as a community, we are ready to take a step forward in the line of progression. Columbus heretofore has mainly been a depot of exchange, taking of the farmer the surplus products of his land, and supplying him with such goods as he needed, and which the merchant had purchased of eastern manufacturers and dealers. As the prime source of wealth in our country is the grass and those products of the soil which follow the industry and ingenuity of man, so the chief sources of wealth to a city are its manufactures and its commerce. In this western country the community which gets the start in manufacturing will be pretty apt, other things being equal, to keep it. A good name is as beneficial to a city as to an individual, and when once her manufacturers and dealers are in the market, it is hard to displace them. There is no reason in the world why Columbus should not take the step forward, and make a start in the road which leads to sure prosperity. We have abundance of raw material here which we can manufacture into articles finding a ready market at greatly remunerative prices to the manufacturer, and our business men and capitalists have only to put their wits and their pocket-books together to make it a success from the very first. WHENEVER one man gathers under his exclusive control any great interest it is little wonder that ordinary people become anxious for their welfare. The most generous-minded man in the world is very apt to be a little dictatorial, at best, when he has the power. The following telegram comes from Atchison, under date of the 28th ult.: Jay Gould and party arrived in this city last evening, and this morning started west over the Central Branch road. This road is now completed to Kirwin, 242 miles west of this city. Gould's party will go to the end of the line and may also inspect some of its branches. There is a great deal of interest throughout this State as to Gould's purposes. He now controls nearly 1,500 miles of railway within the limits of Kansas, or fully one-half of the total mileage of the State. The roads that have passed under control are only lines traversing a large section of the State, and the completion is thus practically destroyed. Hence this combination has it in its power to do great good, or harm as it may elect. The journals of the State are generally replete with expressing opinions upon the subject, but all manifest the uneasiness almost universally prevalent among the people concerning this gigantic concentration of railway interest in the hands of a combination. The Steamship Bellona, from Montreal to Quebec, was driven ashore during the terrible gale at Lake St. Clair, last week. No other particulars were obtained. The mail steamer, Albert, from Pictou, Nova Scotia, is reported wrecked on Magdiens Island, passengers and crew saved. The Steamship State of Alabama rescued the crew of the ship Lou, from Boston to Antwerp with palm oil. The steamer also passed a large quantity of wrecked stuff and a great number of petroleum barrels. A FIRE broke out last week in the Webster school building at St. Louis, resulting in the severe injury of a number of girls and one of the female teachers, in their rush to escape from the second story by a flight of stairs. Ella Link had her arm broken. What added to the children's fright was the ringing of a large bell on the top of the building. The fire was only a trifling matter in one of the lower rooms, and soon put out.

St. Louis, Nov. 25.—A Post dispatch publishes a full account of proceedings at the meeting between Gould and eminent citizens to-day. Ex-Governor Stannard made a statement to Gould of the resources, growth and prospects of the city as a railroad center and distributing point. Gould replied that as long as he controlled the roads centering he would work for the interests of St. Louis. He thought they were more utilized in the shipping trade. He did not believe they were in a condition to handle all the grain that his roads expected to bring here. He believed Kansas next year would produce fifty million bushels of wheat and two hundred millions of corn, all of which our roads could bring here, as well as a great deal from Nebraska. He thought they should begin to provide means for its transportation. The committee were much pleased with his remarks about the river and are already maturing plans which were thought of some time ago for carrying out his suggestions, building tow boats, grain barges, etc., for a line between here and New Orleans. Gould goes to Kansas City to-morrow, thence to Omaha and Ogden. BANGOR, November 26.—The Whig will to-morrow morning state that Boutelle, of the republican committee, has obtained positive evidence that a will, bearing date of 1878, secretly substituting altered and amended returns contrary to law. The constitution and laws require that returns sent to the secretary of state by the town clerk shall be signed and sealed up in an open town meeting. Mr. Boutelle, the Whig will assert, has evidence that the clerk of a certain democratic town in one of the threatened counties forwarded his return immediately after the election in precise accordance with his record, as late as the second week in November. This clerk was informed by other town officers that a prominent democrat requested a new return made as there was some trouble with the returns from that and other democratic towns. The clerk, it is asserted, did make a new return, which was forwarded about the middle of November, in which he corrected the errors and supplied the omissions complained of, although the town record shows them just as they appeared in the original returns. DAVID VAN SICKLE, living in Delaware county, Ohio, had last week given a tramp employment, and after the family retired to bed the tramp got up and commenced search of the house for booty, when Mr. Van Sickle interfered and the tramp made an assault upon him with a butcher knife, cutting him very seriously about the arms and face. He also made an attack upon Mrs. Van Sickle and then escaped with citizens in pursuit. KING ALFONSO and the Archduchess Marie Christina were married, as announced at Madrid, on the 27th ult. Every thing was in grand style, and after the marriage ceremony they drove through the city, preceded by a brilliant cortege. The queen made a very favorable impression, and was enthusiastically greeted by the populace. The city was illuminated in the evening in honor of the marriage. THE official canvass of the votes of the State were completed at Lincoln on the 25th ult. The total vote of the State is 71,665. For Judge of the supreme court, Cobb, Republican, has 25,236 majority. For Regents, Carson, Republican, has 23,249 majority, and Gannett, Republican, 20,265 majority. Weaver, Pound, Post, Barnes and Gaslin, Republican, and Savage, Democrat, are elected district judges. THE minister of Plymouth church took occasion in his Thanksgiving sermon to say that the haughty and dogmatic attitude of the southern congressmen in the last congress, and the result of the November elections, should teach the people that until a generation comes which knew not Calhoun and has forgotten Jeff. Davis, the control of the nation should rest with those who rescued it from slavery. THE recent movement in the South headed by Joe Johnson, to create a new military office to be known as Captain-General and make General Grant the first Captain General, and thus knock him off the track for President in 1880 appears to be well understood by Gen. Grant's friends in the north. We incline to the opinion that his political enemies cannot dispose of him in that way. ADDITIONAL news from Hastings disclosed the fact that the Coroner's jury found from the examination of the body of young Yocum and other evidence that he had been shot, having found two bullet holes in his left side, and the jury returned a verdict that he came to his death by shots fired by either Baldwin or Taylor, and that the building was fired to conceal the crime. A FIRE in New York last week in the stables of the eighth avenue horse railway company, which had, when the fire commenced, eight hundred horses inside. Besides the building, a number of cars, hundreds of tons of feed and hay, and one hundred horses perished in the flames. The loss will reach a quarter of a million dollars. A MAN had in operation at Atchison, Kan., a striking machine, to test how much power can be put into a blow delivered by a large wooden maul. A man by the name of W. C. Wallace went to the machine the other day to test his strength. Wallace delivered a blow, stepped back, and fell over dead.

Two men, Henderson and Dunn, who live near Ekinburgh, Ind., while engaged in butchering hogs the other day, quarrelled, and Henderson, after cutting Dunn's arm with a knife, at the next blow severed his jugular vein. Death ensued immediately. Henderson escaped. TWENTY-SEVEN persons were dancing on the ground floor of a factory in course of construction, at Paris on the 1st, when the two upper floors fell on them. Seven have been rescued, and there is no hope of recovering the others alive. MOOREY and Sankey commenced a revival meeting on the evening of the 25th ult., in the First Presbyterian church at St. Louis. The building was crowded with people, and great interest taken in the services. FIFTY thousand persons were present at the Hyde Park, London, meeting. Agitation meetings were held Sunday all over County Mayo. Parnell was to sail in a short time for America. COLUMBUS MARKETS. Our quotations of the markets are obtained Tuesday afternoon, and are correct and reliable at the time. GRAIN, AC.
