—Ed. Polly ofeward is making a short visit to Columbus. He speaks of large improvements in Seward consequent upon the construction of a competing line of railway, the L. & N. W. Hard coal that formerly cost \$13 is now sold for \$10 a ton, and this is but one of the numerous reductions in price, made possible by cheaper freight rates.

—We want it distinctly understood that the JOURNAL is written as a historical record to be read not only by the present dwellers in the land, but referred to by future generations as a faithful record of local events. For this reason we desire the co-operation of our patrons and friends in every neighborhood to furnish us facts suitable for publication.

—Geo. Lehman, this morning opens the Grand Pacific Hotel, his own property, lately known as the Pruyp House. The house is new and now equipped throughout with new furniture. George is very widely and favorably known as a landlord, is energetic, and admirably adapted to the business, in which he has had considerable experience.

—An effort will be made by some of our prominent Democrats to secure the State convention here. There is no reason why we shouldn't have both political conventions this year. Columbus is readily accessible from every section of the State, by rail; is centrally located; has ample hotel accommodations, good Opera House, and will do the boys "proud." Let us have both conventions.

—Reuben Butler, Esq., formerly of Schuyler, Neb., now of New Lexington, O., gave us a call Saturday. Having local business in western Iowa he concluded to drop in upon his old friends and acquaintances in Colfax, Platte and Butler counties. He is looking in splendid health. Of course he has a larger law practice where he is, and is doubtless making a great deal more money than he would if here, but he evidently has not lost a fondness acquired for the sunny days in Nebraska, and the invigorating breezes of western life and weather.

—Just as we go to press we receive the painful intelligence of Mate Upton's insanity and arrest. About 9 o'clock deputy sheriff Wilson was called to the house on the information that Mate was driving the family and friends into the street. On arriving at the house this was found to be true and as the deputy sheriff entered he, too, was attacked. With the assistance of three or four men Mate was secured, placed in a wagon and conducted to the county jail where he now is. Mate has had some mental difficulty before, but never of a dangerous character. The present trouble is said to be the outgrowth of religious excitement.—Schuyler Sun.

—A paragraph in the last Genoa Leader is well calculated to mislead eastern folks, not posted on our climate, who may read it. The weather reports, as they appear in the JOURNAL month after month during the year, give a better view of our climate than an inconsiderate paragraph written in haste. Nebraska has no "parched and baked half-acre," and the impression conveyed by such a phrase is a delusion and a snare. Now, Bro. Burgess, if you will give us a chapter upon the beauties of Nebraska climate, and especially the rain in its season, we will forgive you this little indiscretion, which, however, we could not less pass without some little comment.

—If all counties in the older states would do their duty as well as Rock Island county, Ill., in sending good people to the newer lands, Nebraska would have a rich benefit. On last Thursday came to locate in Platte county, J. R. Smith, H. S. Latrop, Thos. Wilson, friends and neighbors in Illinois, who, with their families are registered temporarily at the Hammond House. They brought with them their household goods, three car loads, besides for Mr. Smith seven horses, Mr. Latrop 6 horses and Mr. Wilson a cow and 2 horses. They are intelligent gentlemen, and will, with their families, be an acquisition in the communities where they settle. Would that a hundred thousand such would come to Nebraska this season.

—One of Phil. Cain's horses got away with him the other day and skipped out with his skeleton wagon, taking the forward wheels in a solo race of considerable distance. We believe that horses should be broke to harness when very young.—Those who have never kept a scrap-book don't know its value. Sometimes you will have preserved one article that may alone chance to be worth two or three times the cost of your book. Try it. You can begin with several items in today's JOURNAL.

—When the JOURNAL states that a man will send for his wife when he gets his house built, does it necessarily mean that he has already got the wife, any more than that he has already built his house or is going to build it soon? We acknowledge that the phraseology admits of a question.

—It is said that a man giving his name as J. J. Patterson and who has been living at Osceola for some time, died recently of lung and heart disease. One who ought to know, seeing his picture, says that Patterson was the veritable Frank James, one of the notorious James brothers, and it is proposed to have his body exhumed.

A Trip to Madison.

In company with a friend, on Wednesday morning last, we started out on a trip to Madison, the air was cool and cloudy, but on reaching the Bluffs north of Columbus, the rifts in the clouds presented to view large patches of blue and sunshine, gilding the Loup and the Platte with a sheen and beauty that no artist, however skilled with brush, could portray, or pen describe. We may gaze with wondering awe upon the gorgeous sunset as it spreads out its mantle of gold and red, but there is an indescribable hush and grandeur that thrills the soul, as we behold the sunrise, shimmering the hill tops, and chasing the mists and darkness from the valleys, in strange contrast with the shadows and gloom that enshrouded the sinking monarch of the Heavens the evening before. Such was our reverie (and much more) from which we were aroused by our companion, as we neared the Shell creek crossing on a new, substantial bridge at Gleason's. Pleasant were the echoes of our horses' feet as they clattered on the hill, as we rise to the plateau, that reveals with its curling smoke, the few buildings that at present constitute the mayoralty of Dick, our inimicable Dick Rossiter of banjo fame and "quit your fooling dar." Dick and his associates may see the day when Platte Centre will expand to more than a name. We now emerge to a beautiful stretch of prairie, with roads as hard as the shell roads of the east. On we speed with hundreds of acres on either side, seeded with wheat, or plowed ready for the husbandman's skill. We think the change of name from Stearns to Grand Prairie was an appropriate one, no other term could so well fill the bill; grand! is the exclamation that involuntarily escapes unbidden from the lips of every beholder; thrift and progress are the characteristics of every farm from the Shell creek valley to Tracy creek. From this point on to Madison, the country is rough and broken, but susceptible of cultivation. Suddenly we find ourselves confronted with a bustling little village lying nestled on the Union creek valley. Several substantial stores and warehouses are in course of erection, the most prominent, has been built and stocked with five car loads of all kinds of merchandise by Gross Bros. of Columbus, who intend to do business at both places. The depot is a neat structure, and favorably located, about one-half mile west of the town. We were much amused at the quizzical manner we were interrogated about the trade of Columbus, and the sympathetic (I fear that was extended at our recital of growth and increased business and life; whatever may be our future, our present is bright with promise, and if we lose our prestige it will be by suicide, and not by murder. Madison is prettily located and has some promising business men and citizens that we must look well to her surroundings or she may need to weep for departed glory. Railroads are not the only boon that small interior towns require. We saw a good stock of lumber near the depot, and found a gentleman attendant there, but on our return to Columbus we met some Madison county teams, hauling out goods and small jags of lumber. If our notes by the way furnish our readers as much pleasure as did our opportunity to gather them we are satisfied.

Dr. J. S. Christison.

The JOURNAL is under the painful necessity of recording a bad deed of one who ought to have known better. Dr. J. S. Christison, formerly of this place, later of Albion and Genoa, having a team of horses, and we believe, a buggy, which were mortgaged for the purchase money, went off in company with one Robert Crozier, and has not been arrested. Constable H. P. Baker pursued the fugitives to a point near Grand Island, where the trail was lost. It is supposed that the pair have gone into southern Nebraska, sold the buggy, and are endeavoring to make their escape on horseback. The parties in interest are determined to catch Christison and enforce on him the full penalty of the law in such cases, including imprisonment in the penitentiary. It was at one time reported here that he had been shot by an officer while attempting to arrest him, but this seems without foundation. We get these facts mainly from the Genoa Leader.

Weather Report.

Review of the weather at Genoa, for the month of February, 1880.  
Mean temperature of mo., -deg's. 29.69  
Mean do. of same mo. last year 21.68  
Highest do. on the 24th -deg's. 55  
Lowest do. on the 29th -deg's. 16  
Ordinarily clear days. 21  
Very cloudy days. 8  
High winds—days. 3  
Calm days—days. 5  
Rain or snow fall—days. 2  
Inches of rain or melted snow. .70  
Lowest do. same month last year. .45  
Inches in depth of snow. .05

Prevailing winds during the month from S.W. to N.W. by west.

Heavy white frosts on the 7th and 13th.  
Lunar coronas, 14th, 16th, 18th and 23d.  
Solar halos, 10th.  
Lunar halos, 14th, 17th, 17th, 23d, 24th, 25th, 18th.  
Parselenes, 25th.  
Mirage, 1st, 2d, 3d, 7th, 8th, 29th. Very bright frosts occurred on the nights of the 10th, 16th, 26th and 27th, the last accompanied by snow and low range of temperature, being on the whole a moderate "blizzard."

The Reporter desires to call attention to the following facts from the report of the chief signal officer for the month of January, 1880, (just received) in support of his previously expressed opinion as to the desirability of the Loupe valley as a residence on account of its freedom from violent storms, etc. It appears from this report that 18 trapper traps were set during the month of the centers of 5 passed south of the Platte, 7 passed through Pembina and Manitoba and 13 passed north of Nebraska.

Although many have been disposed to consider our winter a very dry yet from the same report it appears that more moisture was deposited in our valley during January, than at any other point of observation of the Missouri.
