G. P., we suppose Mrs. Platte, formerly for so many long years engaged in school work here with the Pawnee tribe.

T. A. Potts, who recently made the trip to Lincoln, speaks enthusiastically of the crops along the route. There is nowhere along the line that the traveler is out of sight of corn; corn, corn, on every hand, and lots of it; a little this side of Milford he saw the best corn of the season; the Union Depot of the B. & M. and A. & N. at Lincoln is a good structure 182x55 ft.; the round-house there has 30 stalls.

A. & N. Bonds. On the 14th day of June, 1879, by a vote of 1435 for, and 266 against, the people of Platte county voted to issue \$100,000 of the bonds of the county to the A. & N. R. Co. if they would construct and operate a road into Columbus by the first day of July, 1880.

They are dated Jan. 1, 1880, and are due in 20 years; interest begins July 1st, at 8 per cent., interest payable annually. A tax is to be levied each year to pay the current interest of \$8,000; after ten years the county have the option of paying a portion of the principal, in sums of not less than \$1,000; after ten years also, an additional tax is to be levied to meet the principal at maturity.

NO NEVER! An Effective Nailing of the False Report as Regards the Baltimore and Ohio. (Special Dispatch to the Chicago Times.) BALTIMORE, June 19th.—The fast train interest appears to be in no danger of subsiding, as the Baltimore and Ohio comes to the front again Monday with a second daily lightning express out of Chicago. It will leave about eight o'clock in the morning, and reach Washington at noon next day, and Baltimore an hour later, four hours ahead of any other morning train out of Chicago. This effectively nails the report that the B. & O. had, or was intending the withdrawal of its fast trains. Such action was never thought of, no change whatever having been made in the fast time schedule since it first went into effect. The 5:15 P. M. train out of Chicago reaches Washington the next evening, no other 5:15 P. M. train on competing lines making the Capital until the second morning.

Every taxpayer is interested in the general welfare of the county, and should show his interest by building up every established institution that increases the value of property and the number of taxpayers. Suppose every man here to-day should secure, by his individual efforts, a new settler and taxpayer, see what an addition there would be to our population, and a consequent decrease of the rate of taxation! We concede that this is one of the most selfish reasons why a man should evidence a public spirit, a spirit which not only aims to earn money for its possessor, but earns it with some sort of reference to the welfare of others.

All last week was excellent corn weather in this region of country, and that important cereal took advantage of the situation, and literally made hay while the sun was shining. Nebraska is counting upon the greatest crop of corn in all her history, and we sincerely hope she may not be disappointed. Good land and labor make corn; corn and grass make cattle; and cattle make money; and plenty of money means better dwellings, better barns, fenced fields, good schools, thriving communities. Hurrah for the boys and the men and the horses that are now engaged in prospecting for the true gold which grows on the stalk!
