The Republicans have procured a suitable room at Lincoln for use as headquarters of the State Central Committee during the campaign. At the republican ratification meeting at Chicago one night last week the Tribune says no less than 80,000 people were in attendance.

The Lincoln Journal says that P. B. Byer, treasurer of Franklin co., is a defaulter of county funds to the amount of \$2,000.

EDWARD EGAN a bar-tender at Malta, a small town near Leadville, was shot and killed Monday by James Brady, a ranchman, and an old settler.

NEARLY the entire upper portion of Empire City, Oregon, was destroyed by fire on the 29th ult. The value of property destroyed will reach \$50,000.

MICHAEL MADDOX, of Baltimore, was arrested last week for the murder of John Schaba. He alleges that he found the deceased in his wife's bedroom.

At Atlantic, on the Rock Island road, a brakeman named Frank Pomack, was caught between two cars Monday morning, and was crushed to death.

The astronomer Flammarion, accompanied by his wife and four servants, started from Paris the other night in a balloon on a long aerial trip, which is to last two nights.

A VERY severe hail storm passed over Ridgeville, Ohio, last week, doing great damage to the corn crop. Many fields damaged will not yield more than five bushels to the acre.

The army headquarters will be moved from Ft. Omaha back to the city of Omaha, which is said to be a much desired change. The old building will be turned into a garden, and new quarters routed in the city.

The democrats in Virginia rely a good deal for success in their present split and divided condition, on a marked diminution in the colored vote, owing to a want of ability or neglect to pay the poll-tax levied upon them.

The Journal Co. at Lincoln have let the contract for their new building to be erected on the site of the old Atwood House. It is to be finished in November, and will be decidedly the best and handsomest printing office in the State.

DR. TANNER, the fasting physician, on Monday last, for the first time since he commenced his fast, acknowledged that he felt very weak. He retired for the night at 10 o'clock, but did not rest quietly, his stomach being out of order.

The State Convention.

The Omaha Bee thinks the Republican State central committee took a snap judgment on the people by calling the convention so early as the first day of September, being a little over four weeks in which time the republicans will have but little time to give notice of their primary meetings, holding their county conventions and appointing delegates to the state convention.

The snap judgment comes in most prominently in the published call of the committee for holding the state convention, in which the committee have failed even to allude to the nomination of U. S. Senator. What appears to make this action on the part of the committee look still stranger, if possible, is the fact that the committee in meeting had the senatorial question before them, and voted that the matter of nominating a senator be left entirely to the action of the state convention. Now, why not say that much in the call? The very least that can be said in regard to the action of the committee on this branch of a plain and simple duty required by the constitution and law of the state is that it shows a total disregard for the wishes of the people.

The probable cause of the fire which occurred in Omaha on the 26th ult., came from a man who was considerably intoxicated, seen passing in and out of the building with a stub of a cigar in his mouth. The Omaha papers say it is the worst conflagration that has visited the city in the past two years. The loss cannot with certainty be arrived at, but it is believed will reach \$15,000 to \$20,000. The property burned was mostly insured.

It is stated in an exchange that the military has been called out in Alabama to prevent the negroes from lynching the masked men who murdered negro Thompson and murdered his daughter the other night. This is reversing the common order of things down in Alabama. The objection used to be urged by this same people that the military should always be subordinate to the civil power. The shoe pinches now on the other foot.

L. A. SAALFIELD, who represented himself as an advance agent of P. T. Barnum sometime since at the Withnell House, Omaha, when leaving gave a draft of \$50 in settlement of a bill, receiving some cash for the balance. The draft turned out to be not good. Mr. Kitchen, the landlord of the hotel, had the chap arrested the other day at Denver, and he will be taken back to Omaha for trial. He also obtained \$5 from another party in Omaha.

MR. HOOFIAN, formerly a resident of the Bender neighborhood in Kansas and who had frequently seen them, was at Fremont on the 30th ult., and identified the man recently arrested there as old man Bender. He is not so positive as to the woman. The woman claims that Mrs. Bender died in 1876, and says that Kate is in Minnesota, and that John Bender, Jr., is in this state. They were to have met him to-day. Officers are on the trail.

B. W. MOORE, a prominent attorney, shot and mortally wounded Charles Haynes, colored, last week in Tennessee. Haynes had interrupted him in a speech at a bar-baque, and Moore subsequently spoke to him about it, when Haynes became angry and grasped at a stick which Moore had in his hand, when Moore drew a pistol and fired. Moore gave himself up.

A REPORT comes from Lincoln that State Auditor Leitke has been asked by Gov. Nance to turn into the treasury seven thousand five hundred dollars, fees received for insurance outside of regular business, and that he has refused, on the ground that the money was his, by right. Gov. Nance has instructed the Atty. General to proceed against the Auditor for the amount.

The residence of Hon. D. H. Solomon of Mills co., Iowa was entered on the night of the 27th ult., by two burglars, one of whom young Solomon shot and killed. It was known that Mr. Solomon had received a large sum of money on the day preceding. The dead burglar's name was Stephen Willford, and was employed in the vicinity as a laborer.

It is understood that the commission sent out from Washington has concluded a treaty with the Uncomphage Utes, and expect to succeed in closing a treaty with the Southern Utes. Instructions have been received at Los Pinos Agency, from Washington, that the reservation would not be opened for settlement until the Indians are removed.

Two brothers, John and Henry Wolcott, both engineers and having charge of different trains, came in collision Saturday evening on the Long Island railroad at Morris Grove, just beyond east New York, and both were killed.

Eight sea lions escaped from their confinement at Coney Island last week. The bathers in that vicinity as a matter of course are afraid of meeting the animals in the water.

offering. What has passed in many respects to obtain freedom will in the immediate future be repeated, if such terror and despotism is permitted to be exercised over any number of American citizens, but with a ten-fold power against the offenders. The coming election, if not conducted fairly and entirely without the shot-gun and corporation policy, will kindle a fire that will not end until it burns out all this wicked despotism. If the general government has no method of enforcing the provisions of the constitution to protect a citizen in his rights and punish all offenders who intimidate him or deprive him of a free ballot, then they who do the wrong must take the consequences, and a terrible conflict is imminent, for come it will unless justice is done and the laws obeyed.

INVESTIGATION of the Mamie disaster has commenced at Detroit, and there seems to be a determination to probe the cause of the disaster thoroughly, and fix the guilt where it belongs. It is stated at Detroit, now to be public news that the pilot had a girl in the pilot house with him not long before the accident. The bodies of eight of the victims have been found. Solemn requiem was said on the 26th ult. in Holy Trinity church with 10,000 people present.

A HOG that is regarded as a very mean man, but the chap who stole and carried away four thoroughbred pigs four weeks old from W. T. Allen's pig pen near Lincoln one night last week possibly expects to be a good deal of the great prize on account of the size of the animals.

SHERIFF GREGG of Fremont, captured two persons on the 29th ult., supposed to be the old man Bender and Kate, the notorious Kansas murderers. It is said that they made a partial confession. They will be held until parties arrive from Kansas to identify them.

The recent decision of Judge McGreeby dissolving the injunction to restrain the Omaha & Southwestern railway from crossing the Union Pacific tracks at Omaha gives the former road the right to pass over and thus enter upon the broad acres of Nebraska.

The third annual exhibition of the Central Nebraska Fair Association and Horticultural Association will be held at Hastings, Sept. 14th-17th. A large number of first-class premiums will be distributed. Sent to the Association for a premium list.

The ship Winchester, from Manila, with sugar for the St. Lawrence refinery at Montreal, was wrecked last week in the Straits of McClelland. The cargo was valued at from \$150,000, to \$200,000, and was insured.

JOE THOMPSON, colored, who resides 20 miles from Atlanta, Ga., was dragged from his home last week by fifteen disguised men, who beat him and his wife fearfully, fatally shot his son, and killed his daughter.

The election for state and county offices took place in Alabama Monday. The Republicans have no state ticket in the field, and were defeated. The second vote was 70,000 democratic majority is a low estimate.

It is stated that the Wabash line of railroad was opened up with the last trains from Omaha Sunday south and east. This line will make the run in eleven hours quicker time than the present time made by other routes.

FROM Mobile we learn that the English brig R. W. Wood arrived at quarantine last week with yellow fever. The second mate was reported ill. All hands on board have been down except three men. Two died.

COME now, farmers, what about voting on U. S. Senator? Do you want to try it? Would you really like to know what the county wants, once? We can do it. If we've a mind to, State Central Committee or not, State Convention willing or not willing. Write us something about the matter.—Plattsmouth Herald.

DR. TANNER was very feeble on the 31st, but is still confident. Last Saturday at noon brought him to the thirty-fourth day of his fast. Next Friday at noon will close out his forty days, but Dr. Tanner's purpose is to fast forty-one days, which if he succeeds in doing, will end next Saturday at noon.

T. W. SIGOURNEY, a prominent and wealthy citizen of San Francisco, was shot and killed the other day in the post-office there by Geo. W. Smith, ex-sheriff of the county. The foreclosure of a mortgage by Sigourney, which dispossessed Smith of all his property, was the cause of the shooting.

THE colored camp meeting, near Hillsboro, Ohio, was broken up last week by a mob of white roughs who invaded the grounds. About fifty shots were fired, and clubs and bulldozers were used. Three persons were seriously hurt, probably fatally, and many others more or less injured.
