In speaking of Lincoln, he characterized it as a rattling good town, which it undoubtedly is. John Walker, Co. Commissioner, met us the other day and said that when he read the question in the JOURNAL concerning the bridge, he was too far away to answer by word of mouth, but if he had had a telephone he would have thundered in our ear—"that bridge is done."

Phillips' string band goes to Albion this evening to furnish music for the Old Fellows dance. Mr. and Mrs. Ed. Jenkins of Madison county, were in the city Saturday and Sunday. Ed reports very good crops in his vicinity and was surprised to see the effects of the dry weather in the valley. F. Brodfehrer was at Albion last Thursday, and established a branch store. He says that business there is excellent, very few time sales being made. Farmers wear smiling countenances, because their crops are good. Abner Turner, and likewise D. Anderson have recently sold yearling steers to Iowa men. When Nebraska farmers can see their way clear to buy and keep such stock, they ought not allow them to be sold out of the State. The re-union of the Grand Army of the Republic will be held in this State at Central City next month. Gen. It stands thirteen feet high, and is made of Italian marble, very highly polished. The weight of the monument was 4700 pounds. I. J. Dings and daughter recently took a trip west to Custer county. Under date of Aug. 4th Jacob Judd writes us from Grant Prairie as follows: "Cool nights for harvest!" Yes, I should say so when we had frost last Sunday night. I had a piece of corn sown on low ground that was badly cut by the frost, and potato tops, but did not hurt corn planted in the hill on full low ground. Done harvesting.—Wheat is good. John Wise, Co. Commissioner was in town Monday. We consider it a duty that we owe to our fellowmen to warn them against shaming hands with John. He is a very cordial man, has a big, strong hand, and a grip like a vice. When he has a mind thereto he can make you suffer. When we meet him, these days, we stick a lead pencil at him to shake. In last week's JOURNAL the salary of the City Atty was accidentally put down at \$300, when the proof-reader should have made it \$200. The JOURNAL doesn't like to be mistaken even on such a small matter as \$100 on a yearly salary, because, as it is, the city attorney gets 64 cts. for each and every working day in the year, whether he works for the city's benefit or not, and it would not be right in us to allow the JOURNAL to say that he was getting 96. Be it remembered then that he gets 64 cts. a day. Andrew Hess, a bar-tender on 11th st., came near having his eyes blown out of his head, and his head blown off his shoulders Monday afternoon. He was scuffling with a man, who knocked a cigar out of his mouth, which went among some boxes under a counter, dropping upon a package of powder, not known to have been there. Hess went for it and as he was about to pick it up, the flame flashed up into his face, burning off his moustache, eyebrows, &c. Yesterday morning when he was complaining of a pain in his eyes.

Four-hundred cattle—For sale at our ranch one mile from Fullerton, Nance Co. Nebr. 60 yearling steers, 40 yearling heifers, 275, 2 and 4 year old steers, 25 cows and calves. Also, 5 thoroughbred short-horn Durham cattle—2 bulls, 3 heifers, and 2 Norman Stallions. FULLER & REED. —Some time since we printed an article copied from an exchange containing, among other things, the sentiments that a saloon is the poorest investment that could be made to build up a town; that aside from all moral considerations the traffic is a curse to any community; that the burden comes squarely on the tax-payers at last, and they have to pay for the crimes that are committed by those who are under the influence of liquor, etc. The article should have been credited to the Oconto Home News instead of the Record. About four weeks ago, John and Kate Bender with their dilapidated and forlorn looking outfit, stopped in front of Sheriff Spielman's residence, where Kate entered the house and endeavored to trade a heavy gold ring for some food; the old gray and bay horses, and the four squally little ones in the wagon particularly attracted the attention of the Spielman family, and that wretched looking outfit has been the subject of conversation frequently since in the Spielman household. They represented that they were emigrating from Oregon, where there was a severe drought, to the State of Illinois. From all the recent developments, it looks as if the real Mr. and Mrs. Bender, formerly of Kansas, and of murderous notoriety have really been captured by the Sheriff of Fremont and a citizen of Colfax co., our Dan. Condon, who first discovered them, which has been asked for, which is expected to be received in a few days, when these supposed wicked criminals will be removed to Kansas, where they committed several horrible murders. The former charges against John Bender and his wife while living in Kansas were the murders and robbery of the following persons, so far as recognized: W. H. York, G. W. Longear and daughter, L. G. Brown, W. F. McCrotty, H. F. McKenzie, Peter Boyle, and John Brogert, and how many others were killed at their horrid slaughter-house, if any, is not known. J. C. Morrissey returned from Chicago Thursday evening, more than ever impressed with the overshadowing power of the great metropolis, which reaches with its giant commercial arms to the uttermost ends of the earth for business and wealth. He likes the life of the city, its enterprise, its ambition and its ceaseless activity. He was particularly struck with the business done at the sessions of the Board of Trade. This corporation pays a rental of \$30,000 a year and has a lease of the building for 80 years. Each member's annual fee is \$900, and the amount of business transacted is simply wonderful to think of. The enormity of some of the operations carried on in Chicago may be seen from the fact that one packing company employ 3,000 men in their works, one-half more than the number of souls in the city of Columbus. A canal is talked of to lake Erie, and a water connection with the Mississippi. Chicagoans confidently predict that they will have, in time, the largest city in the United States, larger than New York, even, because they will have a thickly settled country in every direction around them, and tributary to them as a depot of supplies and of surplus products. Down go the rates. Special inducements are now offered to every one to attend the Grand Triennial Conclave of Knights Templar, to be held in the city of Chicago, August 16th, 17th, 18th and 19th, '92. It is expected that the whole world will be represented. Many thousands of dollars in prizes will be awarded. Arrangements are now being effected whereby this will far surpass anything of the kind ever before witnessed in America. The entire Lake Front Park covered with tents, loaned by the war department, under special act of Congress, passed in April last, to shelter the people. The Grande Musicales et Danse, tendered by the Sir Knights, of Chicago, to their Fraters and Ladies Faire, will be given at the grand Exposition building, which has a capacity to accommodate 75,000 people. This sight will have to be seen to be appreciated. The grand competitive prize drill to take place at the Chicago Jockey and Trotting Club track will be extremely attractive and exciting. An elegant building in the form of a piasa cross has been erected on Lake Front Park for the sessions of the Grand Encampment. The great Chicago, Burlington & Quincy R. R. Co. will sell tickets from all stations on their line, at only 2 cents per mile, from August 16th to 18th inclusive, and good to return until, and including August 21st, 1892. For further particulars apply to any agent of this Company.

The competing bands are to play each six pieces, three of their own selection, and Hall Columbia, the Star Spangled Banner and the Mocking Bird. Under date of Aug. 4th Jacob Judd writes us from Grant Prairie as follows: "Cool nights for harvest!" Yes, I should say so when we had frost last Sunday night. I had a piece of corn sown on low ground that was badly cut by the frost, and potato tops, but did not hurt corn planted in the hill on full low ground. Done harvesting.—Wheat is good. John Wise, Co. Commissioner was in town Monday. We consider it a duty that we owe to our fellowmen to warn them against shaming hands with John. He is a very cordial man, has a big, strong hand, and a grip like a vice. When he has a mind thereto he can make you suffer. When we meet him, these days, we stick a lead pencil at him to shake. In last week's JOURNAL the salary of the City Atty was accidentally put down at \$300, when the proof-reader should have made it \$200. The JOURNAL doesn't like to be mistaken even on such a small matter as \$100 on a yearly salary, because, as it is, the city attorney gets 64 cts. for each and every working day in the year, whether he works for the city's benefit or not, and it would not be right in us to allow the JOURNAL to say that he was getting 96. Be it remembered then that he gets 64 cts. a day. Andrew Hess, a bar-tender on 11th st., came near having his eyes blown out of his head, and his head blown off his shoulders Monday afternoon. He was scuffling with a man, who knocked a cigar out of his mouth, which went among some boxes under a counter, dropping upon a package of powder, not known to have been there. Hess went for it and as he was about to pick it up, the flame flashed up into his face, burning off his moustache, eyebrows, &c. Yesterday morning when he was complaining of a pain in his eyes.

Under the name of J. J. Dings and daughter recently took a trip west to Custer county. He reports the crops in portions of the country traversed as good, in others, owing to the long-continued dry weather, as poor. Thursday week at Genoa and Fullerton they had good showers of rain. The second jury in the case of the State vs. Jacob Schoenauer, (charged with assault and battery, tripping up a man carrying a pitcher of beer), rendered a verdict of guilty. Fine \$10 and costs, amounting in all to \$79.25 exactly. Pretty costly pitcher of beer. The case has been appealed. S. M. Barker writes us from Wisconsin that he will leave there for home on the 15th with 2500 sheep. He says that sheep there are scarce and high. Weather fine. All kinds of grain good, except wheat, and that will be a fair crop. Fruit never better.—The crop of Republicans in November will be all right. The Kummer Garage are under drill. They ought to enter the lists at Central City. And, by the way, the Columbus Cornet Band oughtn't be backward to try to secure the \$100 prize at the Soldiers' Re-union.
