FIFTEEN persons were precipitated into a deep canal at Mulberry and Worth streets, New York, on the 19th, by an iron grating giving way, and were all more or less injured.

THE air is fuller than usual of plots and counterplots, and while we plead our utter inability to see what the result will be, we hope that the convention and the ticket will be overwhelmingly right and sound.

THE London Times of recent date says that nothing that has happened in Ireland up to the present time justifies the assumption that ordinary law is inadequate to protect society against a mere handful of wicked persons, and a large number of foolish dupes.

JOHN DARIN, a saloon keeper at Buffalo, N. Y., was fatally stabbed last week by Martin Finnigan. Darin had refused to give him liquor while drunk, and he sought his bedroom at midnight for the insult and took his life in the presence of his wife and child.

THE statement is made officially from the treasury department in regard to the imports and exports of gold showing that during the last fiscal year the net imports to the United States amounted to \$17,153,331, a larger gain than ever before in the history of the country.

THE Omaha Bee claims that the census frauds in the south are likely to fail. Gen. Walker says whenever he has grounds to believe frauds exist in the census enumerations he will compel a new count, and hold the first enumerators to a strict accountability for perjury.

WM. KAMER, a hack driver at Denver, shot himself through the head last week at his room and died. He was the man for whom Gipsy De Lake suicided the week before. Since the girl's death he has been despondent, and the result of his melancholy is given above.

ALBERT HUXLEY, of the town of Clayton, Wis., a farmer aged 89 years, was shot on the morning of the 20th by his son-in-law, Morris Emmon, who lived with him. Emmon then shot himself, both dying within an hour. The affray was the result of business difficulties.

The Campaign.

The Republicans of Nebraska generally considered that a shrewdly, decisive campaign is before them. The State being overwhelmed, Republican, it has never occurred to the party to do anything with special reference to success.

The usual programme may be carried out next Wednesday, but no man has yet been able to predict with infallible certainty the action of a political convention, and it is among the probabilities, if not the probabilities, that the "even tenor" may be broken in upon.

If the convention determines not to ignore the constitution and the law on the choice of U. S. senator, then we shall probably have the liveliest gathering ever held in the State. It will be safe to predict that it will be highly interesting, because a nomination may almost be considered as equivalent to election.

It has been evident all along that what is generally recognized as railroad political influence has opposed the nomination of Senator, but whether, in the meantime, they have not been very active in securing delegations of their own to the State convention, to nominate whom they will, remains to be seen. It looks to us, now, as though the question of division will be, Shall we nominate a U. S. Senator? and on that proposition we believe the eyes will be turned.

ROSA WATERMAN, aged 15 years, is supposed to have jumped from the roof of a four story building in which she lived in New York, one evening last week, and was killed. Unrequited love is the alleged cause of the temporary insanity.

FROST appeared in several counties in New York on the night of the 19th. At Stamford, Delaware county, ice found. At Roundout tender vegetation was killed by frost, and growing corn was injured. A light snow fell in Ulster county.

THE air is fuller than usual of plots and counterplots, and while we plead our utter inability to see what the result will be, we hope that the convention and the ticket will be overwhelmingly right and sound.

Lieut. Gov. Carns.

THE Reporter, a Republican paper published at Seward, the home of Lieut. Gov. Carns, contains, in the issue of Aug. 12th, a grave charge against the Lieut. Gov. and also Land Commissioner Davis.

"But Land Com. Davis, instead of putting it up at public sale, permitted Mr. Carns to acquire it under assignment from Smith, and to pay up for it at 6 per cent, and also allowed Mr. Carns a credit of about \$700, being part of forfeited payments made by one J. H. Loomis, for interest on a purchase of 430 acres of school land in section 16, town 10, range 3, Carns having an assignment from Loomis of his claim to said land in section 16. Loomis, at the time he assigned to Carns, was delinquent for over two years in payment of interest due on his purchase of the land in section 16, which was also forfeited to the state under the school law above cited. Mr. Carns thus acquired a half section of valuable lands at about \$600 per acre, and would have sold for \$1200 or \$1300 per acre at the public sale in June, 1878, parties then being ready to start the bidding at \$1000 per acre. The school fund should have realized \$4,000 for this land instead of \$2,000, and the school fund would have been \$2,000 instead of \$1,000. Lieut. Gov. Carns, now in the interest paid on purchases of school land into the temporary school fund can be bought up by speculators, two years after it has been forfeited under the law, and again used to pay interest on other school lands purchased by such speculators, it is time the people knew it, so that the next legislature may repeal such an odious law. And if this deal is not lawful, the public should likewise be enlightened upon the nature of this transaction, for reasons quite obvious to the Commissioner and Lieut. Governor, who are candidates for reelection. And if this transaction is "crooked," how many more like transactions have these gentlemen "cooked" up throughout the state? Information on the above matters is asked for by one who is interested in having all parties in the coming election give us a square deal."

A YOUNG man named Waldron was arrested the other day by the Sheriff at Sunnyside, Ga., who had run away from there two weeks previous and went to Atlanta, taking with him a girl twelve years old, his wife's sister. A posse overpowered the sheriff, took the prisoner, and what they did to him can better be imagined than expressed in words.

LAST week Fred. Gentner went into the saloon of Martin Hassett at Philadelphia, and some trouble arose between them about paying for the liquor ordered. Gentner struck Hassett, when the latter leaned over the bar and struck Gentner a powerful blow, knocking him to the floor. Gentner went to his home and died shortly afterwards.

A terrible cyclone is reported to have swept over the southern part of Cass county, D. T., Aug. 18, making a track two miles wide and sweeping away buildings, crops and farming machinery, and killing and injuring several persons whose names have not yet been learned.

AT 5 o'clock on the evening of the 19th, at Bradford, Pa., lightning struck tank 210 of the United Pipe line, capacity 30,000 barrels, and tank number 6, of the Tide Water Pipe line, capacity 25,000 barrels, both located at Dallas City. They immediately exploded, being full of oil, and will be a total loss.

DISCOURAGING reports come from Berlin of the harvest in Silesia, Prussia, and east and west Prussia are being continually received. Rain has been incessant for three weeks and many lives have been lost. Highway and river embankments have been swept away, villages flooded and vast grain growing land thrown into lakes and swamps. Great famine is feared in this district.

A DISPATCH from Washington, under date of the 19th says: The president will leave here on Thursday of next week for his home in Framingham, O., to attend the meeting of the members of his old regiment, Gen. Sherman, accompanied by his aide, Gen. Alex. McCook, will leave on the 31st inst. and meet the president at Canton, O. The whole party will then proceed to San Francisco, from whence they will proceed to Oregon and make a visit. Returning to San Francisco, they will visit Tucson and other points in Arizona, by way of the Southern Pacific railroad. From Tucson, they will go direct to Santa Fe, Colo., to Colorado and back home. The entire trip will occupy about two months, the party returning about the first of November.

HARRIS Weekly of August 21st has several amusing pictures showing up some democratic scenes and incidents in the present history of that party. A picture representing the body, feet and tail of a huge lion bearing on its head the likeness of Hancock and at the end of the tail that of English. Along the front part of the neck of the lion, under the throat, is "Democrat," and under the head of English the following: "Praise, but no money. In plain English." Rats are running over the body and one rat starting to climb up the tail; close by are a large number of rats making for the body of the lion. Underneath is printed: "A tall praising his head. Governor's Island swarming with 'Democrats.'" Another picture representing a genuine Alabamian with a huge ballot-box in his arms, his mouth wide open taking a hearty laugh, and printed on a card attached to the ballot box the following: "Alabama, Democratic majority—60,000." Underneath "solid fix up." General (speaking to Hancock) this is about as full, free and fair as we can count in."

THE Knights Templar encampment on the lake shore the other day at Chicago looked strange and picturesque. From the exposition building south of Park Row, a distance of about one mile, the ground was completely covered with tents of the regular army pattern. Facing this warlike array on the west, were the beautiful residences of Michigan avenue, many of which were handsomely decorated, while the camp looked eastward upon Lake Michigan, many trains of cars which passed to and fro on the lake front alone shut out the lake from sight. Continuous lines of carriages and pedestrians passed along the front of the encampment, dividing their attention between the military show and the display of bunting and Masonic emblems, which everywhere predominated.

WM. COPELY, a little boy of Omaha aged eight years, had been sent up town to the sewing machine rooms for some needles one day last week, and while gone a rain and wind storm came up and the boy running home passed a section of board walk that had been taken up and was propped at one side of the pavement, and it is supposed that the wind blew the board walk against him, crushed him to the earth and held him there until the waters gathered under the boards and drowned him. The water at that point had been two feet deep. When found life was extinct, and the boy held in his clenched hand the needles he had been sent for.

KIRK E. PARKHURST and Miss Fannie Howell, of Rochester, N. Y., were clandestinely married four years ago. Miss Howell's father objected to the marriage and procured a dissolution of the contract. The young couple had a private interview last week at which Parkhurst shot Miss Howell and then shot himself, and when the room was entered they were both found dead. A note was found in Parkhurst's handwriting in which he said "rather than live apart we have concluded to die together. If we have done anything wrong, may God have mercy on our souls."

A Candidate's Speech at Columbus, Ga.

If you see fit to send me to Congress I will go to the best of my ability. [Cheers.] I believe I would like to go. [Renewed cheers.] In fact, I know I would go. [Loud cheers.] I have heard that the salary is ample, and as I have a small family, won't insist on its increase. [Cheers.] As I am fond of vindication, I want to vindicate myself. It has been hurled at me like a thunderbolt that I am too young. In answer to this I say first, can't help it, and it is not my fault. Second, I am trying to grow older every day. Third, I am succeeding. Fourth, I am afraid I will be much older than I am afraid I get to Congress. [Prolonged applause.]

J. M. LITTLE, whose home was until recently near Pittsburg, not long since came out to Omaha with the view of purchasing a farm near there and permanently locating. He walked out one morning last week and took with him a double-barreled shot gun unnoticed by his friends at Omaha, and some of them becoming uneasy, search was made, and after some time his dead body was found revealing the fact that he had discharged the contents of one of the barrels of the gun into his head. The man was certainly of unsound mind, which was the cause of the shooting.

THE matter of State Auditor Liedtke's claim for insurance fees, to the amount of \$7,500 above his salary as Auditor, has not yet been passed upon by the Supreme Court. His claim is decided legal. Auditor Weston will ask for \$6,000, the amount reported into the treasury by him on the same account. The endeavor of the Omaha Herald to create the impression that it will be a loss to the State will not deceive any thoughtful voter, and will do the Herald's cause no good.

ADELAIDE NELSON was buried at London on the 20th. Her remains were enclosed in a polished oak coffin, which bore simply the name of the deceased and the words "Died at Paris, August 15th, 1880." The coffin was covered with wreaths and other floral tributes. Several distinguished persons, including a number of actors and actresses, were present at her funeral, and Rev. J. D. Moringham read the funeral service.

THE Omaha Republican of the 19th records the attempt of Mrs. F. T. Shirock to commit suicide by taking poison, but her life was saved by the skillful treatment of her physician. Alleged cause, trouble, and a fight with her husband, a street car driver in Omaha. There appears to be another woman who commands the affections of the driver.

A DISPATCH from Barnstable, Mass., of the 18th, says that the naked and terribly mutilated body of Mary Casady, aged ten years, was found in a brush-heap in the woods. The head was nearly severed from the body, and in the child's side was a large butcher knife. The ground near by bore evidence of the struggle of the little girl to free herself from the villain who so fearfully assaulted and murdered her.

GALLEGO and Valdez, two Mexicans, were recently arrested for the murder of S. Dupper, a sheep owner in Southern Colorado. They confessed to the murder, and admitted that they obtained twelve hundred dollars in money, a check for \$125, several post-office orders, two horses, wagon and other effects. One of the Mexicans shot him while asleep, the other standing by with an ax, ready to afford assistance, if necessary.

RECENT heavy rains in the vicinity of Glendene, a village in Douglas county, Ireland, swept down the glen at that place and devastated the parish church at Connemara, and imperilled the entire congregation, which was at mass at the time, and several persons were swept away while attempting to escape. Great damage was done to property, and fifteen persons were reported drowned on the 17th.

NEVER in the history of this country was such a tremendous victory for a "free ballot and full count" won as that 75,000 Democratic majority in Alabama. We are, therefore, surprised that our Democratic friends do not say more about it, and magnify their tremendous moral vindication of the principle of the free and full ballot against the method of gathering votes with bayonets.—Lincoln Journal.

A STATEMENT from New York last week gives large movements of grain and provisions on the canals, and the remunerative freight paid is pronounced by members of the Produce Exchange, a revival of activity beyond anything known for many years. Official returns show that the movement on canals since they opened until August 14th, is fully thirty per cent. greater than for the same time last year.

IN Hong Kong the question of war or peace with Russia remains undecided. Chinese diplomats refuse to give any sign, but are nervous as to the position of European governments respecting threatened hostilities, and are especially anxious regarding the United States. They are counseled on all sides to effect a peaceable settlement. The war party appears to be in the ascendant.
