Finally the population of the state in 1870 is noted, followed by the vote for president in 1872, with ratio of votes that year to the population of two years before. This is made the basis of calculation of the total vote of each state this year, the figures given of population, 1880, being from the latest obtainable information from the Census Bureau. As these statistics cover every state in the Union, and the book so indexed as to permit of instant reference, the great value of the little work may readily be appreciated. It is not on sale nor will it be distributed without regard to use. All wishing a copy have but to drop a note or postal to C. K. Lord, Baltimore, Md., and it will be promptly mailed to the address given.

senatorial conventions.
