There is a certain class of boys that hang around the church windows every Sunday night. And if these same boys don't carry themselves pretty straight, they will get into trouble. Col. Huggins, of this city, returned from his western trip on Friday. He did some political work in Colorado, and brings favorable news from that state for republicans. Geo. McKelvey has removed his barber shop from its former location in Guick's basement, and may now be found snugly located and nicely fitted up one door east of Ragatz's grocery store.

Mr. James McAllister's grocery store was broken into last Wednesday night. It was impossible to tell the amount of goods taken, but a number of articles were known to have been carried away. Nearly all the fellows who have been in the political races this fall will know to-day whether they are ahead or behind. It is to be presumed that the country will now take a rest. "Give us peace."

W. N. McCallish recently purchased a Shropshire buck, a very handsome animal indeed. This breed combines the good qualities of both the Merino and the Cottewold, and avoids the bad in both. The engine house has just received a new two-inch floor,—something that has been very much needed for a long time. Firemen talk of making other improvements and use it for holding their meetings.

David City editors appear to have come very nearly the point of settling their journalistic differences by resorting to their muscle. We opine, however, that their readers will agree with us that the preliminary "sparring" is not very interesting matter for their papers.

Farmers should improve the beautiful fall weather that we are now blessed with to prepare for winter. As a matter of economy as well as from a humane standpoint do not forget the dumb brutes. Provide them with ample protection from Winter's cold and storms.

Allen Root, candidate for member of congress on the greenback ticket, delivered an address on the political topics of the day, and gave a very comprehensive exposition of the greenback faith to a small, but apparently appreciative audience, at the Court House Saturday evening.

Some facetious individual at Lincoln is amusing himself by poisoning the dogs of that city, and the Journal says many valuable canines have "turned up their heels," and intimates that should the individual be discovered the "joke" may be turned by treating him to a coat of tar and feathers.

Mary, daughter of Barclay Jones, eight years old, fell from a horse, Oct. 22d, breaking her left arm below, and close to the elbow joint. Dr. G. W. Lea, agency physician, rendered the necessary assistance, and she is now doing as well as could be expected. Mr. Jones lives at the Santee Agency.

Whoever invents a good, cheap press that will put into solid shape our waste slough grass and straw, so that it may be put into convenient shape for cleanly use as fuel, will be doing the west an immense service and at the same time fill his own pocket-book. Let some inventive genius try his luck.

A special meeting of the City Council was held last Saturday evening to take under advisement the question of sidewalks on Pacific Avenue and the north side of 11th street; also to receive the application of Alex. Wilson for license to sell liquors. The sidewalk question was referred to the committee on sidewalks.

Rev. Price, who resides on his farm a short distance east of the city, has been filling the appointments for some time past at the M. E. Church to the entire satisfaction of the membership, by delivering excellent sermons, abounding in strong arguments drawn from actual life events and from the "Book of Books."

Mr. John Gleason, who has been visiting his home in this county, started Monday for Rock Springs, where he expects to remain until some time in December. He has had considerable experience in mining for coal, and expressed the opinion that coal might be found in the vicinity of Genoa, Nance county, if anywhere in this section of country.

On Sunday evening the step in front of F. Gerber & Co's furniture store was pulled from its position and lay across the walk. The work we suppose of some mischievous small boy. Boys, your thoughtless actions might cause some poor old grandpa or grandpa whose sight has become dim and gait unsteady to cripple or, may be, fatally injure themselves.

The JOURNAL was mistaken in its announcement last week that Henry Luers was about to erect a new brick dwelling. The site of the building is 11th street, one door west of the Checkered Barn; the walls are now well under headway, and will when completed inclose a building 22x30 feet, two stories high to be used in blacksmithing and wagon-making.

C. E. Morse's right "flipper" must recover from a boil before his friends can shake with him. John Robinson, better known as "Jack," who is now located at St. Paul, Howard county, is reported as doing well. He is now sole proprietor of a meat market there and commands a good trade.

Wesley Botsfield, confined in the Lancaster county jail, on a charge of assault with intent to kill, broke from confinement on the 29th. The officials repaired to the house of his mother, in the country near Lincoln, and were received by that tender female with a shot-gun, the contents of which went whizzing past the ear of a deputy sheriff. She was taken into custody, and marched back to the scenes of her offspring's durance.

Chas. Reinke has one of the largest and best cattle barns in Platte county, being 48x100 feet, and covered by a shingle roof. In it he can shelter all his stock in case of a storm. Mr. R. not only provides well for his dumb creatures, but also for the comfort of himself and family, having a very commodious and convenient brick dwelling-house. In walking over his premises one has not far to seek, to know in what Mr. Reinke has found his source of revenue; fine herds of cattle; splendid-looking sheep oleaginous purse-feeders.

One of our subscribers, who has been a reader of the JOURNAL for the last ten years, in a recent business letter writes us for a copy of Oct. 13th, and says this is only the second paper that he has failed to receive in all that time. We send him the copy asked for, and hope that Uncle Sam's boy will yet bring back the other one. "Long live the JOURNAL," says our friend, and adds, under its present management you may put me down as a life subscriber.

Clear, resonant words, these, befitting the name which our friend bears, and encouraging to those who are trying to publish a local journal devoted to the best interests of the community in which it lives, and to the integrity of all who read its paragraphs. At the last term of our district court the question arose in several cases, whether the court had jurisdiction over actions where the subject matter was in Nance county. The legislature in 1879 (see laws of that year, page 148), undertook to provide for the organization of that county, and to attach certain portions to Platte and Merrick counties for judicial and revenue purposes. Section 10, Article VI. of the New Constitution, defining the boundaries of the Fourth Judicial District, makes no provision for attaching other territory thereto than that which is particularly described in this Section 10. Therefore, Judge Post, holding the constitution the paramount law, decided that Nance county is not in his district and that the legislature cannot, only in the manner provided in the constitution, change the boundaries of any judicial district.

"Brick" Pomeroy had his beautiful office in La Crosse closed, (as it is now, pending litigation) went to Denver, bought a new office, and engaged largely in mining. He has made a fortune in ten months, has the finest office in the city, and has in his new paper, The Great West, an evidence that he is not dead, nor sleeping. His new paper is red hot against bonds—is illustrated each week and full to the brim of wit, sense, nonsense, pathos, ugliness, etc., beside news. Chat with correspondents, pictures and descriptions of Colorado scenery, mines, miners, etc., besides one of his very interesting Saturday Night Reveries in each number, which chapters are alone worth the price of his live eight-page paper, which can be had at the low price of \$2 per year, or six persons can club together and get each a copy for a year for \$10. The Great West is a paper that men and women will read so long as "Brick" is its editor. Address, M. S. Pomeroy, Denver, Colorado, and learn more of The Great West than ever before told.

Mr. David Remy, accompanied by four other gentlemen of Utica, Seward county, arrived here Saturday last on the look-out for one John Keefe, of the same neighborhood, charged with having stolen a horse from the son of Mr. Remy, while attending a ball at the above mentioned place on Wednesday night of last week. Upon the arrival of the party here, the services of sheriff Spielman and deputy John Huber were engaged, who left the city about noon Saturday. The party started towards the Elkhorn and Niobrara counties, feeling confident that the thief had gone in that direction. A short distance north of town they met parties who had seen a man and horse answering to the description of the ones they were after, who had passed about two hours previously. The vigilant officers hastened on and came upon the culprit at Humphrey station, this county, where he was immediately arrested, returned to the city and lodged in jail. Officers left here Monday with the prisoner, who will be taken to Utica for examination.

The City of Worcester Again. It will be remembered by the readers of the JOURNAL that some account was given of a party of tourists and hunters, that made the city a visit about this time last fall, in a special car named the "City of Worcester," chartered and fitted up especially for the accommodation of the party, having all the comforts and conveniences that a lavish expenditure of money and ingenuity could devise and arrange in a large palace car, which is in reality a palace on wheels. The same car now stands upon the U. P. side track. An additional feature is added to the outfit this season, and consists of an extra car for the dogs and guns. The following persons comprise the party: Mr. and Mrs. Jerome Marble, Mr. and Mrs. C. H. Houghton, Mr. A. B. F. Kinney, Rev. J. A. Cass and H. H. Houghton, of Worcester, Mass.; W. Henry Hutchinson, of Lynn, Mass.; J. H. Lansing and John Babcock and wife of Boston, Mass. A cook and two porters cater to the appetite, and keep things tidy and home-like in the car. The expedition started from Worcester Sept. 7th. Stopped several weeks at Maple River, Iowa, for prairie chickens, crossed into this state and headed up the Elkhorn valley, along which they made several stops for game, and finally organized at Neligh a grand deer hunt, which the local papers say was a little ahead of anything those parts had ever witnessed in completeness of equipment, etc. The snow storm of Oct. 15th, struck them while out, and as pleasure was one of the main objects with the hunters, the affair was not looked upon in the light of a complete success. The car is chartered until the 19th of this month, and we are informed by one of the party, that if the game in this vicinity holds out, they will stay here until ready to return.
