—J. H. Clark arrived in Columbus one day last week with a car-load of calves from the east, for his farm on the Beaver.

—In a card of thanks for kindness during the illness of Mr. Meyer recently published in the JOURNAL, "J. B." should have been R. Stewart.

—Harry Newman left Monday for southern Pennsylvania and Baltimore, Md., to visit friends. He has been away from his home several years.

—Please watch closely the fine, large display of lamps and lamp goods at Brainerd's People's Drug Store, opposite the post office. Remember the price will be made the lowest. Fine holiday goods soon to arrive.

—George Duncan, who is teaching the Grange school, has 35 pupils. A literary society was organized there last Friday evening, and the first question for discussion is actually to be "Is the moon made of green cheese?"

—A meeting of citizens in favor of the formation of a public library association will be held at the school house of Dist. No. 6, of Platte county on Saturday, December 11th, at 2 p. m. All persons friendly to the above object are invited to attend.

FOR SALE.—A dwelling-house and lot in a very desirable part of the city. Will be sold at a sacrifice, as the money is needed. The house is new and cost more money than is asked for both house and lot. For further particulars inquire at the JOURNAL office.

—J. N. Taylor was at Albion last week on business. He brought back with him a sample of eight-row corn from S. D. Avery's that we believe would be an excellent thing for farmers to raise. It is not like the common King Philip corn, but has a much larger kernel.

—Fred. Coan, while cleaning a job-post at the Erie office Thursday last had the fingers of his right hand caught in the machinery, and considerably mashed. It was thought at first that amputation would be necessary, but it is hoped that some of them at least may be saved.

—Anti-prohibitionists believe that there will be an effort made to secure the passage of a prohibitory law by the legislature; some of the other party claim that they will endeavor to secure the submission of the question to a vote of the people in the form of an amendment to the constitution.

—At the anti-prohibitory meeting Monday evening, J. E. North presided, and a committee consisting of C. A. Speice, R. H. Henry, J. P. Becker, J. G. Higgins and G. V. Hines was appointed to prepare a remonstrance against the prohibitory movement, to be presented at a meeting next Saturday evening.

—The fire in our neighboring town, David City on the morning of the 3d inst., did considerable damage, consuming nearly \$7,000 worth of property. It is thought the fire originated from the stove in the back part of the furniture store building. Peebles, Pepper, Bell and Leonard were also losers by the fire.

—The literary correspondent who wants pay for a contribution should prepare manuscript reasonably good in orthography—at least free from such glaring inaccuracies as "comonly," "inital," "alow," &c. An editor's time is worth something, and no one ought to interfere with his prerogative of spelling at random.

—At Fremont the city authorities interested themselves in preventing the spread of that fearful disease, scarlet fever, and now after three weeks, it is said to be nearly stamped out. It is a very contagious disease, may be carried in the clothes, many physicians fear it more than they do small-pox. Parents should take every precaution to save their little ones.

—John McMahon recently did a piece of nice detective work. S. D. Field, alias J. O. Grant absconded from Alden, Ia., with about \$1200 of somebody else's money, and it was supposed, came to Nebraska. John had a postal card giving particulars, and was on the lookout; finally, he had a slight clue, and by a little inquiry and some personal inspection he found his man under a different name on a homestead west of Oakdale.

—He was playing honest granger. Of course John put him on the right road, and he will probably go where he belongs—outside the pale of civilized society, and within the walls of a penitentiary.

—Geo. Barnum says that the Colorado Central, from near Julesburg to near Evans, runs through a good country right along the Platte river. Wild game of all kinds is abundant, and in warm weather the dreams of the citizens are enlivened by the movements of the rattle snake in their beds. Geo. thinks our country here is much ahead of Colorado for the stock raiser. Just now there are a considerable number of sheep and cattle dying there because of the snow and extreme cold and lack of protection and feed. It is expected that the B. & M. will push their Republican Valley road westward next season.

A Dangerous Nuisance.—A gentleman who lives on Shell Creek tells us that there are numerous instances within his knowledge of men throwing the carcasses of animals into Shell Creek and this, too, of those that have died of disease such as black leg and hog cholera. If Shell creek was a stream used only for agricultural and manufacturing purposes, this practice would not be especially injurious, but, on nearly all farms along its margin, the cattle, horses, hogs and sheep are accustomed to get their daily supply of water, and it is very important that that supply should be kept as pure as well-mannered, intelligent and decent people can keep it.

From time immemorial the pollution of the waters has been regarded as one of the meanest and most reprehensible of crimes, and if there are any men in this county who have no respect for the rights of their neighbors, and the welfare of the community in this regard, they ought to be made to feel the full force of the penalty which the law attaches to their conduct.

A Good Thing.—John Harris has invented a machine for rope-making that promises to be a grand success. S. T. Hill is preparing a neat model to show the beauty of the invention. It takes the strands, twists and stretches them, and winds the rope on a spool ready for the market. The machine, for use, will cost about \$25, and its capacity is estimated by Mr. Harris at a ton a day, \$200 worth of rope, at wholesale rates. He estimates the entire cost of building and other machinery necessary to carry on the business would be \$3,000, and is desirous of forming a company here.

There is a wonderful amount of rope used in this country. There is also a large quantity of flax straw that is now going to waste, that could be utilized. The culture of flax is already profitable for the seed alone, and it an enterprise of this kind could be put on foot here, we would not only have better ropes than we now have, but the growth of flax would become a money making business. Mr. Harris is a practical rope maker of many years experience, is evidently an honest man, and we hope he may succeed in securing stockholders enough to make his project a success.

Columbus Bar Association.—The organization of this society was completed last Friday evening at a meeting of the lawyers at the office of W. S. Geer, Esq.

The object of this organization is to maintain among its members a high standard of professional integrity among the members of the bar generally; to encourage a thorough and liberal education, the acquisition of a law library, and the due administration of justice to all classes of society without distinction.

Certainly no higher or more exalted purpose could be desired. The law of professional deportment and etiquette was declared to be the rule of action of every member. We are satisfied that the Columbus Bar Association is second to none in central Nebraska, and that it may justly lay claim to legal talent and ability equal to any county bar association in the State. The charter members are as follows: Chas. A. Speice, M. Whitmoyer, W. S. Geer, Leander Gerard, A. M. Post, John G. Higgins, George G. Bowman, M. K. Turner, Byron Millett, Messrs. Cornelius & Sullivan, Stephen McAllister and H. G. Carew.

The first annual meeting will be held on the second Tuesday of next month at the law office of Messrs. Whitmoyer, Gerard & Post. Mr. Speice was elected temporary President and Geo. G. Bowman temporary Secretary and Treasurer.

Newman's Grove.—Ed. JOURNAL.—Owing to the coal famine we were almost frozen out last week, but Old Sol has come round again and thawed our ink, hence this epistle.

Ed. Carroll, a young man living about four miles north from here, accidentally shot himself through the left leg Saturday night while carelessly handling a revolver.

—Mrs. Jane North has been quite sick the past week.

—Don't forget to get your Christmas Goods at The Wonder.

—A full line of overhoses and rubber boots at Marshall Smith's.

—Boots from \$1.25 up, at the Boston Shoe Store, opposite post office.

—New goods at the Boston Shoe Store. Call and price them, opposite post office.
