—Mr. Lundy, a witness in the Klinck case the other day, had some hot words with W. A. McAllister, one of the attorneys for Klinck. Lundy had a notion that Mc. was "adding to the truth."

—The lilies of the field which toil not, neither do they spin, are like the street loafer so far as the toll is concerned, but unlike him as to the spinning; for the latter can "spin" an abundance of "spans."

—Mr. Shotwell tells us that last season his firm shipped about double the amount of butter of the preceding year, and from present prospects the amount for this year will be in the same ratio.

—Last Wednesday was a severely hot day, and in the evening we had a light shower with some hail stones. Judging from appearances another section of the state got a very much larger quantity of both.

—G. Schutte returned home Wednesday evening for a short visit. The depth of snow in Wis., the past winter was a "caution." It ranked undrilled Nebraska by about three feet, which is saying a good deal.

—On the 11th inst., the mercury reached 88 degrees in New York City. Four cases of sunstroke reported in that city. On the same day the mercury in this city was reported at 90 degrees, but the gentle Nebraska zephyrs kept away the sunstroke.

—The man of taste who wishes to combine beauty and utility in a vehicle should call on Elliott & Luers, and see their handsome phaetons, buggies and spring wagons. The Timpkin spring is a specialty with these buggies that should not be overlooked.

—We have not yet had time to read a pamphlet sent us by J. M. Osborn, Toledo, Ohio, upon the water-ways, and their effect upon the value of the property of the country, when properly utilized. A copy will be mailed free to any one sending his address to Mr. Osborn.

—The heat of the 12th in different localities was unusual. At Washington City 91° in the shade. At St. Louis 91° in the shade. In New York 86°, and several cases of sunstroke reported. At Chicago 86°, and several horses overcome by the heat. In this city 91° was reported.

—To remember the raw prairie west of the Cloth House, and to see now the many good houses, with the gardens, trees, &c., gives encouragement to Nebraskans. A goodly portion of the appearance of that portion of the city is due to the example and influence of Ex-Mayor J. P. Becker.

—"Time is money" is a saying that the farmer is now realizing the force of. Laborers will probably command extra prices this fall. Indeed, already mechanics are beginning to feel the upward tendency, which will not fully strike this section until after the bounteous harvest shall be gathered.

—Jack Lewis and Henry Wilson, two men arrested at Omaha, on suspicion, by our Chief of Police, J. C. McMahon, had a hearing before Police Judge G. B. Bowman on Monday, and a continuance was granted till Friday next at 4 P. M. Chas. Green of Omaha was att'y for Lewis and M. Whitmoyer represented the prosecution.

—With Vol. 2, No. 18, *The Item*, published at Central City by G. A. Percival and Dick Steele close their papers as editors in Merrick county. They remove to Omaha, and will, by the 5th of June, commence in a new role, by the issuing of *The Omaha Sunday Item*. Iowa has her *Harvey* by Burdette, and Nebraska will have a second edition in brother Dick Steele.

—A. W. Doland wishes to sell his property in Columbus, and will give a good bargain. Good house and lot 132x132, enclosed by good fence; a good barn, nearly new, all in good repair. A good horse and buggy, harness, robes, etc. Will sell them at a big sacrifice, and give time if desired. Apply to A. W. Doland or to Becher & Price.

—On Friday last M. O'Herne had a trial before B. Millett, Esq., on a charge of assault and battery, the prosecuting witness being Peter Kleinschl. The verdict of the jury was not guilty. The four jurors were A. M. Jennings, Thos. Friedrich, L. M. Saley and I. J. Slatery. O'Herne was represented by J. G. Higgins, and the prosecution by McAllister Bros.

—Among the clearest things in literature are the paragraphs of Sir Isaac Newton upon time and space, the latter being that in which all things are contained, the former, a measured portion of duration. One of the grandest triumphs of modern art is the manufacture of time pieces, so perfect that they scarcely admit of "variableness or shadow of turning," when properly cared for. Modern art has come nearer exact nature than former calculation did, and this accuracy is well represented at the establishment of Heitkemper & Bro., on 11th street, where you can obtain time pieces of all kinds, grades, styles and prices, from the lady's tiny, handsome watch, to the tall family clock, that will go again, long after the old man has died. They have also the finest stock of rings, chains, charms, and ladies' and gentlemen's jewelry of any description. It will repay you to call and see their handsome store and beautiful goods, even if you don't buy. One of the superb things in their store is a large, handsome regulator with mercury pendulum, the masterpiece of the clock-maker's art.

—The funeral of Mrs. C. M. Chambers at Table Rock, Neb., was attended by a large concourse of sympathizing friends. The services were held immediately upon the arrival of the body from this place, accompanied by Mr. Chambers, his four children, Mrs. Chambers' sister, Mr. John Huber and Mrs. N. E. Small, at the Presbyterian church. Mr. Chambers' children were left with their grand-mother, near Table Rock.

—Sheriff Spielman returned Monday from a week's trip west to Custer county, after a man by the name of Thos. J. Hutesson, who had run away with mortgaged property. Several other officials had failed to get the man, but Ben. accidentally got a clue and followed it up. He speaks in no complimentary terms of Custer county, and says that he was compelled to play marbles with boys at a school-house in order to learn of the whereabouts of his man.

—J. N. Heater tells us that James Scott has purchased of him the necessary machinery to run a flouring mill at Genoa, on the Beaver, which is expected to be running in time to grind the grain of the coming harvest. Thos. Scott, son of James, has rented the Bucher mill on Shell creek, this county. Mr. Heater says that in his travels he sees farmers' work in all stages of advancement. Last week he saw a field of wheat that was six inches high, and alongside of it another just being put in.

—Last week Judge Geer was thro' Madison into Pierce county. He says he spoke to quite a number of men in Madison and Norfolk concerning the new route connecting them directly with Columbus, and all expressed themselves as pleased with the prospect and though the road would be mutually beneficial to Columbus and all the towns along the line. They never could depend upon making connection with the main line at Jackson, and that was no good place to lay over. Mr. Geer says that Norfolk is improving rapidly. Since last May four large business brick buildings have been erected, which are a great credit to the town. They are really handsome buildings. There is a rush at present for residence acre lots on the hill west of the U. P. depot. When you talk to a Norfolk citizen about the low town-site being against the growth of the place he will tell you that Chicago stood in the same way.

A Card.

To the many kind and generous friends who assisted during the sickness and death of Mrs. Chambers, I take this method of thanking you all. Wishing you long, prosperous and happy lives, and a happier life in the great hereafter, I am, and ever shall be, truly your friend, C. M. CHAMBERS. Columbus, May 11, '81.

Where is He?

A week ago Monday, J. G. (Geo.) Engel left his family, who reside about five miles and a half northeast of this city on the brow of the bluffs. He is a man fifty years of age, has been married thirty years, and has a family of six children, four of them now at home with their mother, and all nearly distracted with grief and anxiety concerning the whereabouts of the husband and father. There is no reason whatever for supposing that Mr. Engel has committed suicide, or has been foully dealt with, he had no money with him, not even a change of clothing. The better opinion is that he is away somewhere at work. If these lines should meet his eye he may be assured that his friends at home are exceedingly anxious for his return.

The Columbus Ferry.

We went down to the Hammond Ferry Saturday and found the Captain, Mr. Ames and Frank Owen busy as snailers. Without any experience as water crafts-men, these men have succeeded in establishing a good ferry, and deserve the thanks of this community for the persistent and undaunted determination with which they have overcome difficulty after difficulty. The boat is not a large one, but sufficient to carry a team and wagon. The machinery by which the stream itself is made "to row the boat across the ferry" consists of two pulleys fixed a set distance apart, with gay ropes at each end of the boat; by shortening or lengthening these ropes, the current itself is made to push the boat across the stream. \$1 is charged for a round trip, and some days they have made as many as forty-four trips.

Walker Precinct Notes.

In spite of the late spring, the farmers are all in good spirits, the crops are growing nicely and there is every prospect of a bountiful harvest. In some places the last year's corn is not all husked, as the early and hard winter prevented the farmers from getting into their fields, and all are now anxious to get their seeding done. Miss Annie Martin has gone east to live; she is missed very much, especially by the circle of young folks. She has taught the school in district 18 for the past two terms, and was liked as a teacher very much, both by parents and pupils. We are favored now with church at Newman's Grove, every two weeks the United Brethren, and every two weeks, Methodist. Many of us have quite a distance to go, but nevertheless there is always a good attendance. We are sorry to say that some of our young men still enjoy chewing and spitting tobacco during services, which makes it rather unpleasant for those sitting near them. I am sure they would not like to be called gentlemen, but how can they be called gentlemen? There is a new-comer in our neighborhood at Mr. Tom Holden's. His wife lately presented him with a bouncing boy. Long life to the little fellow. No more at present. E. N. (Communicated.)

Municipal Reform Needed.

An evil of the worst kind exists on the outskirts of our city, which sadly needs the attention of the city fathers. Load after load of manure is daily dumped within the space of one hundred yards of the city limits, and, as if that was not enough, insult is added to injury in the shape of dead dogs and hogs being left on the prairie to decay and poison the atmosphere which we breathe. I would like to suggest a remedy, which could be easily enforced. Let all persons be subjected to a fine, if found depositing manure within half a mile of the city limits. As to the dead dogs and hogs, a spade and a little muscular exercise for the space of ten minutes would effectually remedy that evil and probably be the means of preventing sickness. JAMES SALMON.

Letter List.

The following is a list of unclaimed letters remaining in the post-office, in Columbus, for the week ending May 14, 1881: Daniel Burch, Mrs. S. E. Lane, Aaron Carpenter, Miss Mary Little, C. C. Hamilton, A. M. Like, George A. Jackson, John Little Luchen, Mrs. N. Krings, Registered—Nichols Hafner, Joseph Rosen. If not called for in 30 days will be sent to the dead letter office, Washington, D. C. When called for please say "advertised," as these letters are kept separate. E. A. GERRARD, P. M.

Attention, Farmers.

I will close out my stock of implements at cost price. Call and examine, and learn prices of Gorham seeders; also harrows, plows, cultivators, wagon springs, buggy tops, &c. My goods are equal in quality to any on the market, and it will pay you to buy while you can get them cheap. WM. BECKER.

Rising City.

MAY 13th, 1881. EDITOR JOURNAL: We sometimes wonder whether the growing crop of wheat will realize to the farmers sufficient money to square up for the immense amount of farm machinery that has been bought this spring. The amount sold by agents thus far has been large and still the planters and cultivators are going and soon it will be the different kinds of harvesting machinery, and three-fourths of all these costly articles will be exposed to wind and weather when not in use, and the articles that now look so nice will have to be replaced, almost before they are paid for; but so it goes, far too largely in this part of Nebraska. Our city appears to have a "boom" (excuse the word), of some kind. Side-walks and crossings have been built; two law firms advertise their ability to settle all the difficulties, right or wrong, that sometimes afflict crabbed and ill-natured humanity. Three loan offices say they can accommodate the needy, and two real estate firms tell the land seeker they have plenty of Nebraska land, the very best, cheap too, and in quantities to suit the purchaser. We have a little mad here, and we would be more thankful if we could have a great deal more of it, and a good deal of other; then we might talk about clover, red-top, blue-grass and timothy, and shorten a good deal the winter's feeding. We were pleased to see your commendation, in a recent issue, of the neatness with which J. C. Paxton words his advertisements, and would say that J. C. P. is fully as neat and good a merchant as the judicious buyer would look for, after reading his neatly worded advertisement. We would also say to your many readers that our large orchard suffered no harm during the past severe winter; but after a careful examination we find every tree in fine order, and many of them show a good supply of prospective bloom; we have spent a good deal of labor in the orchard, and we confidently expect full pay in a reasonable time, as Dame Nature always rewards intelligent effort, especially in Pomona's realm. But, Mr. Turner, our mouth begins to water for the beauties that we now begin to watch and wait for. Why Not?

Wanted Immediately.

A No. 1 brick-moulder. No other need apply. For particulars, call on or address, J. F. FLANN, Norfolk, Madison Co., Neb.
