THE JOURNAL.

WEDNESDAY, SEPT. 14, 1881.

Entered at the Post-office, Columbus, Neb., as second class matter.

RAIN generally on Saturday throughout Illinois and Iowa.

THERE is a hog at the Iowa state fair at Des Moines that weighs 1550 lbs.

OVER $5,000 has been already contributed in Chicago to the Michigan sufferers by fire.

IT is stated that on the 12th of August last not a drop of rain fell anywhere in the United States.

THE Chinese quarters at Oroville, California, were burned on the 9th, loss probably $75,000, partly insured.

GRADING has begun on the Missouri Pacific at its junction with the U. P., four miles west of Papillion.

ON the 9th Columbus, Ohio, was enveloped in smoke supposed to be caused by the Michigan fires. What a terror they must be, near at hand!

THE U. P. elevator at Omaha will be the largest in the west and have a capacity of a million and a half bushels. Eight thousand bushels per hour can be cleaned.

THE new horse disease is raging at Marshalltown, Ia. It infects the brain, the eyes swell shut and discharge. The spine and kidneys seem affected and the legs swell badly.

THE contract for building a new court house for Douglas county has been let by the Commissioners to Dellone & Mullany at $187,000. The plan provides for fire-proof floors and iron stairways.

THE B. & M. are pushing their road from Indianola to Denver, one hundred miles of grading having been contracted for to be completed by the 31st of December. It is 300 miles from Indianola to Denver.

THE *Express* tallies one for Dr. Mary Bridges and woman's rights. The board of county commissioners accepts her bid to perform the duties of county physician, and she has the contract for one year.—*Beatrice Express.*

MRS. CLARA B. COLBY, of Beatrice; Mrs. Ada M. Bittenbender, of Osceola; and Miss Lydia Bell, of Lincoln, have been elected State lecturers of the Nebraska Woman's Suffrage Association.—*Western Woman's Journal.*

THE *Inter-Ocean* says that the thousands of acres of burning forests in Michigan and Canada will perhaps account for the hazy air of Boston. Passengers westward thro' Canada say that they ran for hours through dense clouds of smoke.

IT appears that the United States have at last a genuine volcano on their hands in the shape of a mountain twenty miles east of Mt. Idaho, I. T.; it has sent forth a column of fire and smoke several feet high. At its birth the earth trembled for a radius of seventy-five miles.

LOSSES of property and life in the burnt districts in Michigan have been fearful. It is known that not less than five hundred souls have perished in the flames. Our space is too limited this week to give anything like a full account of the devastation. The sufferers need substantial aid.

EDWARD CHAMBERS committed suicide last Saturday three miles from Bennet station, by throwing himself in front of the engine on the Nebraska railroad. He was a jeweler, had recently been at work at Lincoln and went on a spree, resulting in his death. The section hands said he appeared like a crazy man.

A SCOTCH clergyman, in the region of William III., in a prayer in the town church of Edinburgh, used these words: "Lord have mercy upon all fools and idiots, and particularly upon the town council of Edinburgh." We move that next Sunday be appointed as a day of fasting and prayer, and that the word "Omaha" be inserted in the petition. —*Republican.*

THE amenities of Chicago daily papers will soon pass into proverb. The *Joemedillian* and *Billstorean* force whack each other over the headwith their journalistic shillalies, and turn the air blue with their expressive epithets. Meanwhile the *Inter Ocean*, towering above both the comdatants, gives soothing advice only to be hooted at by both.—*Lincoln (Neb.) Globe.*

GENERAL MANAGER CLARK, of the U. P. road was in town Tuesday. He says the company proposes to run the new road from Ft. Hartsuff to the Middle Loup, and then to the Black Hills next summer....George T. Kendall is intending to erect a water tank near his residence that will contain 1,000 barrels. It is his intention to have a water supply to irrigate his fruit and vegetable garden when necessary. The tank will be filled by a pump operated by a wind mill.—*St. Paul Phonograph.*

WE do not imagine that either our farmers, or our wholesale merchants, who have read the Doane law as finally passed will be imposed upon by the silly bosh which is being retailed by such railroad organs as the Omaha *Herald*, *Republican* and Lincoln *Journal* and *Globe*. In their endeavors to make the law odious the corporations are likely to make themselves still more odious than the law and to force such sweeping legislation as will forever take from their hands the power of interpreting to the disadvantage of our people a law whose provsons are manifestly fair reasonable and equitable.—*O. Bee.*

The President.

On Tuesday of last week the president was removed from the White House at Washington to the Frankley cottage at Long Branch.

At 5:40 he was carried from the sick room to the express wagon, reclining on the bed on which he has been languishing for so many days. He appeared greatly emaciated, his face careworn and thin. When his party reached the depot there were 2,000 persons had assembled to catch a glimpse of the sufferer.

There was no mishap along the entire route of travel, the road being kept open, and the destination being reached at 1:20 p. m. The president pronounced it the most interesting day since he was shot.

At 6:30 the evening bulletin was issued, showing the president's pulse 124, temperature 101.6, respiration 18.

Drs. Reyburn, Surgeon-General Barnes, Dr. Woodward and Mrs. Edson have been dismissed from the case, at the request of the president.

The first day after arrival was intensely hot at the cottage, but the weather since has been much more favorable, and the patient has been reported as better in every important respect..

On the 8th the pulse had fallen from 105 to 94, temperature 98.4, respiration 17. His appetite was much better, and he had relished his food, considerable of it being solid; besides which his mind had dwelt more on outside subjects than for some time past. When given some chicken he remarked to his wife that he felt as if he could eat it all. He was in good spirits.

On the 9th Secretary Blaine's telegram to Minister Lowell was as follows:

"The medical reports were all favorable to-day, at morning, noon and night. The President has not for many weeks done so well for so many consecutive hours. He has had very little fever; his respiration has been normal and his pulse has not exceeded 100. He has slept without opiates and gained strength without stimulant. His nights are not so resttul as could be desired, but in twenty-four hours he gets sufficient sleep. The weather continues sultry and oppressive. Much is hoped from the clear, bracing air here at this season."

Last Saturday's dispatches indicate a favorable night for the president. His appetite was excellent and no trouble of any sort with his stomach or bowels. The coast hurricane had reached Norfolk, and its forerunner seemed to have reached Long Branch. The wind was fresh from the southeast, and it had been raining steadily since daylight. The official bulletin issued at 9 a. m., by Drs. Agnew and Bliss, reads:

"At the examination of the president at 8:30 this morning the temperature was 99, pulse 104, respiration 18. He slept well during the night, awakening only at intervals of half an hour each. There is a perceptible increase of strength with an improved condition of the digestive apparatus. The tumefaction of the parotid has entirely disappeared, and the suppuration has greatly diminished. The wound continues to improve, and presents a more healthy appearance."

Sep. 12th—The president's condition is not so satisfactory. It is feared that pus cavities are forming or will form in the lungs and liver.

Re-union Notes.

Company D, Kummer Guards returned home Saturday, and gave a specimen of their drill before going to their armory. In their new uniforms they made a handsome appearance.

The rain Tuesday night, Wednesday and Wednesday night interfered somewhat with the full enjoyment of the occasion. The other days were splendid, and we heard no one express regret at attendance.

About 5,000 veterans were present.

The pavilion in the center of the camp held 4,000 and nightly camp fires were led by Paul Vandervoort of Omaha.

Speeches were delivered by Marquett, Manderson, Carnahan, Ekin, Clarkson, Mrs. Colby, Mrs. Bittenbender and others.

At the sham battle on Friday it is estimated that there were 15,000 present.

At one time a pick-pocket who was caught in camp came very nearly losing his life by a squeeze in the crowd.

It is thought that hereafter there will be a disposition manifested to hold these annual re-unions in or near smaller cities than Lincoln, so that metropolitan attractions will not detract from the interest proper of the camp, and thus demoralize the army boys who attend for the sake of auld lang syne.

FORTY CATTLE KILLED,

And Several Persons Injured in a Collision.

The passenger train on the Rock Island railroad which arrived in Council Bluffs Wednesday was about seven hours late. The cause of the delay was an accident which occurred early yesterday morning near Altoona, Iowa. The train was bowling along at a lively rate, when suddenly it met an obstruction in the form of a caboose and several cars filled with cattle. The cars and caboose had become detached from the remainder of a freight train and had commenced running backwards down quite a heavy grade in the track. The passenger train was moving westward and the freight cars eastward. The force of the collision was terrific, the caboose being run right up onto the engine. There were three men and a boy in the caboose at the time, and they were thrown violently some distance out of the car, it being smashed all into small pieces. One of the men was badly injured about the head and the boy's leg broken. The others escaped with a severe shaking up. No passengers were injured, altho' the train left the track and was pretty badly demoralized. The caboose and two cattle cars were completely wrecked. Forty cattle in cars were killed outright. The little boy had a most miraculous escape from death. He was thrown from the caboose down under the engine, but happened to light in such a position that he only suffered the breaking of his leg. A special train was made up at Des Moines, and the passengers transferred to it. A temporary track was laid around the wreck and the train proceeded on its way.—*O. Bee, Sept. 9th.*

Good Principles.

At the golden anniversary of the wedding of Mr. and Mrs. William Wheeler of Glenwood, Ia., there were two features we especially desired to notice. One was the short address of Mr. Wheeler, counseling his kins folk: "In all times and under all circumstances be honest and true, for there is no principle in life that if followed will give more satisfaction and promote the enjoyment of more happiness than the practice of honesty, truth and virtue among men, and nothing contributes so much to the misery and unhappiness of the world as the lack of virtue, truth and honesty. Be true to yourselves and to your fellowmen, and you will be richer in this possession than with all the world beside."

The other is a paragraph by the editor of the Glenwood *Journal* in which he says that "the rule is with men who are successful in life, that the habit of getting gain so fastens itself into their organizations that they prefer to let their children make their way in the world as best they can, and after the death of the parents, to quarrel over a division of the estate. Mr. and Mrs. Wheeler preferred to make the division of their property chiefly while their children were at the proper age to appreciate it and benefit them the most—serving the boys and girls alike as to patrimony, and offering friendly advice as to its use."

Train Robbery.

On the night of Sept. 7th, the express on the Chicago & Alton road was stopped at Glendale, a few miles from Independence, Mo., and the express messenger and passengers were robbed by masked men of money and valuables to the amount of perhaps $15,000. The dailies are filled with the usual details in such cases, how there were shots fired, revolvers pointed at frightened women and no less scared men, their money and valuables demanded of them, how they were as obedient as lambs at the slaughter. This gang seems not to have been quite so gentlemanly as they usually are; we notice that there was more than the usual amount of profanity, bluster, noise and rudeness. The ladies were compelled to sit down on the floor, and some had ear-rings taken from their ears, and many lost their jewelry. As usual in such cases no one among the robbers was hurt, but all made their escape. A dispatch from Kansas City on the 9th says that Charles Fisk, a notorious character, was arrested and brought to Independence that day; that Sam. Chapman had "squealed" and implicated the whole gang including John and Bill Asbury and a man named Scott. A young girl was in the gang dressed in men's clothes.

Fearful Wreck.

On the Short Line Railroad, seventeen miles out of Louisville, Ky., on the 8th, as the train, consisting of an engine, baggage car and two passenger cars, approached Floyd's Fork bridge, the engine struck a cow, cut off her fore legs and was thus derailed, the whole train falling about thirty feet down from the track to the bed of the creek. All the train is a total wreck. Among the killed were a stranger from California; Mr. Perry, a bookkeeper at Applegates, on Second street, Louisville; Col. Fielding Neel, of Shelbyville; Capt. William Maddox, marshal of Shelbyville; Walter Scarce, of Shelbyville; Thomas Buchanan, of Louisville. There are supposed to be two or three others under the wreck. Among the seriously injured are Alex. Alford, a lawyer at 1113 Fifth street, Louisville, and the fireman on the engine, Gibson, Others are more or less hurt. But few escaped without injury. Conductor Petry, engineer Honnaker and baggage-master Humberton are hurt, but not seriously.

SUNDAY last Dr. Thomas announced to his congregation at Chicago that he had been found guilty of heresy and had been suspended from the ministry; he should abstain from preaching until after the meeting of the Conference Oct. 3d, when he would resume. It is said that charges of heresy will be preferred against Dr. Warren, Dr. Vincent, Dr. Tippery, Dr. Wheadon, Dr. Reymond, and Dr. Fowler. It is also stated that Bishop Hurst could be found heretical on eternal punishment and the atonement; Bishops Foss and Merrill on the atonement, and Bishop Foster on the resurrection of the body.

Judge Maxwell.

Of course all, well-posted Democrats are morally certain that Republican State officials will be elected this fall; which being the case they feel a commendable interest in the Republican nominations to be made. All are deeply interested in the make-up of our supreme court as well as in those who shall share in the management of the state university. We have no doubt that the *Herald* of Fremont, a Democratic paper, speaks the sentiment of the great body of the Democracy when it says:

"We hope Judge Maxwell will be placed in nomination by the Republicans for supreme judge this fall, for if we must have a Republican, we can find no better man in the state for the position."

Water Works.

The editor of the Fremont *Herald*, who was lately at Grand Island, gives this description of the water works there, which seem to give general satisfaction:

"They are run by the U. P. Co. and the water is furnished by two large steam pumps and through 500 feet of hose and 1¼ nozzle, will throw a stream of water 125 feet in the air, in a curved line. After the engines had been pumping for ten consecutive hours the supply of water had not perceptibly diminished. For the ordinary supply of the city the water is pumped into the large R. R. water tank and from this flows into the mains, by which means pressure enough is found for ordinary purposes. In case of fire the engines pump directly into the mains, making a powerful pressure. Hydrants are located at convenient places all over town."

California Correspondence.

CERES, Aug. 29, 1881.

EDITOR JOURNAL: The harvest is over, and most of wheat threshed and hauled. The crop is say about half as large in this county as last year; further south they have done better than usual. In Tulare county crop good, wheat in quality good; there seems to be a scarcity of cars to move it; price is about $1 a bushel at present, at Stockton freight from here $1.45 a ton.

Building is going on quite steady in most towns along the line of road, and money seems to be plenty at 10 per cent. for all fair, safe transactions.

The season has been a cool one, as far as weather is concerned. Fruit is high for this country, except oranges which have been low.

They are taking out snags and building wing dams on the San Joaquin river below Hills Ferry, to give boats a chance to run all the year to that point.

I am informed by a land owner on the island opposite here Rio Vista on the Sacramento that the flood did but little damage to the orchards last spring, and immense crops of garden truck are raised. Three steamboats are employed to carry off fruit, truck, chickens, etc.

Below Sacramento city a goodly number of our ranchers have been over to Monterey on the coast lately to bathe and cool off. They report too much "cool of" for them and are rushing back in squads.

There is talk of a railroad from Antioch up the river on west side thro' the celebrated Musch Slough country to Grangeville.

C. LEE.

Telegraphic Summary.

DUBUQUE, Ia., Sept. 7.—Word has been received here that Mrs. Allison wife of Senator W. B. Allison had attempted to drown herself on Saturday last, in Silver Lake, New York, during temporary aberration of the mind produced by illness. She has been suffering from nervous prostration for a year past and spent most of the winter and spring in Philadelphia under medical treatment. During the summer she has been at the water-cure in Castile, N. Y., but had improved so much in health that Senator Allison had returned to Dubuque, and her foster mother, Mrs. Grimes, had also left. On Saturday last she was suddenly taken worse, and while suffering from her illness walked four miles to Silver Lake, and deliberately entered the water with a determination to end her life. She was fortunately rescued and returned to her hotel.

REVOLTING IN EGYPT.

PARIS, Sept. 9.—A dispatch from Cairo says that a revolution is imminent in Egypt. Four thousand soldiers, with thirty pieces of artillery, surrounded the palace of the khedive, when the leaders demanded the dismissal of the ministry. The khedive acceded to their demands, and the ministry have been dismissed. Owing to the news from Egypt there is great excitement on the Bourse this evening.

BEHEADED THEIR FATHER.

DANVILLE, Va., Sept. 9.—Two daughters of Robert Williams, a well educated and well connected man, near Whitmill, cut off his head with an axe and then fled. Williams was addicted to drink and had probably threatened them.

FIVE MURDERERS HANGED.

LITTLE ROCK, Sept. 9.—Five murderers were hanged at Fort Smith to-day, Brown, McGowan and Padgett and two Creek Indians, Abel and Amos Manley. Only forty or fifty spectators were admitted. Padgett admitted the crime, but justified it on the plea of defence. McGowen made a similar statement, and said he was ready to die, but hated to leave his wife and children. Brown said his only regret was he accidentally killed the wrong man. He didn't have a fair trial. The Manly boys, through an interpreter, admitted the crime and said they were ready to die. The trap was sprung and all died inside of fifteen minutes.

SORROWFUL SIGHTS.

DETROIT, Sept. 9.—Fires seem to be abating. A Port Austin dispatch says the loss of lives on the top of the burned peninsula by Monday and Tuesday's fires is estimated at from two to three hundred. The following villages were burned: Bad Axe, Verona, Forest Bay, Richmondville, Charleston, Anderson, Dickersonville, Harrisonville and Sandusky. The following were partly burned: Port Hope, Minden and Uubley. The country suffered vastly more than the villages. Saginaw, Tuscola and Lapeer counties, one tier back from the lake are greatly damaged, but not nearly as much as the shore counties; but in each of these favored counties hundreds of thousands of dollars worth of property have been destroyed. It is hoped the rain has now stopped the fires. Everything is now necessary to help the destitute—lumber, clothing, provisions and seed grain. E. C. Carlton, mayor, or Senator O. D. Conger, of Port Huron, will receive supplies.

RELIEF FOR THE SUFFERERS.

CINCINNATI, Sept. 9.—Relief measures for Michigan has begun.

DANGER FROM FIRES ABOUT OVER.

DETROIT, Sept. 9.—The danger from fires is about over. The lowest estimate gives two hundred and fifteen families burned out. Small towns and poor people are the chief sufferers, and they are utterly dazed and unmanned. Sixty-five burials are already reported in six towns and twenty-seven dead are said to be unfound in the country between Bad Axe and Port Hope. Relief is going forward rapidly, and reports came from all principal cities of aid coming.

ADMINISTRATOR'S SALE.

In the matter of the estate of Edward C. Kavanaugh, deceased.

NOTICE is hereby given, that under and by virtue of an order of license to me granted by the District Court of Platte county, Nebraska, bearing date on the 16th day of July, A. D., 1881, to sell the real estate of said deceased, I, Daniel C. Kavanaugh, administrator of the estate of said deceased, as such administrator, on the 17th day of September, A. D., 1881, at the hour of two o'clock in the afternoon of said day, at the southeast corner of lot five (5) in block eighty-four (84) in the city of Columbus, in said county, will offer for sale and sell at public vendue to the highest bidder the real estate of said deceased, or so much thereof as will be sufficient to pay the debts outstanding against the estate of said deceased, described as follows, to-wit: Lots one (1) two (2) three (3) and four (4) in block one hundred and twenty-five (125) in the city of Columbus, aforesaid; the east twenty-two (22) feet in width north and south, of lot five (5) in block eighty-four (84) in said city of Columbus; the east half of the west two-thirds of lot six [6] in block eighty-four [84] in said city of Columbus; the west two-thirds of lot seven [7] in said block eighty-four [84] in said city of Columbus; the northeast quarter of the northwest quarter of Section seven [7] in Township eighteen [18] north of Range one [1] east in said Platte county; and the southwest quarter of Section six [6] in said Township and Range.

Terms of sale, at least half cash; balance in three, equal, annual payments with interest at eight per cent., secured by bond and mortgage on the premises sold.

Dated this 24th day of August, 1881.

DANIEL C. KAVANAUGH,
Administrator as aforesaid.
A. W. CRITES, Attorney. 589-4.

PROBATE NOTICE.

THE STATE OF NEBRASKA, } ss.
County of Platte, }

In the County Court, in and for said county. In the matter of the estate of John Karlin, deceased, late of said county.

AT A SESSION OF THE COUNTY Court for said county, holden at the County Judge's office in Columbus, in said county on the 10th day of September, A. D., 1881, present John G. Higgins, County Judge. On reading and filing the duly verified petition of Fredericka Karlin praying that letters of administration be granted to Andreas Matthis on the estate of said decedent.

Thereupon, it is ordered that the 8th day of October, A. D., 1881, at 2 o'clock, p. m., be assigned for the hearing of said petition at the County Judge's office in said county.

And it is further ordered, that due legal notice be given of the pendency and hearing of said petition by publication in THE COLUMBUS JOURNAL for three consecutive weeks. (A true copy of the order.)

Dated, Columbus, Neb., Sept. 10, 1881.

JOHN G. HIGGINS,
20-w-4 County Judge.

FINAL PROOF.

Land Office at Grand Island, Neb., Sept. 12th, 1881.

NOTICE is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Clerk of the District Court of Platte County, Nebraska, at county seat, on October 20th, 1881, viz:

Oliver Femer, Homestead No. 7032, for the N. E. ¼, Section 32, Township 19 north, Range 1 west. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Josef Rothlantnen, Fred Hollbusch, Benjamin Spielman, Franklin W. Rothlantnen, all of Columbus, Platte Co., Neb.
