—If you want to be well dressed, and want to see your boys well dressed, buy your clothing at L. Kramer's New York Cheap Cash Store. 28

—It is a conceded fact that Kramer carries the largest and neatest stock of men's and boys' clothing, and his prices are always the lowest.

—It is expected that the case, testing the bridge levy for Platte county, will be presented to the supreme court of the State at Lincoln, to-day or to-morrow.

—The M. E. minister's wife of this city, Mrs. Wilson, will entertain the Mite Society at her residence this (Wednesday) evening. All are cordially invited.

—It is understood here that Gov. Nance has offered a reward for the apprehension of the murderer of Col. Watson B. Smith, at Omaha, on the night of the 5th.

—If you need any paints, window glass, or wall paper come and see us; we can save you money, and give you good stock to select from. Dowty, Weaver & Co. 27w2

—A. B. Dewey of Chicago arrived in the city Friday, starting for Dakota Saturday morning. He had been on a business trip in Kansas and southern Nebraska.

—The funeral of W. B. Smith took place at Omaha Monday, from the Baptist church. A number of addresses were made, eulogistic of the character of the deceased.

—It was rumored here that Thos. Wilson of Fremont, who was in attendance on the fair here this fall, had endeavored on Friday last to commit suicide by poisoning.

—It is to be hoped that those who have any clue that may lead to the detection of the murder of W. B. Smith of Omaha, will not rest until they have followed it to the end.

—At this writing, there is one thing about the election in this county that seems pretty certain, and that is the defeat of the proposed \$15,000 jail bonds. We hope there will not be a vote for it.

—Now that a creamery is to be started here, it will be profitable for farmers to turn their attention toward raising good breeds of milch cows, and providing better shelter, care and feed. There is money in it.

—Philip Bauch of the Madison Chronicle was in the city Friday. He seems in no way discouraged over the effects of the cyclone that recently struck his office, but is building up rapidly upon the ruins.

—Friday afternoon next the west-Columbus schools will engage in reading passages out of the works of Bryant and Holland. If pleasant weather, the exercises will be repeated at night, to a public audience.

—We learn that Charles Moore is confined to his room by sickness. Perhaps he has been overworking himself this summer; his crops of corn and wheat and oats have been among the very best of his neighborhood.

—John Schumacher has put up a neat, close, board fence around his lots; in one corner a comfortable house, besides sheds for stock, all of which will make a first-class place for the sale of stock. His weekly markets is a business that should be encouraged.

—Loran Clark and lady narrowly escaped death by suffocation this week. Upon retiring they shut off the draft to their coal stove, and had it not been that the door of the room happened to be open they undoubtedly would have been suffocated. *Albion Argus.*

—One of our subscribers told us the other day that the item recently published in the JOURNAL in regard to a cheap horse power, made by a little alteration in old mowing machine, would save an expenditure of about sixty dollars to those who wanted a horse power.

—Wednesday last Mr. and Mrs. A. N. Burgess took the train for San Francisco, their destination being National City, near San Diego. From the *Gazette*, with which A. N. has been connected, we learn that he has a business engagement with his aunt, Mrs. A. M. L. Potts, M. D.

—The most life-like portrait in oil we have ever seen is one of Frank Becker, deceased, painted by Chas. Dietrich since he went to Omaha the last time. It is smooth, rich and perfect. Charles's instructor says that a steam-engine couldn't have traveled faster than he has done.

—When the C. B. and Q. shall have pushed their line to Denver, Columbus will then have two lines to that growing business center of the mountain, mining region, which will, of course, be a good thing for Columbus, especially when she becomes a large manufacturing city.

—D. L. Bruen, who was in town Monday, says that one night last week some one stole a load of corn out of a field belonging to John Lagumann of Stearns precinct. It is believed that it was brought to Columbus and sold last Wednesday morning. Thieving of this sort cannot be too strong condemned, and scarcely too severely punished.

—We have received a circular concerning Cincinnati's second opera musical festival in the great Music hall, Feb. 13th-18th. There is a splendid list of solo singers and the chorus comprises two hundred trained singers. Wm. Worthington is secretary and treasurer, and may be addressed for further particulars.

—A citizen of Madison claims that up to last week no less than fifteen thousand bushels of potatoes of this year's crop had been shipped from Madison county to market. The same party expresses the opinion that the county will yield the present season not less than forty or fifty thousand bushels of this important crop.

—The JOURNAL, being printed Tuesday evening, can give no election news in this issue. Next week we hope to give the canvassed vote of Platte county, in tabular form, in neat shape to preserve for reference. As we write, the election is passing off here very quietly, all candidates and their friends earnestly at work.

—The new Denver express passes Columbus, bound west, at 11:23 p. m.; bound east, at 3:49 a. m. It will carry the mail as well as the regular express. Our citizens can thus start for Omaha before daylight, and return here about the time the theatre-goers are dismissed in the evening, giving a good portion of the day for actual business at the state's metropolis.

—There will be many a disappointed candidate to-day. We are sorry that we cannot, as a matter of news, interesting to the public, tell who they are; the successful have our congratulations, hoping that they will serve the public with rarest fidelity; the defeated have our sympathy; if they have conducted their campaign with no act of theirs to be ashamed of.

—Politics all around us has been lively. In Madison and Nance counties they had any number of different kinds of tickets; Boone county was a jumble; Polk was mixed, and so was Butler; Platte was straight, but some of the contestants were at fever heat for several days before the election. It is hoped that now every man will turn his attention to business, and help to develop the county.

—Tom Wilson has been "locomoting" the past week by the aid of crutches. This was rendered necessary by his coming in too close proximity with the heels of a kicking horse which resulted in fracturing one of the bones of the leg below the knee.

—The above is from the Fremont Tribune of the 3d, and is, perhaps, the kind of "sneaking" that has been rumored of Mr. Wilson.

—W. J. Walker, the gentlemanly agent of Dr. B. J. Kendall & Co., of Enoesburgh Falls, Vt., was in the city last week, and we entered into contract with him for fourteen hundred copies of Kendall's treatise on horse and his diseases, a little book containing a great deal of valuable information. Mr. Walker is one of that class of agents who lose no time in transacting business, and evidently makes friends wherever he goes.

—An accident happened on Friday last to E. V. Clark of Genoa and a gentleman from Iowa, at the Beaver bridge, near Genoa. They were sitting on the rear seat of a light wagon, the seat tipping over, on a job of the wagon, throwing the two men to the ground. Mr. Clark had his breast bone slightly fractured, and the other gentleman, his back somewhat injured. This is about the twelfth accident of the sort we have known of in Nebraska.

—The David City Republican desires it not to be forgotten that that thriving burg is to have a flax mill another year. That is good. As it is now, when only the seed is available for market, flax is an excellent and paying crop in Nebraska, even with the well-known monopoly in the trade. Burst the monopoly, establish oil mills, and then paper mills and rope factories to utilize the straw, and the crop will be immensely profitable to Nebraska farmers.

—Our farmers who may be thinking of supplying milk to the Columbus Creamery will be interested to know the prices realized at Fremont, which are \$1 per cwt., from Nov. 1st to May 1st, delivered—nearly 2½ cents per quart; 90 cents per 100 if the milk is called for, providing the milk of 150 cows is obtained. 18 cents a degree is to be the price for cream, one degree producing one pound of butter. These, as we find them in an exchange, are the prices promised.

—T. H. Saunders and family returned Friday to their home in Colfax county, from their summer visit to the east. Mr. Saunders was in the city Monday, and he looks in better health than we have seen him for years. He has gained this summer nearly thirty pounds in weight, and says he has had a splendid time. On business, at Washington City, he fell in love with the capital of his country, and says it is a grand place to live. As Mr. S. don't believe in losing a vote, he returned in time for election.

—It would be a matter of some interest to the tax-payers of Platte county to know why the sum of \$30 is paid as house rent for jailor, when such house has not been occupied by jailor for months, and is in no wise fit for use by jailor or any other person. Thus runs an inquiry handed us for publication. We have inquired somewhat into the matter, and are told that the contract was entered into by the year, and has been abrogated; that for some time the house has been used by the county's poor, as a place of shelter.

TALLY TWO.
A Creamery for Columbus.

From the word "Go" in 1856, Columbus has been a place for solid business, increasing in volume as the years have rolled onward, and as the tide of settlement has flowed over and beyond us, peopling the rich valleys and the fertile plains of the counties south, west and north of us.

We may now say, and gladly we have chronicled the fact, that our city has begun its second onward march, in that it is including in its business enterprises, such as will draw largely of the raw material from abroad, and dispose of the manufactured article in the same way, thus extending the area of our transactions, and building up a thrifty home market for farmers' products and traders' wares and goods. This is what manufactures and kindred interests mean for every town that engages successfully in them.

The pork-packing establishment is assured, and is well under way, and will probably be ready for operation sometime during this month. And now comes the creamery, formed with a stock capital of \$12,000.

Articles of incorporation have been signed and filed with the county clerk by the following named: M. Whitmoyer, E. A. Gerrard, D. Anderson, W. T. Randall, J. Z. Shotwell, J. P. Becker, J. W. Early, L. Gerrard, Carl Kramer, H. P. Smith, Columbus Lumber and Grain Company.

A committee, consisting of E. A. Gerrard, D. Anderson and W. T. Randall, are now looking up a location suitable for their business; as soon as this shall be agreed upon, building will be commenced, and the work go forward, as the Company expect to be ready for the transaction of business by the first of January.

And thus we record the facts of another good undertaking, good for those who invest their money in it, and also for the community in which it is located.

We hope, during every succeeding year, to chronicle two or three new enterprises, until Columbus shall become noted as a manufacturing city, where raw material which, in variety and quantity, can be so successfully produced here, will be worked up for the growing market of Nebraska, not only, but the country west of us that is developing at such lightning speed.

The attendance is too low, but is accounted for in part by the fact that Fair week occurred during the month, and parents allowed their children to attend the Fair. Part is also attributed to sickness. We hope, with the co-operation of parents to make a better report for the ensuing month.

Platte Center.
Nothing of any great consequence has occurred in this vicinity or town during the past week.

Sociables have been held at the residences of F. Stracke and J. Condonine both of which were well attended and enjoyed.

On Sunday afternoon Nov. 15th, the Rev. A. S. Wright will preach at Henry's hall, services to commence at 2 p. m.

On Monday afternoon it is proposed to hold a meeting for the purpose of forming a company, to be composed of farmers and business men and known as the Platte Center Elevator Company Limited, shares to be \$100 each, \$50 on allotment, the balance subject to call at one week's notice. Farmers, please attend!

Grain, corn and hogs are continually passing by the town en route, Columbus, Humphrey and Lost Creek. CAUSTIC.
Nov. 7th, 1881.

Schnyder.
[From the Sun]
Messrs. Wells & Nieman shipped no less than forty cars of grain and flour for the month of October.

Pretty good for a beginning.

The market quotations, Nov. 3, wheat \$1.10; oats 40c; corn old 50c, new 40c; rye, 75c; flax \$1; butter, 18c to 20c; eggs, 20c; potatoes 80c.

A most magnificent view of the wide-stretching Platte valley and the surrounding country is obtained from the fourth story of Wells & Nieman's new mill.

R. W. Dvorsak fell backwards out of the rear of his wagon on Friday of last week, seriously injuring him. It was a miraculous escape from breaking his neck.
