Everybody seems to think that the future prosperity of Columbus is now well assured. There seems to be no doubt of that fact. The little city is certainly working the right lead, at present, thanks to her enterprising and wealthy citizens, and if she only keeps on, all will be well with her.

Judge James H. Miner from Richland Center, Wis., was in the city last week. He invested in land in Nance county, and is much pleased with Nebraska. When he left he thought he might come to Columbus to live. The Judge is an old friend of Hon. Amasa Cobb of our Supreme Court.

Our correspondent from Platte Center, "Caustic," will excuse us for mislaying a letter some days since, containing, among other items, that the enterprising gentleman who has charge of Goodman's store has put up a mammoth corn crib; that a wolf hunt recently on Sunday, one wolf was captured.

John Tiedgen, the hog-king of Madison county recently shipped several car loads of fat hogs to Chicago.

The News remarks that he intends to reap the middlemen's profits himself. In that deal, however, he leaves the packer a profit. That is the card Columbus is playing just now.

The Norfolk News claims their town to be a favorable place for a paper mill. That is right. Let every town in Nebraska engage in manufactures of some sort. We have been too long paying large tributes to the east. Let our surplus products be worked up at home, and sent to the great west beyond us, where they will find a good market.

Those who wish to build an ice-house on a small scale, can pattern after the one at the Creamery,—the walls being made of six-inch studding with tarred paper and siding, outside and inside, leaving a hollow space between. It would be very convenient for farmers who make butter for sale to provide themselves with a few loads of good ice during the winter.

The case of Wm. Gerhold against Josephine Wym, who has been known as Mrs. Gerhold, has been taken to the Supreme Court. The marriage relation between these parties was annulled by the District Court at its last term, on the ground of the insanity of the defendant, at the time of her marriage. The controversy now appears to be about the property.

Ed. North came down from Madison Saturday morning so as to be in time to hang up his "sock" to get it filled with candy, but his most intimate friends, after viewing the opening in said "sock" came to the conclusion that in order to get it anyway near full, a cart load of bricks would have to be "dumped in" first, which was probably attended to by the "Gov." No charge.

Hog cholera is reported in Stanton county. These valuable animals should have plenty of good feed, as much pure water as they will drink, and a warm shelter. It is claimed that this disease is wrongly named, having no appearance of cholera, whatever, but more like typhoid fever. Too much care can not be taken to prevent its spread. We hear of no cases in Platte county.

Now here we are, nearly at the last day of the year 1881, supposed to be fatal in the annals of the human race, by reason of Mother Shipton and Egyptian pyramid prophecies, believed or partly believed by superstitions people,—and there are no signs of general dissolution. Man can calculate the recurrence of eclipses to the second, but the prophecies which are unconnected with mathematical calculations, have not that certainty that is altogether desirable.

The Band benefit ball Friday evening at the Opera House was attended by sixty couple, and was a decided success, socially and financially. The members of the Band desire to express their sincerest thanks to their patrons, and their special thanks to Mr. Gus. Lockner and Oscar Baker for the interest manifested by them, in aiding to secure the financial success of the ball. The handsome sum of money realized will be used to purchase new instruments and music, thus adding to the efficiency of the Band.

Sales of land at S. C. Smith's office are reported, during the last week, to Theje Bauman and D. Ennen, of Nokomis, Ill., and A. L. Ennen, of Nebraska City. They expect to occupy, with their families, sometime in February. They say that there are a goodly number of Illinoisans who are thinking of Nebraska as their future home. There are thousands of sturdy, intelligent men here already from that state, and there is room for thousands more of the same sort, and a glad welcome to such prosperity as pluck, industry, perseverance and good management will bring.

The mines of Colorado, it seems, have been attracting a great deal of attention from Nebraskans, and here and there over the state, we notice our exchanges remarking about the richness of this, that and the other mine. Mining terms are becoming more and more familiar, and as we see the light of the gold fever in the eyes of citizens returning from the Centennial state, that light, "not born on sea or land," we do not wonder that more men are willing to risk their fortune among the rugged rocks of the mining region, where fortunes are sometimes made in a few hours.

On Sunday evening the members of the Columbus Maennerchor with their families had a very pleasant time at their hall. Music and social intercourse was the programme for the evening, but the occasion had one feature deserving of special note, and that was the presentation of a handsome gold watch to the leader of the society, Mr. Emil Pohl, who was completely taken by surprise. Mr. David Schupbach made the presentation speech, which is said by those who heard it to have been a very appropriate tribute to the ability and work of their leader for the last six years, not omitting to make some reference to the future of the Maennerchor. Mr. Pohl replied with such words as he could command; both speakers were almost overcome with the emotions of the occasion, which was one long at Dowsy, Weaver & Co's.

As the pink-eye has made its appearance here, many of our readers would be thankful to some man who knows what the disease is, and how best to treat it, to let his light shine into the surrounding darkness. So far as we, ourselves, have observed that has been claimed to be the disease, it is a sort of distemper characterized by pain in the head, retention of urine, and loss of appetite, and lasting (without relapse) about four days. We have known equal parts of niter and laudanum given with good effect. Of course, the animal should be kept warm until the complaint is past.

Hon. Thos. C. Ryan.

On Sunday morning last at his home in Platte Center, this county, in the midst of his family, while questioning his children about the gifts of Santa Claus, and seemingly in good health, Hon. Thos. C. Ryan suddenly turned to one side, stricken down, never again to rise. The pale Messenger had warned him before (he died of heart disease), but probably came upon him at the last without special premonition.

The deceased was born in the county of Tipperary, Ireland, in 1844. With his mother (his father having died) he came to America when he was six years old, settling in Connecticut, where his early days were spent. In 1856, Chicago became his home, since which time he has lived in the west, and for the last fourteen years in Nebraska.

In 1878 he was elected to represent Platte county in the State Legislature, which position he filled honorably and well, and with satisfaction to all shades of political opinion among his constituents. Mr. Ryan was a whole-souled, liberal-minded, educated gentleman, with no personal enemy that we ever heard of, but hosts of ardent friends, who will sincerely mourn his sudden call from labor to repose.

Let us hope that beyond the clouds of time and sense, beyond the changing scenes of earth, we shall meet him again in the Land of the Dead.

The Columbus Enterprise Most Profitable to the Farmer.

Mr. Editor:—Columbus is looming up. Your writer has, as you are well aware, under various nom de plum persistently advocated factories for Columbus, and now he sees something of the fruit of his labors. The packing house has, since it went into operation, paid more for hogs than anybody else. "The writer of this has posted himself in this matter and says it for the benefit of his brother farmers, he having no personal interest, whatever, in the enterprise. But from the nature of the case the business can be prosecuted only a part of the year, hence another undertaking, promising good returns to the farmers all around Columbus at all times, is even more important. I mean

THE NEW CREAMERY. It is located just in the right place. Attempts have often been made to start creameries in country places where there were no railroad facilities, or only limited ones, but they hardly ever succeeded. Columbus is the place in this respect. From the east, south, west, northwest and north, the trains can bring in supplies of cream every day, and hundreds of overburdened farmers' wives will be glad to be relieved of the monotonous and wearisome labor of churning for hours for a few pounds of butter. And what do they get for it? A few groceries, or a few yards of calico. The storekeeper, obtaining but a small supply, cannot if he would, get much for it as it has to pass through many hands before it reaches the consumer. But a creamery, having tons of it to sell, can haul up and ship to the best market directly, avoiding the middle-men almost entirely. Having the best facilities for the production of butter, saving labor in the work by producing perhaps 500 pounds with less wear and tear to a farmer's wife than upon five pounds, and then selling the product at headquarters—a creamery can afford to pay a reasonable cash price for the cream. It is no wonder, then, that the farmers are taking a lively interest in this new enterprise, talking it over and over among themselves. Questions like the following are being eagerly discussed, viz: Is it more profitable to let the calves suck, or to milk the cows and sell the cream? How can the cream be collected in the country and around railroad stations? Will not a creamery overstock the home market?

These are vital questions, but as no man can be more wide awake to the material prosperity of the county than you, Mr. Editor, and as the JOURNAL has always been the farmer's friend, you will not doubt allow me to discuss these questions in your valuable paper, somewhat thoroughly. Every one owning a cow, and every one eating butter upon his bread, will be interested in these questions. A. H.

Last Chance.

All persons knowing themselves indebted to the undersigned, either at the City or Central Meat Market, by note or book account, are requested to call and pay up by the 21st day of January, 1882, as all accounts not paid on that date will be sued. I must have my money, without further delay. WILL T. RICKLY. 1 Dec. 26th, 1881.

MARRIED.

WILEY—BROWN—At the residence of the groom, Dec. 22d, 1881, by Rev. J. P. Dias, Robert E. Wiley and Miss Jane M. Brown, both of Platte Co. A nice company were present at the marriage,—host of friends of the happy couple. All who know them, will unite with the JOURNAL in wishing them a long life, and unalloyed happiness. Dec. 22d, 1881, by Rev. Father Ryan, Joseph Flynn and Miss Maggie J. Keating. The families of the happy couple are well known to our citizens, and there are none but will call down blessings upon the new family. The JOURNAL hopes that their future may ever be as bright as the present.

DIED.

BUMP—Dec. 22d, of affection of the lungs, after a protracted and very painful illness, Grant, son of J. J. Bump, aged about 12 years. RYAN—At Platte Center, Sunday, Dec. 24th, 1881, of heart disease, Hon. Thos. C. Ryan, aged 37 years. His remains were brought to this city yesterday morning on the cars, and placed upon the eastward bound train, to be sent to Chicago, his former residence, and the residence of most of his relatives.

ROYAL ARCANUM LITERARY AND LECTURE ASSOCIATION.

SEASON OF 1881-82. We have the pleasure of announcing to the citizens of Columbus and vicinity that the second lecture, of the course, will be by Prof. J. Henry Boyle Wednesday Eve., Jan. 4th, '82, AT THE OPERA HOUSE.

Dates of other entertainments will be duly given.

Prof. J. Henry Boyle on NIHILISM and the GREAT EMPIRE OF THE CZAR. ASSASSINATION OF EMPEROR ALEXANDER II. Nihilism, and the imagination he heard them within the walls of the Palace. Nihilism, that mysterious, intangible thing that speaks with invisible mouth, counts its adepts in the very ranks of the Russian police and gendarmes by hundreds.
