It is somewhat singular that our cotemporary has only the harshest of words for Lt. Gov. Carns, and honeyed phrases for J. C. Roberts. "On what meat doth this our Caesar feed" that he isn't able to see straight?

In this case it is patent that Carns, although offering a bribe, was willing to carry a proposition from Roberts to the U. P. officers to accept one. Both of them ought to have been severely censured, at least.—Beatrice Express.

THE worst enemies to the newspaper business are those editors who think that it is smart to tell lies for some fancied political effect. The people soon find out when an editor becomes habituated to such a course, and then he must worry his imagination to make up an unusual smart story in order to gain any attention whatever. It has been demonstrated, time and again, in the political campaigns of this country, that lying don't pay.

A LITTLE boy of seventeen months old of Mr. S. B. Seydell, of Omaha, died the other day from the effects of having swallowed a screw an inch and a half long. CARNS' in his high official capacity as president of the senate, acted a very imprudent, if not a say dishonorable part, when he became the bearer of propositions of bribery between Roberts and the officials of the U. P., and Roberts, if the charges in his affidavit are true, did not act the part of an upright, honorable representative of the people when he failed to immediately expose the parties who had attempted to corrupt him with promises of money.—Wood River Gazette.

The Lincoln Journal strikes a high key on the first congressional district in Nebraska, and claims the belt as the most populous, physically powerful, intellectually gifted neck of woods in the United States that will be represented in congress next year. It is expected to cast 40,000 votes next November, and give the other two districts combined a close shave for numerical strength. This high keynote of the Journal may be in some respects considered justifiable when we think of the political influence this district has exerted in the politics of the State, in the number of her public officers, etc. The west and north respectively ask to be heard a little hereafter.

The Senate committee's report upon the Miller charges of corruption against Van Wyck, Graham and Tefft, has been characterized as a "white-washing report." The report, evidently written by J. D. Howe, himself a democrat, could not truthfully have been otherwise than it was. Dr. Miller was called upon to disclose the facts in his possession, but his case against Senator Graham (a democrat) fell so extremely flat that he evidently was sick of the whole business, and the next morning, through his attorney, Judge Mason, asked that the investigation be indefinitely postponed.

The alleged ground of this request was the illness of Mr. Fairfield, whom Mr. Miller claimed as his principal witness, but, at the same time, would not say what specific facts he expected to prove by him. In this, and for his mis-statement concerning Graham, Dr. Miller was a just subject of censure by the senate, three of whose members had been charged with corruption; it will hardly do to say that the senate is too dignified a body to censure a private individual, under such circumstances, especially after the same senate has not been too dignified to listen to the infamous charges, and appoint a committee of investigation, spending the people's money for witnesses, etc. Dignity is a poor substitute for justice and right. If public servants of any name or grade are corrupt, let any newspaper editor get his proofs in good shape, make the facts known, and then substantiate them by the oath of witnesses before the proper tribunal. But if he don't own any personal knowledge or otherwise, let him keep his tongue out of his paper, or receive the just censure of those most nearly concerned.

Journalism.—The following is a summary of the agricultural and statistical reports taken from the rolls of Sherman precinct.

Population: Males 280, females, 221; total 501. Of these 235 were born in the United States; 198 in Germany; 23 in Austria; 22 in Switzerland; 8 in Poland; 9 in Luxembourg; 4 in England and one young emigrant from the Atlantic Ocean. 27 births, and 4 deaths within the year.

The agricultural report shows 5219 acres under cultivation,—34 acres of rye, 414 bushels, showing an average of 12 bushels per acre. 19-3 acres of wheat, 14,669 bushels, an average of 7 bushels per acre; 2472 acres of corn; 98,600 bushels, an average of 39 bushels per acre, 34 acres of barley, 835 bushels, an average of 24 bushels per acre; 590 acres of oats, 23,369 bushels, an average of 39 bushels per acre; 42 acres of potatoes, 8707 bushels, an average of 89 bushels per acre; 89 acres of cultivated trees, 229,700 in number, an average of 2,580 trees per acre.

The average yields of the several grains seem to be somewhat less than those of some preceding years; enhanced prices, however, more than made up for this falling off in the yield.

Our farmers are hopeful and confident. Improvements are the order of the day. M. B. HOXIE, Registrar.

After roll call, prayer and reading of the journal, Mr. Perkins, chairman of the Carns investigation committee, made a majority report in effect that the charges are unsubstantiated.

Mr. Doane, from the same committee, submitted a minority report which says in substance that Carns admitted in his examination that he lent himself as a bearer of a proposition from Roberts to Thurston for \$5,000 in the interest of the railroad committee in the house, of which Roberts was chairman. The minority of your committee cannot consent to unite in a report which fails to express the most unqualified condemnation of such a compromising position, in which the Lieut. Governor suffered himself to be placed by his own admission.

On motion of Mr. Doane the Senate adjourned till Monday.

HOUSE.

After prayer, roll call and reading of journal, senate bill number 6, extending the northern boundary of the state of Nebraska, was passed.

TUESDAY, May 23d, 1882.

Almost the entire day was consumed in the discussion of a motion to adopt the minority (Doane's) report having been moved, a motion was made to amend by substituting majority report. The discussion was participated in by Messrs. Howe, Perkins, Turner, Doane, Myers, Gere, Wells, Burns, Daly and Tefft. During the discussion, Turner offered an amendment in effect that Carns was not without blame. The chair ruled the amendment out of order, but further along in the discussion, receded from his former decision, and allowed the Turner amendment. The amendment was lost by a vote of 8 to 16.

Those voting yeas were—Baker, Daly, Howe, Turner, Walker, White and Zehring. The majority report was then adopted by 20 to 3.

For the Journal.

REFORMED CHURCH PULPIT.

Leading thoughts of last Sunday's Sermon.

"Bear ye one another's burden and so fulfill the law of Christ."

The law of Christ is infinitely higher than the ethics of the Old Testament, at least as understood in O. T. times.

The law of Christ is infinitely higher than it is even now generally known and understood to be, among Christian people.

The current feeling among Christians commonly seems to be, that simply "doing rights" is all that Christ requires. This would be simply: "Let each one bear his own burden."

If Christ himself had acted on the principle of simply doing right and no more, his life would not have been what it was: he would not have suffered, being sinless.
