We are in receipt of a metrical communication from Platte Center, without any signature thereto. The author will please furnish his name, not for publication, but for the information of the editor.

The Omaha Herald's Lincoln correspondent gives a list of senatorial candidates and lobbyists, who have engaged rooms at Lincoln. We did not see our friend Ed. Hoare mentioned among the others.

A petition is being circulated in several counties along the Platte asking that the boundary lines be so fixed that the expense of keeping up the Platte river bridges will be borne in part by the counties south.

You can find anything you want in the way of a present for friend or relative, at Dowty, Weaver & Co's. They have the largest, most complete and best-selected stock of Christmas Goods ever brought to the city.

One day last week Hon. Guy C. Barnum saw a snake swimming round in Clear Creek. While this is a stream fed by springs, and never has been known to freeze over, the fact shows the Nebraska climate about as well as anything could.

One of our oldest farmers who has given the subject considerable study thinks the price of corn will be "up" before the next crop comes into market. His argument rests mainly on the fact that the crop of 1881 was entirely used up.

Luers & Hoefelman have the agency for the Stover's Patent Geared Corn and Cob Saver Grinders, which are warranted to grind 20 bushels dry shelled corn per hour, and to give satisfaction. A sample can be seen at L. H. H's store on 11th street. 34-3

TO JOURNAL SUBSCRIBERS.—You will find, printed on each copy of your paper, opposite your name, the date to which your subscription is paid or accounted for.—S. A. Lincoln, Editor. The law provides for this method of receipt and notification.

The Tecumseh Chieftain says that John Sherman has husked 10,000 bushels of corn this fall. He raised 4,600 bushels on 80 acres on the poor farm, and the balance on 100 acres of his own farm. This is a good sample of the capabilities of Nebraska soil for corn raising.

M. S. Cottrell of North Bend, one of the oldest and best citizens of Dodge Co., accidentally fell from his wagon the other day, upon the hard frozen ground. It was at first thought he had received fatal internal injuries, but he is now better, although not over the effects of his fall.

If we are allowed to judge from the number of people in the city last Friday and Saturday, laying in supplies of holiday gifts, Monday last was about the liveliest Christmas Nebraska ever saw. Certainly, the jolly Kris Kringle never saw a pleasanter day or brighter countenances.

The Ullyses Dispatch prints an original matter a small paragraph (local) which first saw the light of newspaper day in the JOURNAL. We don't care, for ourselves particularly, but those who read both papers and likewise those who don't, may be misled sometime, if this thing continues.

Millions of dollars are spent in the United States of America in the purchase of presents for relatives, friends, acquaintances and the little folks during the Christmas and New Year's holidays. According to her population Nebraska citizens make annually as generous an investment as the older states.

We were so very busy on Saturday last that we could not get to the mass meeting at the Court House. We are informed that Senator Brown of Colfax and representatives McAllister, North and Schroeder were present, and that some resolutions were adopted as expressing the sentiment of the meeting.

The New York Weekly Tribune says in regard to the Noyes Dictionary Holder, manufactured by L. W. Noyes, 99 West Monroe St., Chicago: "We know of but one satisfactory Holder; that, however, is so good that a second is not needed." Mr. Noyes sends to all applicants a handsome illustrated circular. Prices reduced.

From the very first the aforesaid "Bob" was an exceedingly active Valentine partisan. Did anybody ever say that he had been promised the post-office?

Genoa has been struck with a streak of good luck. Workmen are busy rejuvenating the old Pawnee school-house for occupancy again as an Indian school, and we are informed that the government will next summer erect two brick buildings 40x20 feet, three stories high, besides about a dozen frame dwellings, for the Indians, at a cost of \$150,000. Outside of the fact that this large sum of money is to be expended there next summer giving a decided increase to business, there is a general air of thriftiness, prosperity and energy about the town that is certainly good to see. It will be a fact, sooner or later, that the water power of the Beaver will be utilized for manufacturing purposes, and the men of capital, there and elsewhere in Nebraska, will make a paying investment for themselves, and also greatly benefit their communities, by taking Time by the forelock, seeking the practical men, and building up trade. This is the gospel of thrift in these days for Nebraska towns favorably located.

The M. E. Sunday school and members of the church departed from their usual custom and prepared their Christmas tree, held their festival and distributed their presents to the little folks Saturday evening. The children, parents and friends filled the church with a crowd, many being unable to procure a seat, otherwise the occasion was enjoyable; and to the little folks, judging from appearances, were filled with hopeful expectation, which was fully realized in the distribution of presents. The programme consisted of music by the choir. Opening prayer and address by Mr. Swortzel, which were brief and very appropriate. Dialogue and song by the infant class. They performed their parts with credit to themselves. Select readings appropriate for the occasion by Miss Anna George and Miss Kate Wadsworth and an essay by Mr. C. J. Garlow, followed by music from the choir closed this part of the proceedings, when Santa Claus was announced, who was dressed in a fur coat and cap with a horribly ugly face and a nose not easily described, but not in disguise we learn the young Mr. Morgan is passably handsome; and at once he proceeded, assisted by others, to distribute the numerous presents. Not a child in the school failing to receive one.

The Butler Co. Press remarks that S. S. Reynolds, senator elect of Butler and Polk counties, is not a Dr. Miller man. He is understood here to be a thorough-going anti-monopolist, though of democratic antecedents, much the same position as occupied by senator Brown of this district, although of the latter the Schuyler Sun says he will be found democratic every time.

Rev. Father Ryan, who has recently been in Chicago, gives a graphic description of their slush and mud, compared with Nebraska's good natural roads. One year's residence here will satisfy the most skeptical of eastern farmers who have, during some parts of the year, to wade through mud knee deep to get to station, post-office, store or church. Just think of it, ye Nebraskans, who can trot your teams along nature's best highway.

It will be well enough, perhaps, for those who know how to make syrup from sorghum and who like the business, to see what they can do with the method of making sugar from sorghum, discovered by Prof. Scoville and Weber of the Illinois State University. It is said that from 250 acres, there have been made 125,000 pounds of sugar and 22,000 gallons of syrup, worth \$19,000, or an average of \$75 to the acre. Very tempting to a Nebraskan.

Of course Columbus is interested in any railroad scheme in this section of country. The Boons County News says that the talk about a railroad from Norfolk to Grand Island is not all speculation; there is real foundation for the belief that the road will be built in the not distant future, and when it is built, Albion will not, as some suppose, be left out in the cold. This would take away from the Columbus-Norfolk branch considerable through freight.

Tasker and Sons' sale took place Dec. 14th, amounting to \$2100. About half the payments were cash. Milch cows brought \$30 to \$35; yearling heifers \$20 to \$24; two year old heifers \$30 to \$45; one year old steers, \$23 1/2; two years old, \$29. As all will see, these were excellent prices. The stock were extra good grades, and from what we are told of the original investment by the Tasker Bros. it undoubtedly pays well to raise good stock.

A man by the name of Herch, a bachelor of Stanton county, was found last Thursday in the woods on the banks of the Elkhorn frozen to death. In the middle of the river near by was also found his wagon. The particulars of the sad affair came to us about as follows: A week ago last Saturday Mr. Herch was in Stanton, and it is said, left for home on the evening of that day somewhat under the influence of liquor, and this was the last time he was seen until found as above stated.—Norfolk Journal.

VERY CROOKED.—The crookedest of crooked work, and yet that which has grace and elegance in every crook, may be seen in the Noyes Dictionary Holders and Noyes Handy Tables. In them the fact is clearly demonstrated that if the inventor has not made the crooked straight, he has made the straight crooked, and thereby increased its beauty and utility. People in search of holiday presents will appreciate his success. A fine illustrated circular may be had free by addressing L. W. Noyes, 99 West Monroe St., Chicago. The prices have been greatly reduced.

A goodly number of eastern farmers will visit Nebraska this winter to look over the situation. We have met several already who are full of query concerning this region which has so suddenly (as it would seem), filled the eyes of our eastern friends. Nebraska has great merits, many of which are apparent to the most casual observer, and some of which are realized after a short residence. It always seemed to us that, as none should choose a wife for another, no one should select a residence for another. The best way for those contemplating a move is to come here, and look over the situation for themselves. Take nobody's say-so. Make your own inquiries. Do your own investigating. Use your own eyes and judgment. If you want to get cheap land, however, it is our opinion, (and we don't hesitate to give it freely), you must make your purchase before many years, for the rise in price is rapid.

Bob Maxwell, of Battle Creek, has been appointed postmaster at that station. Bob will evidently give good satisfaction to the people of B. C. in that capacity.—Norfolk Journal.

From the very first the aforesaid "Bob" was an exceedingly active Valentine partisan. Did anybody ever say that he had been promised the post-office?

Sparks from Granville.

Rev. A. J. Wright preached at Humphrey last Sunday.

Rev. Calder will preach here only once in four weeks hereafter.

Farmers are doing their best in order to finish husking while the weather is fine.

The corner stone of the Catholic church at Humphrey, was laid on Sunday, the 9th. A large crowd was present witnessing the ceremony.

Last Saturday night the Postville school house was filled to its utmost capacity with an eager crowd, which had gathered to witness the contest between the Postville and the Granville debaters.

At seven o'clock the house was called to order by the president, the minutes of the previous meeting were read, and the evening exercises were introduced by a song. The president then announced the debate and read the subject, namely: "Resolved, That the right of suffrage should be extended to the ladies."

The Granville debaters (who were on the affirmative) were P. J. Coleman, P. J. Benz and T. O'Neil; the Postville debaters were Mr. Caldwell, John Walker, E. G., and Mr. Arnold. Two of the judges chosen were of Postville, and the other one from Granville. Judges decided, and house approved of the decision, in favor of Granville "Juveniles" (a pet name by which our worthy opponents loved to call us). The whole affair was conducted in the best of spirits, and we heartily thank the Postville society for the gentlemanly way in which they received us. We cannot help thinking that our literaries might be greatly improved if there were more debates between different societies, as it affords an excellent opportunity for debaters to perceive and mend their deficiencies.

Dec. 20, '82. YOUNG REPORTER.

Madison. (From the Chronicle.) B. Tscherner thinks of removing to Oregon in the spring.

Frank Prince has been inquired of for a horse which lives four miles behind Madison.

H. D. Kelly came up from Columbus last Saturday, and spent the Sabbath with his family.

Phil. Bauch, editor of the Chronicle, and Miss Mary Oille Steen of Colfax county, were married Dec. 20th, at Madison, by Rev. C. F. Hayward.

Chris. Neidig has commenced an action in the United States Circuit Court at Omaha, against the Germania and Hannover Insurance Companies, for \$3,000 each, for payment of his policies in the above companies.

Herman Fallner narrowly escaped death at Fritz & Wolfe's mill. While oiling the shaft of the water wheel, his wampus caught around the shaft. After giving three or four turns, the cloth began to slip without winding, and this fact saved his life. His cries for help could not, of course, be heard. One of the workmen, missing him, hunted him up and released him from his perilous condition.

Who Knows Anything About It? Mr. Editor:—In a sample copy of an agricultural paper sent to me I find a representation, and the following short description of a certain grass, viz: "Reana Luxurians (Tosoline).—A remarkable grass which attains to the height of ten or twelve feet. The amount of fodder it will produce is almost incredible. It somewhat resembles Italian corn, but the leaves are longer, broader and sweeter."

Does any one of your numerous readers and able correspondents know anything about this Tosoline? Will it stand our climate? How is it to be raised? Can it be cured for winter use? Will some reliable seedman having the seed advertise it in the JOURNAL? What says our John Tannahill about it? INQUIRER.

Letter List. The following is a list of unclaimed letters remaining in the post-office, in Columbus, each, for the week ending Dec. 16, 1922: A. N. G. Anger, B. J. W. Bedell, C. H. Hanley, J. Chas. A. Jarvis, J. J. S. King, Sam King, Wm. Keizer, N. John Noon, Esq., O. J. O'Brien, D. O'Brien, Pat P. J. Popy, R. J. Roubek, R. B. Saunders, W. Peter Wheeler.

Not called for in 30 days will be sent to the dead letter office, Washington, D. C. When called for please say "advertised," as these letters are kept separate. E. A. GERRARD, P. M., Columbus, Neb.

Two Sundays. The Rev. J. C. Jordan gives this: The English missionaries to Tahiti passed around the Cape of Good Hope. The American missionaries to Hawaii passed around Cape Horn, consequently there is a difference of one day and night in the reckoning of time; hence two groups of Islanders lying on nearly the same degree of longitude observe the christian Sabbath on different days of the week, and have done so for over sixty years. NEBRASKA VISITOR.

Information Wanted. Concerning Anson P. Morgan, a boy 16 years old, tall and slender and wearing a brown broadcloth coat and black hat. When last seen he was at Columbus, Nov. 6th. Any information of his whereabouts will be gladly received by his parents, Mr. and Mrs. J. F. Morgan, Cottonwood, Butler Co., Neb.

State papers please copy and very much oblige the parents.

Card of Thanks. I desire to express my grateful thanks to the members and friends of the M. E. church for a very useful and valuable Christmas present—consisting of a money-purse well filled with gold and silver coin.

MARY M. TURNER.
