—Matilda Fletcher of Des Moines, Iowa, in a printed circular just received, proposes the organization of a Junior Grand Army of the Republic. The scheme, as set forth in this circular, commends itself to the good wishes of all right-minded persons. Her motto is, "Let us live for the children, for our country and for the good that we can do."

—Any of our subscribers who wish to stop the JOURNAL can pay what they owe to date, and it will be discontinued. We afford you, every week, the means of knowing just how your subscription account stands. We say this because of a rather pert letter received from a short-time subscriber in Pennsylvania, who ignorantly supposed we wished to force the JOURNAL on him.

—There are but two ways to pay debts and live—out of your profits or out of your substance. If there are no profits, the substance must be confiscated and ruin follows. If money commands six, eight or ten per cent., and the average rate of increased wealth is less than four, it does not require profound reasoning to tell why panics and bankruptcy overtake a man or a nation."—*Ex.*

—The Omaha *Herald* has seen a cake of excellent maple sugar made a few days ago by Fred. Judevine of Butler county, which is of excellent flavor, color and fineness, and will find ready sale in any market in the world at top prices. Years ago Col. G. W. Stevens of this vicinity brought to the JOURNAL office two cakes of sugar of like description with the above, made by his young daughter from the sap of box elder trees set out by himself. Sugar made from the box elder is of lighter color and not so rank as the maple sugar of commerce. There is no doubt but Nebraska can provide herself with all the sugar she wants, by raising sugar beets, sorghum, maple or box elder.

—Hereafter the JOURNAL head light will shine for our live little neighbor Bellwood's two enterprising grain buying representatives, Messrs. H. S. Montgomery and Phil. Walker. Meeting a JOURNAL representative the other evening on the B. & M. train they were reminded that there was something lacking in their lives, that only their home paper could fill. "Mont." is an old time typo, and in "Days Lang Syne" in the history of Seward pounded type boxes along side of the writer.

—"H. G." of Woodville writes a letter to J. S. Freeman of the Alliance, in answer to an invitation to be present at a county meeting, in which he says: "My sympathy is with your order. I am not a member of the Alliance for the reason that there has been no organization in this part of the county, but I hope to see the time when Platte and every other county in the United States may be fully organized into an Alliance or something that will crush out this cursed monopolising power that has so long been pressing the people of our country."

A Wide-spread Reputation.

The growth of Nebraska this year will be unprecedented, and will increase her population many thousands. Among the new comers will be many who have heard of Dr. Fishblatt, formerly of Des Moines, now of Omaha. The Doctor has, in the brief period of his Nebraska residence, built up a very extensive practice, and it is safe to say that in every county in Nebraska will be found people who can testify to the efficacy of his treatment. Mrs. Susan Vale of Chariton, Iowa, says: "I began to improve immediately after I began your treatment, and in a very short time was completely cured. * * * I am now perfectly well, and thank you for my life." 50

Grand Prairie Alliance.

March 26, 1883.

Meeting called to order by the Vice President. Thirty-one farmers were present.

Mr. Goodson made a speech and also welcomed the Grand Prairie Alliance which was followed by a speech by J. S. Freeman on the Republican Campaign Fund, also a speech spoken in German, one hour in length, by A. G. Stenzel, on the record of the two old parties. A speech by D. L. Bruen on equal taxation.

A motion made by David Streeter to hold the next meeting at the Redenbaugh school house was carried.

The meeting then adjourned to April 23, 8 p. m.

D. L. BRUEN, Sec'y.

States Attorney Company.

With the celebrated comedian, John Dillon, supported by Walters' Comedy Company, will appear in this place for one night only, April 11th. This is one of the best companies ever in Columbus, as they have played in all the cities in the west and received very flattering notices from the press. We copy the following from the Council Bluffs *Republican:* "Last evening Dohany's hall was crowded to repletion by the elite of our city to witness the "State's Attorney," rendered by the Walter's company, which is supported by the inimitable comedian, John Dillon, and Mr. Scott Marble, author of this great play, together with Miss Nellie Walters, Mrs. George Walters and others, all going to make up a strong company. The "State's Attorney" proves to be one of the best and most taking society dramas of the day. 1

The mean temperature of the month just past is nearly two degrees below the average mean temperature of the same month for the past eight years, while at the same time it is 7.34 degrees above the mean temperature of March, 1876, which was the lowest mean during that period. The past month is also celebrated for containing the period fixed for the great storm or tidal wave which did not make its appearance, and if this shall be the means of putting a stop to the useless prediction of the weather for months or even years ahead its usefulness will have been assured.

Sparks from Granville.

The Baptist Sunday school was reorganized last Sunday.

P. J. Coleman is thinking of going to the State University next autumn.

A great many farmers doubt very much that corn, even the best, of last year's growth, will grow.

"Sparks from Granville" must bid farewell to the JOURNAL, while "Young Reporter" will again take refuge under the old appellation, "Sparks from Creston."

Mr. Gray and family are visiting Mr. Ulry's. Mr. G. is from Illinois, and has come to this state with the intention of making his future home with Nebraskans. He has rented one of J. H. Milslagle's farms for this season, after which he intends to locate on a homestead farther west.

Jos. Stuart and family, who have been visiting relatives in Iowa, have returned. Mr. S., we understand, has taken a farm near Cumminsville, Wheeler Co., where he intends to engage in stock-raising. With Mr. Stuart came his brother-in-law, Mr. Law, who also intends to make his home on the frontier prairies of Nebraska.

Humphrey.

Have you made your garden?

The many fires fill the air with plenty of smoke.

Mr. Ottis's new clerk has arrived from Michigan; Mr. Jacob Fisher will go on the farm. We wish him success in tilling the soil.

J. E. Moncrief, county sup't, was in town Monday and Tuesday. He had an examination of teachers in the school house at this place on the 10th.

M. C. Bloedorn is giving his shop a new coat—of paint. If some enterprising painter would come and locate here he would find plenty of employment.

Terrible racket—a newly married pair—bells, horns, tinware such as old pans, wash boilers, etc., together with a keg of beer awoke the whole village. What fun it is to be married!

The adjourned school meeting of Dist. 67 took place in the school house Monday evening, April 9th, a small attendance. It passed off without any trouble; there was an additional fund raised by a reconsideration of the vote cast April 2d, that instead of 3 1-5 mills they raise 11 mills to the dollar assessed to the district. A vote of thanks was tendered the school board for their diligence and carefulness in their extensive business, including building of school house for the district. Supt. Moncrief was present at the meeting.

At the annual school meeting of this place, Daniel Brooks was elected moderator and by the request of Wm. Ripp (the director) a committee of three were appointed to examine the books and accounts and report at the adjourned meeting evening of April 9th; the committee appointed were F. M. Cookingham, D. Robinson and George Zimmerman, who have examined the books, etc., and report all right. The district unwittingly voted nine months school with an appropriation of 3 1-5 mills to the dollar assessment, which is about one-tenth of what is wanted. C.

The Alliance.

ED. JOURNAL:—Through some public conveyance or means, I would like to get a correct idea of what the fundamental principles are of the new party called the County Alliance. The definition of the word Worcester says, is a confederacy, affinity, a combination of individuals, a collection of parties, &c. Now this covers a broad field of operation, seemingly without limit, therefore dangerous, for there is no telling where it may end, after drawing to its ranks such a maze of followers as our mixed population and mixed ideas will produce. It seems to me that the name covers too much space to be safe, and that the platform and by-laws should be limited and published so that people might know just what they are going to undertake. I believe that the majority of new parties mostly fail for two reasons; first the founders start a foundation so broad that they cannot procure material sufficient to add anything to the superstructure, do not know where to commence to build, and the result is, to use an old saw, have taken a larger bite than they can "chaw." The other reason is the opposite of the first; the platform or foundation is started so narrow and so contracted, and they build with such rush and vim that they get up so high before they see the danger of their position, they become giddy-headed and fall with a great splash, but fortunately no serious harm done to the community. I am inclined to think the main principles and ideas of the County Alliance are good, and a great amount of good can be accomplished if they are carefully and wisely carried out. Let them carefully define their position and intentions, and publish the same so the people, know what they undertake and endorse, and then if they grow, they grow with strength that will be respected and feared by the opposition.

FOR THE RIGHT.

No Excuse for Ignorance.

Many people suffering from disease go on bearing the weary burden of pain down to the grave, when they could be restored to health, and have many happy years on earth before them, if they would only seek relief and cure in the right direction. The advertisement of Dr. Fishblatt is before them in another column of this paper, and if they do not consult him, it is their own fault alone. Consultation is free. If he can cure the case, he will take it, and if he cannot cure the applicant, he will say so at once. All who have applied to the Doctor speak of him in the highest terms.
