A DAIRY TIME.

Certainly an Excursion Announced for the Season Equal to the E. O. S. Special Series. There appears to be almost no end to the novelties being perfected for the Orislo festivities in Baltimore in September. It will truly be as termed, a Summer Night's Carnival, and certainly nothing like it was ever before attempted in any city of the continent. There will be electricity in all its forms, are lights and incandescent lights, focus lights and flambous, torches in various colors, Greek fire, calcium and gas, until night will be turned into day. The pyrotechnic features will be on a scale of great extent and variety, some of the set pieces promising to be marvellous in effect. The whole city will be lighted as never before. The different monuments with which the metropolis abounds will be girdled by electrical bands, while the lofty and majestic dome of the City Hall will be fairly ablaze. Every avenue leading to novelty in illumination is eagerly sought after, and old Baltimore will indeed show herself this year. The night display in the harbor will be a gorgeous sight; and the arrival of Lord Baltimore something to remember for years. The Mystic Pageant on the third night will beyond all comparison excel anything of the description ever attempted not alone in this country but in any country. Other cities are content with from eighteen to twenty-two floats, the latter number being the greatest ever embraced within one pageant in any city. Baltimore almost doubles this, as her pageant on the night of the 13th of September will include no less than forty floats or tableaux cars, larger, more imposing and grander in design, than any pageant ever shown. Ordinarily the number of characters introduced in a pageant is less than one hundred. In the Baltimore pageant there will be two hundred and thirty characters upon the floats, every costume entirely new and imported from Paris direct. It will require thirteen hundred men, two hundred and forty horses, over fifteen thousand gas jets, eight bands of music, and other necessities in huge and magnificent proportions. The actual cash outlay necessary to place the pageant upon the streets of Baltimore will exceed thirty-five thousand dollars. The characters are assumed exclusively by members of the grand Orislo, the merchants and business men of the highest standing. The special series of excursions arranged by the Baltimore & Ohio are meeting with undivided favor, as they admit of a visit to many places of great interest in addition to the Orislo at Baltimore. As all the festivities in the Monumental City are at night, the days can be put in visiting Washington, Old Point Comfort, Forts Monroe, Fort Mifflin, Harper's Ferry, and very many other points. The rate is down to the very lowest notch, half-fare from all stations on the enormous system embraced within the B. & O. management.
