And their health is also remarkable, when we consider the DEAD MATTER that surrounds them.

The supply of tenement houses in the city is entirely inadequate to the demand. A few thousand dollars put into this class of buildings in Columbus would undoubtedly bring a good return on the investment.

A correspondent of the Drovers' Journal has this to say of Nebraska interests: "With its large corn crop, mild winters and pure bracing atmosphere, Nebraska should be the great feeding state of the Union. The crop of hogs will be the largest ever shipped from the state, and they will be fully matured. In going over the country you no longer see the long-nosed, razor-backed hogs of a few years ago, but the plump Berkshire, the large round and sleek Poland-China and the beautiful Chester Whites, though the latter are not sought after much, have taken their place. The slab-sided, raw boned cattle are passing away, and the beautiful short-horn and white-faced Herefords are taking their place."

The New "Hidden Hand." If Mrs. E. D. E. Southworth could have been in the new Opera House last evening, there would have been an auditor no more delighted than herself. The "Hidden Hand," her favorite novel, was brought out more clearly, and the characters she pictured were truer to her conception of them than ever seen in any other attempt made on the stage. Miss Hattie Irving, from the waif of Rag Alley, and Capitola Black to Capitola Le Noir, the rich heiress, was a decided success, and her every appearance on the stage was met with applause. Billy Robinson's Wool was fine, and kept pace in darkey sayings with the wild caprices of Capitola. The support throughout was good, and the company made many friends. —Leavenworth Times.

The above criticism, from this well-known paper, speaks for itself concerning Whiteley's "Hidden Hand" Company, that appear at the Opera House on Tuesday evening, Oct. 2d. Secure your reserved seats in advance at Dowty & Kelly's.

1 2 3 4 5 6 7 8 9

Considerable agitation has been stirred up in political circles over the nomination of a thoroughbred democrat for the office of district judge of the Fourth judicial district by the anti-monopolists, and it has been a mooted question as to whether Judge Higgins would accept the nomination at the hands of the convention. The Democrat, of which he is one of the editors, says neither yes nor nay upon the subject, but we understand the Judge to say that he is not a candidate for the office at all, and therefore declines the nomination.

"What are our merchants going to do with all the goods they are receiving?" is a question quite commonly asked these days on witnessing the bustle and tumult incident to storing away piles of merchandise. Why, sell them to customers in the country for cash before next spring—those of them who judiciously advertise their wares so that the people may know where to go to purchase what they are in need of. No more stinting in the necessities of life for Nebraska farmers. They are abundantly able to even enjoy most of the luxuries of life, and pay the cash for it on delivery.

A Happy Occasion.

The handsome residence of Mr. C. H. Walker, No. 700 Champa street, Denver, was the scene of a quiet wedding on Friday evening, Sept. 7th. Mr. J. S. Walker, at whose residence the ceremony was performed. The Rev. Mr. Westervelt officiating. The happy couple have the best wishes of many friends. The Fair.

The third annual fair of the Columbus Driving Park and Fair Association which opened on Tuesday of last week was undoubtedly the best in respect to a first-rate showing in the various departments that has yet been held in Platte county, and had the weather been favorable, the last two days would have witnessed crowds of people at the grounds to admire the exhibits and see the races; but owing to the bad condition of the track on Thursday, caused by Wednesday night's rain the races for the day were postponed to Friday, the storm of that day compelling the association to declare all entries for the day off and the entry money was refunded.

Owing to the absence of the editor and consequent extra duty for the balance of the force, the JOURNAL had no representative in attendance, and our report must necessarily be rather more incomplete than we would like to make it.

The principal industries of the county, the raising of cattle, sheep and hogs, and the growing of all kinds of grains, particularly corn, were represented by a showing that any country might well feel proud of and indicate a future for the state that will soon place Nebraska first among the bright lights in the galaxy of rich and prosperous states of the Union.

On every hand we hear the splendid exhibit of cattle spoken of in glowing terms. The showing was far beyond the expectations of any, and would do credit to a much older country. In this department there were about 100 entries, a good share of which were thoroughbred short-horns and high grades.

J. P. Becker's showing of 17 head of thoroughbred short horns and high bred grades, was a conspicuous and attractive feature in this department.

A. M. Winslow's Sons and Sheldon & McMillan did themselves great credit by their exhibit of fine pedigreed short-horns.

J. H. Meyer also made a good showing of short-horns and grades. Among other contributors who helped to make up what constituted a magnificent exhibit, were the following: Messrs. Pleyte Bros., Getts & Burns, M. Postle, C. M. Taylor, J. E. C. E. Roberts and P. J. Lawrence, all of whom showed thoroughbred and high grade cattle.
