Mormonism.

WILBER, NEB., Nov. 12, '83. Two champion debaters, namely years since its close are heaping up Rev. Clark Braden, author of "Ingeradditional information concerning the soll Unmasked," and Bishop Kelly of enormity of the crimes committed the Mormon church, are attracting under the delusion of states rights, packed houses here every night in and a proposed government with their public discussion of the Mormon letter from Jacob Thompson, from signing fraud? These are the quesmin, Sec'y of State of the Confedera- the arguments are: In proof of cy, dated Dec. 3d, 1864. Says the Smith's prophetic gitts, Kelly points to the late discovery of extensive ruins of cities in Central America which Smith as early as 1830 declared to be in existence. Braden shows that they were discovered by a Spaniard as early as 1789. Kelly makes the remarkable assertion that Smith foretold cyclones, a phenomenon never known until recently. This was met with numerous proofs of the antiquity of hurricanes and wind storms. Kelly claims that Smith was a much maligned man, as all true that a large amount of burning has prophets have been. Braden says that all pure characters are always exhonerated finally, that Smith has not been, that the fact cannot be gainsaid that Smith was a vicious and unprincipled scoundrel, and that his character does not entitle him to the least credibility. Many inconsistencies in the Book of Mormon, and absurd fallacies in his opponent's arguments are shown up by Braden who is a clear reasoner and forcible orator. Mr. Kelly is nevertheless a winning and enthusiastic speaker and seems to carry the whole andience with him until Braden again takes the floor. A'lgood number of ministers are present from abroad. The discussion will continue an entire week, and will be published in book form from the Stenographic Report.
