ORGANAL WEAKNESS Immediately cured and full vigor restored. This distressing affliction—which renders life a burden and marriage impossible, is the penalty paid by the victim for improper indulgence. Young people are apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now who that understands this subject will deny that procreation is lost sooner by those falling into improper habits than by prudent? Besides being deprived of the pleasure of healthy off-springs, the most serious and destructive symptoms of both mind and body arise. The system becomes deranged, the physical and mental functions weaken. Loss of procreative powers, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, wasting of the frame, cough, consumption and death.

Persons ruined in health by unlearned pretenders who keep them trifling month after month taking poisonous and injurious compounds, should apply immediately.
