Why Not? EDITOR JOURNAL, Dear Sir:-Please

allow me a limited space in your paper for a few remarks relating to sidewalks in our most magnificent, sublime and elegant city. I feel under lasting obligations to the mayor and city council for the manner in which they handled our petition, that we presented to them in good faith asking them to assist us in procuring a sidewalk on the west side of Olive street, in the southern part of the city (on the bottom) and they did condescend after the lapse of nearly a year to have a notice published in the paper to the effect that a sidewalk should be laid on the above mentioned property. Now, it appears to me

that we residents of the bottom should be entitled to some little notice in such matters. We pay our ratio of taxes in proportion to the other parts of the city and should be entitled to a trifling notice in this respect at least. We have been promised, from time to time, that the matter should be attended to, at once, but the thing fails to connect some way. It is no trouble

for the members of the council to get all the sidewalks that are necessary to enable them to get to and from their residences dry shod, in times of need, but we, poor, unworthy, for-
