This office is in receipt of circulars from the Civil Service Reform Association of New York wanting to know whether we are in sympathy with them. The JOURNAL believes that the purely business part of the government should be conducted on business principles. The great body of the people are interested only in having good government, but the American people, we do not think, will ever give their consent to the continued existence of an office-holding class. It is all right to have efficient service, but when any man or set of men think they are the only ones who can do the work right, it is about time for them to die or get out,—if for nothing else, to see what the people will do under the circumstances. There is one other feature of all the "reform" measures so far broached, that is not fair, and that is to compel a subordinate to submit to a severe examination that his chief could not pass. If laws are to be just, the general principle upon which they are based should be universally applied, and state representatives and senators, governors, congressmen and presidents allowed to be selected only from the number of those who have been tested as worthy by a competent board of examiners. If "fitness" is to be the test, why not apply it to the "applicant" for the highest office in the land, as well as the lowest? The truth is the best men are not made manifest by the work of a board of examiners—there are other qualifications than the ability to answer hard questions asked from a school book; many a man doing well on a Nebraska farm—men of good common sense and sound judgment—would make excellent officials, here and there, but couldn't answer one-tenth the questions that these examiners are in the habit of "firing" at applicants; there are hosts of bank presidents throughout the country who couldn't explain the rule for cube root, the quadrature of the circle or even how to determine the amount for which a man must give his note at sixty days, eight per cent, to realize \$100 cash down, who yet make the very best kind of bank presidents, because they hold hard to the chief requisites, to have a depositor's money ready for him on call, not to risk it in speculation, and use every precaution for safe-keeping. After all, though the people do make mistakes, it seems to us that they can't decide for themselves, in each case where their wish can be fully, freely and fairly ascertained. The JOURNAL says to these and all other reformers, make the government by the people, more and more, and you will secure the greatest reform possible, and even then the millennial period will still be in the distance.

The story of the Buffalo scandal was to have been suddenly stopped by a criminal proceeding on the part of Mr. Cleveland for libel against the author and publisher of the story, but no action has been taken to have the parties arrested, and now it appears that the Boston Journal has had a representative in Buffalo who has interviewed responsible parties, and finds that the charge against the democratic nominee for president is true. Mr. Cleveland's personal character is not only suffering in New York, but throughout the country, and the story should be promptly met and proven untrue by unquestioned testimony if it can be done. No innocent man should permit such a story to be circulated against him for twenty-four hours without taking some action to refute it, or to confess it true, and plead extenuating circumstances in his own behalf. A Catholic priest in Albany has gone so far as to publicly demand the withdrawal of Cleveland's name from the ticket and the substitution of Horatio Seymour or "some other clean man." We believe the time has fully arrived for Mr. Cleveland and his friends to put a stop to this matter by bringing forward the evidence to contradict and disprove it, or take the consequences. The JOURNAL has refrained, thus far, from publishing the original statement and has been waiting patiently to receive the evidence that the story was false, and we intended, with pleasure, to publish the contradiction in the JOURNAL for what it was worth to the friends of Mr. Cleveland.

The national democratic committee met at the Delavan House, Albany, on the 29th ult., and was called to order by Secretary Prince, in the absence of Chairman Barnum. On motion of Miller, of Nebraska, Hon. John S. Barbour, of Virginia, was chosen chairman pro tem. The roll was called and all the states were represented except Connecticut, Kentucky, Maryland, Michigan, Nevada, Dakota, New Mexico, Utah and Wyoming. In behalf of the committee on organization, made a report which was adopted, but the committee decided not to publish it at present. W. H. Barnum heads the long list of names composing the executive committee, but Nebraska has no representative on the committee. During the meeting an effort was made to have the report of the committee on organization given to the newspaper, but it was voted down.

The democratic committee designated by their national convention met at Albany, N. Y., on the 29th ult., and nominated Gov. Cleveland officially for president. The address of the committee as well as the reply of Gov. Cleveland present nothing new or startling either in thought or principle, but we are forced to acknowledge that both the address and reply possess an excellence in the way of brevity, which meets our full approval and we cordially recognize that quality of the address and reply to all political parties.

Another Delegation for Blaine. Ed. JOURNAL, Dear Sir:—As there are a good many of my friends who to know the reason I support Blaine and Logan, if I am not intruding too much on your valuable space I will give some of my reasons, as my first reason is, Cleveland cannot be my friend, or of any laboring man, mechanic or farmer, with the free-trade plank in his platform, which would have American labor down to the old standard wages of the good old democratic days, from fifty to sixty cents per day, and our farmers selling wheat from twenty to twenty-five cents a bushel; that is what free trade would bring, but that is what all the New York monopolists want—cheap labor.

No! We will have an American for President, J. G. Blaine, for a man to be an American in the full sense of the word must love his country; the accident of birth don't fill the bill by a long way; he must be patriotic; he must not enter into any compact with other nations to cripple his own, and that Cleveland has done in his free trade dogma and that in my mind is becoming a party to the biggest steal ever perpetrated on any nation, and what will be the outcome of free trade? You will sell your wheat before two years, if Cleveland is elected, as I said, for twenty-five cents a bushel and everything else in proportion.

Another reason is Cleveland has identified himself with the worst enemy of the Irish Americans in the country, Abraham S. Hewitt of New York, who introduced the O'Donnell resolution to have a stay and investigation to show why he was sentenced to death; this resolution went through without a dissenting vote, but Hewitt, to undo what he had done, went in the night to the British Minister, and told him it was all unbecom and only taffy for the Irish; the minister telegraphed these facts home to his government and O'Donnell was hung at the time appointed—did not get one minute. Just picture to yourself, fellow citizens, and how you would be when it would happen, which I don't expect it ever will, for there is enough of true Americans left not to allow any such a pair ever occur as the following. See how it would sound, Grover Cleveland, president, Abraham S. Hewitt, secretary of state. It would not be a very good time then to be Irish and the only way out is to vote for Blaine and Logan.

Now, Mr. Editor, as some of my democratic friends will say I have a motive in writing the foregoing, right here I want all my friends to bear in mind that I am not looking for anything, don't expect anything and don't want anything, as I have rustled for myself since I was nine years old and am able to rustle yet, but there is one thing I do want, and that is to be commander in chief of myself, that is to do my own thinking like any free man. Hoping, Mr. Editor, you will excuse me for intruding on your valuable space, I am, dear sir, Respectfully yours, DAN. CONDON.

Of Interest to Soldiers. Claimants under the act of June 3d, to provide for the muster and pay of certain officers and enlisted men, and July 5th, to relieve certain soldiers from the charge of desertions should make application to the Adjutant General for an amendment of their records and having secured this, the Second Auditor of the Treasury can take cognizance of, and act upon the claims for pay. It is stated the intermediation of a claim agent is unnecessary.

CITIZENSHIP of the republic must be the panoply and safeguard of him who wears it. The American citizen, rich or poor, native or naturalized, white or colored, must everywhere bear secure in his personal and civil rights. The republic should never accept a lesser duty, it can never assume a nobler one, than the protection of a humble man who owes it loyalty—protection at home, and protection which shall follow him abroad, into whatever land he may go upon a lawful errand.—[James G. Blaine.]

CONGRESSMAN CULBERTSON, of Ky., who represents the Ashland district, attempted suicide the other day at National hotel, Washington, D. C., by shooting. He fired several shots, one of which entered his right temple, coming out near the ear on the opposite side of the head. He was still living on the 31st ult., but the physicians have no hope of his recovery. The use of strong drink the only reason assigned for taxing his own life.

L. M. K. TURNER, Chairman. THE IRISH NATION, the Irish World, Freeman's Journal and Boston Pilot, with a number of other Irish papers of less note, support Blaine, and yet, once in a while, we come across a democrat that would fain make himself believe that it is all a "lie got up to affect the election." The papers know what they are about, however.
