### "LOOKING OVER" MOTHER.

"Going any where this vacation, Kate Morgan?

"No. I did think I would go to the Catskills for a week and have one good time 'like folks,' You know I never really did do anything just for pleasure, but the stern needs of the coming winter I think will change my plans."

"What's the need?" "A velvet dress."

"You don't mean it. Do you forget that you are a graded-school teacher at a salary of \$9.00 a week?"

"I can not help it. I have earned my money and saved it, and I want one thing that I feel at home in when I am invited to such places as Mrs. Cunningham's, for instance.

"All right, of course." "Are you going anywhere, Louise?" "No, I have changed my plan, too." "What was it?"

"I was invited up to Uncle Edward's farm to spend the summer, and expected to go until I heard Dr. Lave's for a dining room; and here they sermon two weeks ago." "I did not hear him allude to the

fact."

"Not exactly, but do you remember his asking us if we had ever thought what was the very best blessing we ever had, and advised us to go home and look over our blessings' and give God

too far? The Descon reckoned the miles and said. "Roxy could easily do it in four days, and three back" he added: "she's a masterful hand to know when her head is turned homeward.' It was all settled at last. The Dea-

con liked to put a generous bill in the collection for foreign missions, and he liked a good bargain right well, and it did come a little hard to offer Roxy and the rockaway for "a dollar a day and her keep," but generosity compelled,

and he never regretted it. That evening Kate unfolded her plan at home. Of the surprise, the objections, the slow, because fearful, assent of the stay-at-home elders, and the de-

light of the children we need not stop to speak. Suffice it, that the second week of August proved as bright and bland as

could be desired, and at half-past five Roxy and the carriage were in waiting at the door of the Morgan home. Then it took the family just one hour to pack in the belongings necessary for the trip. Not the clothes - they had each on a good stout suit, and beside that carried one poorer to wear in the woods. But

there was a small boiled ham and three loaves of wheat bread, and a pail of ginger-snaps and a package of cheese, a bag with salt and pepper for the eggs they

should buy, and tea and coffee and sugar, and pain-killer, and liniment, and a few other such motherly provisions.

"Husband, you haven't made a mistake in the box, have you? That does not look just like the one I put the sugar and things in."

It was opened and found to contain hard soap and silver polish, and they all enjoyed the laugh, and as for Kate. one look in her father's face was pay-

ment enough for all her trouble. At last they were off in the early glory of the morning, through the halfawakened streets, down over the bridge near the noisy factories, and then out and up into the fair countryside, past

beautiful farm-houses with their flowers and fruit orchards, through bits of woods where birds were chirping and squirrels racing, by little singing brooks and miniature falls, until at eleven o'clock they had come fifteen miles and were all agreed that a convenient wood

with large flat stones was just the place camped out. Roxy was unharnessed, a little fire built by the brook, and over it

Rags, wool, copper and brass are smuggled in considerable quantities on the coast. Thousands of dollars' worth of these articles are smuggled yearly. They are first shipped to Grand Menan and Campobello, where they remained stored for months. They are then quietly reshipped in vessels to Boston or some other port. A large number of the fishermen engaged in the herring fishery are given to smuggling. They conceal their packages of liquor in their cargoes of fish, and then run into either Machais, Jonesport, Millbridge or Sullivan and get rid of them. The field of smuggling operations includes Bar Harbor, Southwest Harbor, Bar's Harbor and Seal Cove at Mt. Desert island. Sometimes coasts smugglers will run into Castine, Vinalhaven and Rockland, and, perhaps, go up the Penobscot River, while occasionally they sail direct to Portland.
