Matrimonial.

At St. Francis Church, Tuesday morning, Feb. 24, '85, at a formal high mass ceremony, the Rev. Father Serafin officiating, Mr. Wm. T. Walker was united in marriage to Miss Jenny A. Condon. The morning was a little lower, but before the hour for the ceremony had arrived the sun had rolled back the clouds and appeared to glory with its bright, warm rays the happy event, a beautiful augury of a bright and happy future for the young couple thus uniting their destinies for life.

The bride is a daughter of Daniel Condon, of this city, having resided here for about eighteen months past, a resident of the county, however, for a number of years. She has made many warm friends since coming to Columbus, and is awarded by all that respect and esteem which is due to a true and noble womanhood.

—A man giving his name as P. J. Dinni gave himself to Sheriff Kavanaugh one day last week as a self-confessed murderer, claiming that he had killed a man at the transfer depot at Council Bluffs, turns out to be simply a tramp in desperate straits for something to eat and shelter from the cold. He was summarily bounced as soon as this became apparent to the sheriff.

The city schools were closed last Thursday until Feb. 9th, next Monday. This action on the part of the school board was taken at the recommendation of the physicians of the city as a precautionary measure against the spread of diphtheria which had become prevalent. The decision to recommend such a step on the part of the board was arrived at through a consultation of the leading medical talent of the city, and in view of the experience which has come to some of our neighboring towns from the dread disease, the spread of which was doubtless largely augmented through the schools, the action would seem a wise one. By the time the schools again open the physicians think they will have the disease under control and the danger of a general spread, if due precaution is observed, will have passed.

If reports are true some of the new rules of the U. P. Ry. border very closely upon an infringement of the personal rights of the employees; for instance, the rule which prohibits them from accepting a gift of cigar. However, as a protection against those little two-for-a-cent human specimens who always expect to secure five dollars worth of favors for a nickel cigar, the innovation will be hailed as a deliverance.
