Miss Olla Ashbaugh, formerly a dentist in this city, and an active member of the M. E. church and of the Good Templars lodge, died in St. Joseph, Missouri, Sunday, May 31st, on the 24th anniversary of her birthday.

We print herewith a paragraph concerning the Columbus Waterworks ordinance for the purpose of correcting some misapprehensions concerning the same. It is from the Norfolk News, which always takes a deep interest in the welfare of this city, the editors being old friends of Columbus:

"Columbus has given the right to build waterworks to a private corporation, giving it the exclusive privilege of supplying the city with water for twenty-five years. It is a matter of surprise to us that a community so strongly imbued with anti-monopoly sentiments should lay the foundation for so great a monopoly as a waterworks company can be when it has a mind to. Twenty-five years is a mighty long time to give any body of men the right to charge what they please for, and make all the money they can out of the water supply of any growing place, and we lose our guess if Columbus doesn't learn by dear experience that it is a foolish thing to do. If the city has enough hydrants put in to afford adequate fire protection, the rent paid will be equal to the interest on the amount of money invested in the waterworks system. It would be better for the city to own the works and make what money is to be made."

Columbus is as strongly imbued as ever with anti-monopoly sentiments, and does not believe that she will have a monster monopoly in this company, but on the contrary, a friendly corporation of our own citizens, united for the laudable purpose of protection against fire, and not especially for accumulating wealth. The News conveys a wrong impression by saying they will "charge what they please," because, in price, quality of service, &c., there are, as the JOURNAL thinks, ample safeguards for the city, besides which we feel confident that residents of Columbus will serve Columbus interests. City Council.

A saloonist's permit was granted to M. J. Leonard. City Treasurer Delman's report was accepted and filed. It shows a grand total of \$599,933; and \$623 35 of this is license fund, and goes to the support of public schools. The city has available \$139.50, general fund; street, alley and highway fund \$248; sidewalk fund 70 cts.; miscellaneous \$138.94; improvement fund \$12.46. \$513 has been added to the license fund since the Treasurer's report May 1st, and \$86 paid out of the general fund, and \$138 out of the improvement fund. A resolution concerning certain delinquent poll tax was referred to committee on claims. On motion of Lockner the City Engineer was instructed to take a level from the northeast corner of Stevens' addition on a line north, or ascertain any other route for practical drainage. On motion of Lockner, Rickly was appointed a committee of one to have all unrecorded ordinances placed upon the ordinance record book. The report of chief of police, James Nichols, showing 6 arrests for drunkenness; 7 for drunkenness; 1 for violating city ordinance against allowing minors to play billiards. The Council adjourned to meet next Monday evening. The Boone County News has this to say of a Columbus lady gifted with the power of song: "The fourth concert by the Philharmonic Society, last Friday evening, was quite well attended, and well received. In addition to our home talent, Miss Rose North, of Columbus, assisted. Miss North has an elegant voice, which shows careful and artistic cultivation. Her first number, 'O, Loving Heart, Trust On,' by Gottschalk, was beautifully rendered, but was a trifle too classic for general appreciation. Her second number, a bewitching waltz song, was heartily enjoyed, and she responded with 'The Last Rose of Summer,' which always takes with nice rendition. The society is under great obligations to Miss North for her assistance, and the people for the privilege of hearing her. It is hoped she may sing here again in the near future."

A recent number of the Scientific American contains the following paragraph: "B. B. writes: The citizens of our town wish to run water pipes, to be used in case of fire, from one end of the town to the other, about three-eighths of a mile. At each end of town is a feasible one? If so, please be so kind as to tell us what size pump, pipe, etc. Will use salt water, and have to draw it about one hundred feet. A. For your fire apparatus use a 6-inch cast-iron main pipe with hydrant at convenient places. A fire pump with steam cylinder 14x16, costing about \$550.
