Ayer's **Cherry Pectoral** 

Should be kept constantly at hand, for use in emergencies of the household. Many a mother, startled in the night by the ominous sounds of Croup, finds the little sufferer, with red and swollen face, gasping for air. In such cases Ayer's Cherry Pectoral is invaluable. Mrs. Emma Gedney, 159 West 128 st., New York, writes: "While in the country, last winter, my little boy, three years old, was

taken ill with Croup; it seemed as if-be would die from strangulation. Ayer's Cherry Pectoral was tried in small and frequent doses, and, in less than half an hour, the little patient was breathing easily. The doctor said that the Pectoral saved my darling's life." Mrs. Chas. B. Landon, Guilford, Conn., writes: "Ayer's Cherry Pectoral

. Saved My Life,

and also the life of my little son. As he is troubled with Croup, I dare not be without this remedy in the house." Mrs. J. Gregg, Lowell, Mass., writes: "My children have repeatedly taken Ayer's Cherry Pectoral for Coughs and Croup. It gives immediate relief, followed by cure." Mrs. Mary E. Evans, Scranton, Pa., writes: "I have two little boys, both of whom have been, from infancy, subject to violent attacks of Croup. About six months ago we began using Ayer's Cherry Pectoral, and it acts like a charm. In a few minutes after the child takes it, he breathes easily and rests well. Every mother ought to know what a blessing I have found in Ayer's Cherry Pectoral." Mrs. Wm. C. Reid, Freehold, N. J., writes: "In our family, Ayer's medicines have been blessings for many years. In cases

"MEXICAN PETER."

How He Defended Himself When Accused of Turkey Stealing.
"Mexican Peter," is something of a celebrity in his native county. He won his sobriquet, if not his laurels, when serving as a body-servant to his young master, "Marse John," during the Mexican war. Now, our hero is not free from some of the failings of his race, and the shrines of pious Mexicans, with their gold and silver ornaments, did prove a most special pitfall and temptation to poor Peter. In vain did "Marse John" instill into the African "Marse John" instill into the Airlean mind lessons of higher morality, with a wholesome blending of the terrors of the law when coming in the garb of strict military discipline; the fact remained the same: in the time of temptation Peter had to be closely watched. When the war was over "Marse John" went to Washington, and Peter was sent home to "ole marster." For a few short hours after his home coming he stepped a hero, with many tales of the marvelous to tell. Having some sus-picion of how matters stood, "ole marster," with a sly twinkle, said: "Now, Peter, what did you bring back from your travels to show us?"

This was touching a tender spot, and Peter's countenance fell as he said: "I 'clare, ole master, Mars John didn't hab no conseiece 'bout dat thing at all. Much as dar wuz to git, all I could fetch home wuz wun lil silber gord—" displaying with a mixture of pride and melancholy a little image of some saint that might or might not have been of

Time rolled on, and the proclama-tion emancipated Peter from "Mars John's" conscience, and at various sundry times he profited by his liberty of action, and finally found himself in only request to be "'lowed to splain which journey he successfully carried the time is not known. - Chicago Mail. Antici-

got into dis trouble, 'cause I sholy is, and hit troubling me 'nough; but in jestice I mus' tell how it all cum upon me. Fust, sum blame lay at de door oh Marse John. He good man, good as gole; but he wun contrackted, not say wun stingy, farmer, He got de ole thrashin-machine he had 'fore de war, what leave mos' ob de wheat in de straw, and dat fack 'tice ole Mis Simpkins' tuckeys to cum dar, an' scratch in de straw an' eat. Now dev come dar an' do dat so long tell dev jes shine, and, gentmun, when a tuckey shine, he fat, an' I look at dem shining tuckeys so long tell I 'gin to feel mor'lly bound to have one, an' I got one. Now dat's de fust reason, but chiefliest dis trouble come to me 'cause ole Mr. Simpkins wa'nt no gentmun. Et I had been dealing wid a gentmun, things ud 'a bin diffunt; but he wuz pore white folks, an' ez I only knowed de ways of gentmun, I wa'nt no match for him. I does know a gentmun. Didn't me an' Marse John here an Marse Peyton dar all come out de same estate, and who ever fetch de word dey wa'nt gentmun? Well, me an' de ole 'oman an' de chillun had jes dun eat dat tuckey, an', to sabe de scand'l ob de thing, I had pit all de feathers an' bones in de Dutch oven-my Dutch oven Mis' Sally gib me--when I hear somebody knock at de door. I went to de door, an' dar stan' ole Mr. Simpkins! Now some pore white folks i wus dan p'inter dogs, dey so peersome. Mr. Simpkins come in; he look round, an' walk straight to my Dutch oven

Mis' Sally gib me. He peep in; he find de feathers an' bones, pull um all out, an' jes laff most outlandish! Wuz dat a gentmun? Now de cote knows all, an' I couldn't set here quiet tell dey did." It is needless to say the ruling of the "cote" was not very severe.—Harper's Magazine. INCESSANT ACTION.

The Dangers to Which Nervous and "Hu ried" People Are Subject.

Some men are in incessant action early and late and all through the day They have no time for family or friends. As for holidays, the less for them the better. They have inherited a nervous temperament, and are doing just the wrong thing with it-allowing it to hurry them to an untimely end. They wear themselves out. Their brain is ever in a state of morbid activity almost like that of an insane man.

To all such we say: Early learn to use restraint, or, in spite of all later volitions, your momentum will steadily increase, and sooner or later there will be a break-down. The more nervous the temperament, the greater the need of husbanding the nervous energy by intelligent self-control, by appropriate diversions and by frequent seasons of absolute rest. The machinery may be of iron, but it needs to come to a standstill at times.

Many persons, not of a nervous temperament, specially hurry at their meals. They have vigorous appetites, and they eat voraciously. Now, swine can do this safely, but they have a vigorous digestion, and have nothing to heard in season by those who eat in a hurry. Rapid eating is generally excessive eating, with, in due time, dyspepsia, "bilious attacks," liver com-plaints and gout. Besides, not only health, but the good of all concerned, demands that the mealtime should be one of restful leisure, pleasant inter-

change of thought, and social cheer. Many persons hurry to catch the departing ferryboat or cars. They barely get aboard by hard running-or perhaps just fail. Such acts may start a heart trouble, or increase one already started. or precipitate it to a fatal termination. The London Lancet, giving an account of two recent deaths from hurry and exertion, one a young man of twenty, the other a girl of sixteen, adds: "How often has the hurry to catch a train, or some other sudden exertion, throwing extra work on a dilated, fatty or otherwise diseased heart, resulted in fatal syncope? Remember, people often have heart troubles without knowing it .- Youth's Companion.

—A man named Conly, living in one of our Northwestern Ohio counties, and aged seventy years, won one thousand dollars the other day by walking seven miles in less than seventy minutes. It would seem as if the time were not far distant when there won't be any further use for young men whatever.— Bellefontaine Examiner.

WHOLE NO. 828.

ACROSS A CONTINENT.

Dr. Jules Debrincke, one of the few white men, and the only German, who has performed the perilous and as it was at one time regarded the impracticable feat of crossing the Australian continent from the south to the north. is in the city. The expedition, consisting of the doctor and six others, started in the beginning of March, 1875, and took an almost due north

"After nine and a half months"

travel," said the doctor, "we reached Palmerston without losing a man, except a native who died of a surfeit when our party was about two weeks on its way. The chief object of the expedition was to survey the west of Eyre lake for the Government of South Australia, and to report as to the general character of the land traversed. The only incidents of note that marked the journey occurred once when we were led astray from our proper route by fata morgana or mirage, and once when we had to ward off an attack of hostile aborigines. The mirage appeared near Lake Eyre and appeared to every one of the party to be a landscape exactly like what might be expected in that neighborhood, containing a lake, the color of which indicated that it was fresh water. We went ten miles out of our course be-

fore finding out our mistake. "The hostile tribe attacked us near the Ashburton range in North Australia. They were armed with spears and arrows, and I was the only one wounded in the party, having received a spear thrust in my left arm. One volley of our rifles served to disperse our assailants; and we went on our way unmolested thereafter. We found traces of blood on the trail, but we had no particular desire to follow them up to see whether any of the crowd had been killed or not.

"On our second expedition in 1877, one year after Giles had started with his expedition from Perth for Adelaide, out, we started from Adelaide for West Australia, but failed to reach the coast, thor of America's nearest approach to and after losing one of the members of a national hymn, who is living in Newour expedition, we were compelled to ton Center, Mass., at the age of seventyturn south and make for King George's seven, Dr. Oliver Wendell Holmes, in Sound, which we ultimately reached, his poem, "The Boys," wrote: and from which we returned to Ade- And there's a nice fellow of excellent pith, laide by steamer.

laide by steamer. "Of the more notable exploring exeditions which have attempted to cross the continent may be mentioned that headed by Dr. Leichardt in 1848, and that of Burke and Wills in 1860-61, neither of which three explorers sur-

vived to return, and Leichardt was never heard of. "McDougall Stuart was the first to raverse the continent from Adelaide to the Malayan sea, which he did in 1862, and along the route taken by him the transcontinental telegraph line was laid. Several minor expeditions followed, fitted out by the South Ausralian Government, and in some cases by private enterprise; but ours was he first expedition after Stuart's. which went in a compact body from the south to the north of the continent. I intend on my return to Australia to form an expedition, to be led by myself in person, to search for Dr. Leichardt's
