To be sure we need protection against fire, and need it badly, and, so far we are individually concerned, we believe in having the best attainable methods, but we also recognize the fact that there is a general disposition to look upon \$25,000 just at present, as too much. Would it not be better to await the developments of the next two or three weeks at least, and then act when there can be some unanimity? This looks to the JOURNAL to be the wiser policy, especially as it need not, necessarily, delay work to be done this season.

Bismark Township.

Breaking has recommenced in this

John Luchsinger sold his fat steers last week. Don't know the price.

Rudolph C. Mueler shot a swan on the 5th which weighed sixteen lbs. O. D. Butier has enlarged his cow stable and also erected a shed for hay Louis Nounburg lost five head of cattle from some unknown disease last week.

This weather, though not on the whole pleasant, is far more enjoyable than the snow of a few weeks past.

George Hodel went to Chicago on the 31st with his fat steers. Mr. II. intends to make farming pay. If the weather is not exceedingly

unfavorable the slough bridge south of Matthis's bridge will be ready for crossing on the 10th. Ducks are scarce in this vicinity

now; some person who has plenty (that he cannot control himself) had better ship a car-load to Bismark. Five or six immense herds of cattle went by ou their way to Columbus

on the 3d, which shows what industrious, thriving farmers we have here. Quite a number of people who live in other counties and states, inscribed their names on the railing of Sheli mark. Their names still remain, and they will be remembered in the years

We heard of some one shooting a duck last week; we wonder how he managed to get it, whether he lured it into a fly catcher and suddenly closed the lid, or so paralyzed it by talking politics that he was enabled to shoot it, we do not know; but as we have frequently made efforts in that direction without avail, we would George Fulwider to Vashti F. Beach, be much obliged to him if he would send us the plan.

Just to illustrate the pluck of the hunters of Bismark, I will narrate the following incident: One of our nimrods was out hunting with some of his friends last week, and suddenly found himself out of shot; seeing a flock of ducks approaching he commenced putting in powder, and on being asked by one of his friends what he was going to do for shot, replied, "I still have a nail in my pocket." It is needless to say that he O. N. & B. H. R. R. Co. to Daniel got some ducks. Such inventive gen-

ius deserves success. The district and town meetings were held at the Bismark school house, April 5th and 6th. The former resulted in the re-election of Jacob Schwank for treasurer; also that there should be seven months school, the ensuing year, the summer term, two months which is to commence the third Monday in April, and the winter term of five months shall begin the first Monday in November. The latter was devoted to discussing bridge building and the financial condition of the Township. of C. H. Matthews, Clother House.

The annual school meeting of district 31 was a pretty lively one. Mr. R. Lewis was re-elected treasurer. The board was ordered to have two months summer and five months conceded now that it becomes the winter school, and 10 mills of taxes brick foundation built under it and is being painted, giving it a solid and inviting appearance, and Frank is making a good and neat job of it.

> The annual township meeting of Joliet township was but thinly attended. Its foremost officer also was prominent for his absence. A. Henrich was elected chairman. A good deal of dissatisfaction was expressed on account of law suits the town has careless expenditure of public money. 4 mills of taxes were voted for general fund.
