Council Proceedings.

July 13. City Treas. report for June presented and ordered filed. On motion of North the treasurer was requested to report to Council on which lots special sidewalk assessments have been paid, and amount on each lot.

Communications were read from Spitzer & Co. to Clark and Treasurer stating that they did not intend to pay the accrued interest on the water bonds; a resolution offered by North was adopted to the effect that the bonds must be taken on the terms agreed upon by N. W. Harris & Co., or returned at once.

The Judiciary Committee submitted the following report, and also report of City Attorney. To the Judiciary Committee: The City Attorney would very respectfully request that within one half mile of the corporate limits of the city of Columbus the city council can confer jurisdiction upon the mayor for any legitimate purposes, except for taxation, and further, the statute provides that the Police Judge shall have exclusive jurisdiction of all offenses against the ordinances of the city.

There was quite a sight on the U. P. track between Duncan and here—a car containing hay on fire—detached from the remainder of the train, and run up to the water tank where the blaze (20 feet high) was soon quenched, without very much damage.

James Haney returned Thursday from Cedar Rapids, near which place he has a valuable tract of land, the former homestead of Charles A. Stevenson, the printer. Mr. H. says that G. W. Brown, formerly of this vicinity, is flourishing finely at Cedar Rapids, doing a large business, doing it well, making money and friends.

Nebraska may well be proud of such.

Mrs. Mary Lipps of Omaha, with her three small children, were taken from the U. P. depot Monday to the Sisters Hospital. Mrs. L. took suddenly sick with spasms. She was on her way to Denver to see a sister; a small purse was raised for her. It was a very pitiable sight to see the helpless, sick, and destitute mother, and the dependent little children.

E. B. Hall has made an agreement with several men in this city and Genoa to use the Miller Tobacco Paste Destroyer for 30 days, and if, at the end of that time, the taste for tobacco has not been destroyed in them, he charges nothing; if it has been, they agree to pay him \$5 each. Fair enough, and shows Mr. Hall's full faith in the medicine. He knows what he is doing.

We take pleasure in announcing the fact that next Wednesday, 21st inst., Rev. Father Ryan of this city will celebrate the twenty-fifth anniversary of his ordination as a Catholic priest. We understand that many of the clergy of the state will assemble here on that date to honor the occasion and to show their appreciation of the Rev. Father's services to religion in this state.

Bismark Township.

The grain is being laid low. J. C. Swartley has got a new well made. Hay stacks are springing up rapidly here. Mr. McGill has purchased a self-binder. O. D. Butler is putting up a good horse barn. Some of the neighbors are still cultivating corn. Miss Alvina Heiden has been sick the past few days. George Hodel sold five loads of fat hogs last week. Waving fields of golden grain are numerous in this vicinity. Peter Grelsen brought twenty head of his steers home last week. The neighbors are all feeling happy over their bounteous harvest. There was born to Mrs. William Gerhold, on the 14th, a fine daughter. Some of the neighbors have commenced cutting wheat, the rye being all harvested. The weather at the present time is a little more pleasant than the scorching sun of last week. William Gerhold has purchased a threshing machine, and intends to make the grain fly this fall. Hog cholera is still raging in this vicinity, Louis Heiden, ar. and Jacob Karlone each having lost about thirty hogs. Messrs Wermuth & Bettcher of Columbus, were in Bismark last week putting up reapers for Messrs. Mueller and Heiden. Judging from the amount of lumber which is being hauled out of Columbus lately, there is a great deal of building going on somewhere. The corn is doing fine, notwithstanding the dry weather; there are ears of considerable size, and the silk is making its appearance now. The sportsmen of this vicinity are waiting in anxious expectation, for the harvest to pass, so that they may exercise themselves searching for prairie chickens. Chinch bugs are again appearing in large numbers in this neighborhood, and unless there is a fall in their ravages upon the wheat, that crop may be greatly lessened. The indications were that we were going to have a severe storm last week but although the amount of rainfall was small it served to cool the atmosphere and it is hoped, pave the way for more rain. J. C. Swartley is an energetic supervisor, and is awake to the interests of the people of Bismark Township. George Hodel returned from Kansas City Saturday last bringing with him sixty-eight steers which he intends to fatten and sell about New Years. Mr. H. also visited the above named place a few weeks ago, but did not buy any cattle. There was an extremely enjoyable occasion at C. D. Butler's on the evening of the 15th, at which ice cream and cake were distributed with a lavish hand by the host and hostess. This pleasure seeking company assembled in honor of the fifteenth birthday of Miss Sybil Butler, a beautiful and accomplished young lady and an excellent scholar. Her many friends were profuse in their congratulatory expressions which accompanied their many and costly gifts, and we sincerely hope that she may have a long life, and happiness in the future. Two persons entered the Bismark school house the other night by breaking the catch of the shutter and raising the window; it seems that they used it for a place of abode for the night, maps being taken off the wall and spread on the floor for beds, and other school property being used rather promiscuously. Although the amount of damage was small, yet this proceeding does not speak very well for the perpetrators. The name of one of them, (from writing on the black-board) appears to be Frank Miller, the name of the other is unknown. Neither of them belongs in this neighborhood. We noticed an article in the JOURNAL a few weeks ago entitled, "How Schools May be Reformed." This article seemed to strike most of Bismark's citizens favorably, and we think that it showed things in their true light. The one great fault of these modern times, is a lack of education itself. How many thousands of people have failed in business simply for want of education to carry them through life. The newspapers of today are filled with instances of this character, and this is the very reason why children should improve their flying moments, while there is yet time. And still further, let us reflect upon the fact that our eminent men of this day have been raised to their exalted pinnacles of fame, by their possessing a good education. It is education which builds up the world. It is education in the art and science that has caused all our machinery to be constructed which made labor with the brain easier, as well as labor with the hands. Let us notice what a vast improvement has been made in the manner of educating children; note the difference between these modern and ancient times. See what a great number of branches are being taught at present in our common schools, which, in olden times, were unknown even in the schools of a higher order. Education tends to promote the welfare of the human family; therefore it should be encouraged in every way. It is the bond of the human family; nothing else can suffice to fill the position which it holds; therefore it should be encouraged and be promoted as the greatest necessity of the age, and the most priceless legacy which any one can possess. CHARLES.

Many of our readers will remember her as a teacher in our schools, intelligent, conscientious, and of very gentle disposition. In October, 1882, she was afflicted with cholera, and after a few days' illness, she peacefully passed away. The funeral took place, Saturday from the Episcopal church, a very large concourse following to their last resting place the earthly casket of a pure and heavenly spirit. LOCAL NOTICES.
